REBUTTAL TO ARGUMENT AGAINST MEASURE M

Measure M is about Clayton's future and the city's ability to maintain the services residents depend on every day. Clayton faces a projected $1.18 million structural deficit despite efforts to improve efficiency through fee updates, staffing reorganization, contract reductions, and other cost-saving measures. Those steps helped, but they did not eliminate the ongoing funding gap.

Supporters view Measure M's 1% sales tax increase as a practical investment in maintaining public safety, repairing streets and sidewalks, preserving parks and public facilities, and sustaining essential city services. Clayton's sales tax rate remains lower than that of many neighboring communities, and stable local revenue would help the city retain qualified employees, avoid costly turnover, and plan responsibly for the future.

Opponents argue the measure does not directly solve deferred maintenance. However, without additional recurring revenue, deferred maintenance will continue to grow, leaving fewer resources for streets, landscaping, parks, and city facilities. Once services are reduced or positions are eliminated, restoring them later can be difficult and expensive.

Measure M provides locally controlled funding that stays in Clayton and supports the core services residents rely on. Rather than relying on temporary fixes, it offers a long-term approach to addressing the city's financial challenges and protecting the quality of life that makes Clayton a desirable place to live. Voting **Yes on Measure M** is a vote for a safe, well-maintained, and financially sustainable community.

The undersigned proponent(s) or author(s) of the Rebuttal to Argument Against Measure M at the General Election for the City of Clayton, to be held on 11/3/2026, hereby state that this argument is true and correct to the best of (his/her/their) knowledge and belief.
