BOND MEASURE B
BEAUMONT UNIFIED SCHOOL DISTRICT

IMPARTIAL ANALYSIS OF BOND MEASURE B

This Impartial Analysis of Bond Measure B has been prepared by County of Riverside County Counsel pursuant to Section 9500 of the California Elections Code.

The purpose of Measure B is to enable voters to authorize or reject the Beaumont Unified School District ("District") issuing and selling bonds to provide financing for school facilities projects. The Board of Trustees of the District, by adopting Resolution No. 2026-27-03 ("Resolution"), elected to call an election to place this Measure on the ballot.

Measure B would enable the District to issue and sell bonds of up to a maximum of eighty six million ($86,000,000), at legal rates, levying 2¢ per $100 (or $20 per $100,000) of assessed value while the bonds are outstanding. This Measure, if approved, will not increase current tax rates. Money raised by the sale of the bonds must be used exclusively to finance the list of projects described in the full text of Measure B, which is included in this voter information pamphlet. Bond proceeds will be expended on improvements of deteriorating roofs; plumbing; HVAC; electrical; safety systems; repair/upgrade aging classrooms; science labs; school/career technology facilities at existing schools to support college/career readiness in health sciences, engineering, and skilled trades. Monies generated by the sale of such bonds shall only be spent for these specified purposes. Bond proceeds cannot be expended to finance teacher and administrator salaries or other school operating expenses.

Measure B provides for the District to establish an independent citizens' oversight committee to ensure bonds proceeds are expended only on the types of school facilities projects that have been listed on the ballot pamphlet. The District will conduct annual, independent performance and financial audits to oversee that bond proceeds have been expended only on the school facilities projects listed.

For this Measure to be approved, at least 55% of qualified voters within the District who vote on the Measure must vote yes.

A "YES" vote on Measure "B" is a vote to authorize the District to issue and sell bonds to provide financing of school facilities projects.

A "NO" VOTE on Measure "B" is a vote to reject the District from issuing and selling bonds to provide financing of school facilities projects.

ARGUMENT IN FAVOR OF BOND MEASURE B

This Argument in Favor of Bond Measure B was submitted pursuant to Section 9501 of the California Elections Code. It is the opinion of the author(s), and has been printed exactly as submitted.

Vote YES on B – Repair and Upgrade Our Beaumont Unified Schools **Without Increasing Taxes!**

Our community continues to grow. Families choose to move and raise their families here due to our strong community and public schools. The growing number of students has increased the demand and usage at our schools, and our oldest schools are aging and are starting to show the wear and tear.

Deteriorating roofs, failing plumbing, and outdated electrical systems are expensive, ongoing problems. Last year alone, our schools experienced **138 roof leaks.** Meanwhile, 81 portable classrooms – many more than 20 years old – are past their useful life, plagued by structural damage, water leaks, and mold.

Aging schools are built for a different era of education and need upgrades and repairs to meet today's safety and educational standards. Student safety should always be a priority.

Measure B addresses these problems without increasing taxes by a single penny. Measure B will provide a dedicated source of locally controlled funding that can only be used for improvements to our local schools.

Strict Fiscal Accountability and Transparency

- **Oversight and Transparency:** A citizens' oversight committee, public spending disclosures, and annual audits will ensure that funds are spent as promised
- **Local Funds for Schools:** No funds can be taken by the State – all Measure B funds stay right here to benefit Beaumont schools

ARGUMENT IN FAVOR – Continued on next page

Vote YES on Measure B: Safety Updates and Improved Schools

- Improve student safety and campus security systems
- Repair or replace deteriorating roofs, plumbing, HVAC, and electrical systems
- Upgrade older schools so they meet current health codes, building safety codes, and provide proper access for students with disabilities
- Provide modern labs and career technical education facilities so students are prepared for college and in-demand careers

Vote YES on Measure B: Better, updated Schools for all Beaumont students!

s/ Steven A. Hovey, Senior Community Resident
s/ Susan Y. Aguilar-Martinez, BEST President
s/ Joan Marie Patsky, Citizens Bond Oversight Committee
s/ Shawn D. Mitchell, Director, Beaumont Library District
s/ Francisco C. Hernandez Jr., CSEA President

TAX RATE STATEMENT FOR BOND MEASURE B

BEAUMONT UNIFIED SCHOOL DISTRICT
GENERAL OBLIGATION BONDS
BOND MEASURE B

An election will be held in Beaumont Unified School District (the "District") on November 3, 2026 for the purpose of submitting to the electors of the District the question of incurring bonded indebtedness of the District in the principal amount of $86,000,000. If such bonds are authorized and sold, the principal thereof and interest thereon will be payable from the proceeds of taxes levied on the taxable property in the District. The following information regarding tax rates is given in compliance with Section 9401 of the California Elections Code. This information is based upon the best estimates and projections presently available from official sources, upon experience within the District and other demonstrable factors.

Based upon the foregoing and projections of the assessed valuations of taxable property in the District, and assuming the entire debt service on the bonds will be paid through property taxation:

1. The best estimate of the average annual tax rate that would be required to be levied to fund the bond issue over the entire duration of the bond debt service, based on assessed valuations available at the time of the filing of this statement, or a projection based on experience within the same jurisdiction or other demonstrable factors, is $20 per $100,000 of assessed valuation of all property to be taxed. It is estimated that the final fiscal year in which the tax is anticipated to be collected is fiscal year 2056-57.

2. The best estimate of the highest tax rate that would be required to be levied to fund the bond issue, and an estimate of the year in which that rate will apply, based on estimated assessed valuations available at the time of the filing of this statement, or a projection based on experience within the same jurisdiction or other demonstrable factors, is $20 per $100,000 of assessed valuation of all property to be taxed for fiscal years 2028-29 through and including 2056-57.

3. The best estimate of the total debt service, including the principal and interest, that would be required to be repaid if all the bonds are issued and sold is approximately $178,000,000.

Attention of voters is directed to the fact that the foregoing information is based upon projections and estimates only. The actual timing of sales of the bonds and the amount to be sold at any time will be governed by the needs of the District and other factors. The actual interest rates at which the bonds will be sold, which will not exceed the maximum permitted by law, will depend upon the bond market at the time of sale. The actual assessed valuations in future years will depend upon the value of property within the District as determined in the assessment and the equalization process. Assessed valuation is not the same as market price of real property. Therefore, the actual tax rates and the years in which those tax rates will be applicable may vary from those presently estimated and stated above.

Voters should note that estimated tax rates are based on the *ASSESSED VALUE* of taxable property on the official tax rolls of Riverside County, *not* on the property's market value. Property owners should consult their own property tax bills to determine their property's assessed value and any applicable tax exemptions.

Dated: July 22, 2026

/s/ Mays Kakish
Superintendent
Beaumont Unified School District

FULL TEXT FOR BOND MEASURE B

FULL TEXT BALLOT PROPOSITION
OF THE BEAUMONT UNIFIED SCHOOL DISTRICT
BOND MEASURE ELECTION NOVEMBER 3, 2026

KEY FINDINGS

- Beaumont Unified School District ("District") has provided high quality education to students in the local community over its long history, consistent with its mission to provide District students with the knowledge to recognize their significance and potential, allowing them to use their 21st century learning experiences to become responsible and productive citizens.
- While the District strives to meet the needs of our community and students, many neighborhood schools are now starting to age, with classrooms and science labs that have seen little to no modernization and were built for a different era of education.
- This past year, the District recorded over 138 roof leaks, and the aging air-conditioning systems are increasingly unable to keep up during extreme heat.
- Currently, students attend classes in more than 81 portable classrooms that are over 20 years old. Many of these classrooms suffer from water leaks, structural damage and other ongoing maintenance challenges.
- Over the past year, the District has conducted and completed comprehensive outreach to our community, and two years ago a comprehensive, transparent, long-term community Facilities Master Plan was adopted that identified the needs at each school site to meet modern safety and security standards, meet the District's goals for supporting current academic standards, and address specific priorities at individual school sites.
- Bond revenue is the primary means by which all school districts are able to keep their school buildings and classrooms in good repair and safe, and designed and equipped to support changing educational standards, methods and approaches.
- The District cannot rely on the State of California to fund school facility improvements and the limited state dollars available for facility upgrades often require local matching funds that could be provided by a local bond measure.
- This bond measure requires strict fiscal accountability protections including mandatory annual audits and an independent citizens' oversight committee comprised of local residents to ensure funds are managed and spent properly.

The following is the full proposition presented to the voters by the District:

"Without increasing current tax rates, to repair/replace deteriorating roofs, plumbing, HVAC and electrical systems; improve student safety/security; repair/upgrade aging classrooms, science labs, school/career technology facilities at existing schools to support college/career readiness in health sciences, engineering, skilled trades; shall Beaumont Unified School District's measure be adopted authorizing $86,000,000 in bonds at legal rates, levying $20 per $100,000 assessed value ($6,000,000 annually) while bonds are outstanding, with audits, citizen oversight, all money locally controlled?"

SCHOOL FACILITIES PROJECTS TO BE FUNDED FROM BOND PROCEEDS

The Board of Trustees of the District has determined that facilities needs exist at all of its schools, and that additional school facilities will need to be constructed as the District's enrollment increases or priorities change, as further described below.

Existing Facilities. The Board has established a list of projects to be financed at the District's existing schools and facilities. The projects to be financed by the bonds to be issued by the District include the construction, rehabilitation, acquisition, equipping and furnishing of the following existing and future schools and facilities listed below:

FULL TEXT – Continued on next page

Anna M. Hause Elementary School

Brookside Elementary School

Palm Innovation Academy

Starlight Elementary School

Sundance Elementary School

Summerwind Trails School

Three Rings Ranch Elementary School

Tournament Hills Elementary School

Mountain View Middle School

San Gorgonio Middle School

Beaumont High School

Glen View High School

21st Century Learning Institute

Beaumont Middle College High School

Beaumont Adult School

District Educational Support Facilities and Transportation Facilities

Future School sites

The projects to be financed at each of the school facilities and locations listed above include the following and may be completed through either new construction or the reconstruction, rehabilitation or replacement of existing improvements, and will include furnishings and equipment as needed for classrooms and other facilities:

- Safety and security improvements including security fencing, cameras, emergency communications, alarms, sprinklers, keyless entry, electronic locks and window protection.
- Classrooms, science labs, career technical education and skilled trade facilities, auditoriums, multipurpose rooms, cafeterias, kitchens, libraries, performing arts, sports facilities, lighting, restrooms and other facilities.
- Roofs, plumbing, lighting, electrical, sewer, water and fire alarm systems and building exteriors.
- Replacement of portable classroom space with new portable, modular or permanent classrooms for current and future program needs.
- Modernization of permanent school facilities.
- Upgrading or replacing aging school infrastructure.
- Site improvements including lunch and shade structures, playground areas and equipment, fields and hard courts, parking improvements, concrete walkway rehabilitation and replacement, and improvements to meet Americans for Disability Act (ADA) access requirements.
- Energy efficiency improvements including solar, heating, ventilation and air conditioning installation and replacement, and window replacement to improve classroom environments.
- Removal of hazardous materials such as asbestos and lead paint.
- Added space for school support programs, including dedicated offices, conference rooms, family resource centers and other support areas.
- Technology improvements and equipment for all classrooms, libraries, laboratories and other facilities including hardware and wireless systems, internet connectivity and software for instruction in math, science, engineering and technology.

Whenever specific items are included in the list above, they are presented to provide an example and are not intended to limit the generality of the broader description of authorized projects.

FULL TEXT – Continued on next page

New School Facilities. The projects to be financed with bond proceeds also include the construction, site acquisition, equipping and furnishing of new schools, and the renovation and rehabilitation thereof, to provide facilities as enrollment increases or priorities change. These projects include all elements of new schools including, but not limited to, classrooms, career technical education facilities, science and computer labs, auditoriums, gymnasiums, fields and stadiums, athletic facilities, lighting, cafeterias, administration and support facilities, parking, playgrounds, hardscape, energy efficiency improvements, landscaping, furnishings and equipment.

Implementation of Construction and Bond Program. Listed projects will be completed only as needed and the above order in the listing of projects does not imply a particular prioritization among projects. Decisions regarding the scope, timing, prioritization or other facets of project implementation will be made solely by the Board of Trustees by subsequent action. Projects may be done in phases, based on Board of Trustees' priorities. Listed projects may be completed at any and all District schools, sites and education buildings where such projects are determined necessary by the Board of Trustees. Where terms such as "rehabilitation" and "replacement" are used in the foregoing Project List for the Bond Measure, the Board of Trustees shall determine the best method for accomplishing the project's objective. For any listed project involving renovation of all or a portion of a building, the District may proceed with new replacement construction instead (including any necessary demolition), if the District determines that replacement and new construction is more practical than renovation, considering the building's age, condition, expected remaining life, comparative cost, and other relevant factors.

Each project financed will include its share of architectural, engineering, and similar planning costs, program management, project or construction management, a contingency for unforeseen circumstances, offsite/utility connection costs, and interim housing. Projects also may include the payment of the costs of preparation of all facility planning, facility assessment reviews, environmental studies, construction documentation, plan check, inspection and permit fees and costs for temporary facilities, furnishings and equipment necessary in connection with construction activities.

The projects may include the acquisition of improvements on the project list that are financed by the District on an interim basis through temporary loans, leases, lease-leaseback, or lease-purchase arrangements.

The District intends to apply for State matching funds for all eligible projects to be financed. In the absence of such funding, the District may not be able to undertake some of the projects listed above. Approval of this proposition does not guarantee that the proposed projects that are the subject of this proposition will be funded beyond the local revenues generated by this proposition. The District's receipt of matching State funds will be subject to appropriation by the Legislature and approval of a statewide bond measure.

The budget for each project is an estimate and may be affected by factors beyond the District's control. The final cost of each project will be determined as plans are finalized, construction bids are awarded and projects are completed. Based on the final costs of each project, certain of the projects described above may be delayed or may not be completed.

FISCAL ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this proposition in order that the voters and taxpayers in the District may be assured that their money will be spent only to address specific facilities needs of the District in compliance with the requirements of Article XIIIA, Section I (b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following).

Evaluation of Needs. The Board hereby certifies that it has evaluated safety, class size reduction and information technology needs in developing the project list contained in this ballot proposition.

Independent Citizens' Oversight Committee. The Board shall establish an Independent Citizens' Oversight Committee pursuant to Education Code Section 15278 and following to ensure bond proceeds are expended only on the projects listed in this ballot proposition. The committee shall be established within 60 days of the date when the results of the election appear in the minutes of the Board.

Performance Audits. The Board shall conduct an annual, independent performance audit to ensure that the bond proceeds have been expended only on the projects listed in this ballot proposition.

Financial Audits. The Board shall conduct an annual, independent financial audit of the bond proceeds until all of those proceeds have been spent for the projects listed in this ballot proposition.

FULL TEXT – Continued on next page

Special Bond Proceeds Account: Annual Report to Board. Upon approval of this proposition and the sale of any bonds approved, the Board shall take actions necessary to establish an account in which proceeds of the sale of bonds will be deposited which will be a Building Fund to be held by the Riverside County Treasurer, as required by the California Education Code. As long as any proceeds of the bonds remain unexpended, the Superintendent of the District shall cause a report to be filed with the Board annually stating (1) the amount of bond proceeds received and expended in that year, and (2) the status of any project funded or to be funded from bond proceeds. The report may relate to the calendar year, fiscal year, or other appropriate annual period as the Superintendent shall determine and may be incorporated in the annual budget, audit, or another appropriate routine report to the Board.

ADDITIONAL SPECIFICATIONS

Terms of the Bonds. The bonds may be issued and sold in several series in accordance with the financing plan determined by the Board of Trustees. Bonds may be issued pursuant to the Education Code or the Government Code at the discretion of the Board of Trustees with final maturity dates and at interest rates not exceeding the legal limits set forth therein.

Limit on Use of Bond Proceeds. Proceeds from the sale of bonds authorized by this proposition may be used only for the construction, reconstruction, rehabilitation or replacement of school facilities including the furnishing and equipping of school facilities or acquisition or lease of real property for school facilities and not for any other purpose, including teacher and administrator salaries.

STATEMENT REQUIRED UNDER EDUCATION CODE 15122.5

Approval of Bond Measure B does not guarantee that the proposed project or projects in the Beaumont Unified School District that are the subject of bonds under Bond Measure B will be funded beyond the local revenues generated by Bond Measure B. The District's proposal for the project or projects may assume the receipt of matching State funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure.
