# G – Allowing Private Vehicles on the Upper Great Highway in Sunset Dunes Park

**Shall the City close Sunset Dunes Park from Monday at 4:00 a.m. through Friday at 6:00 p.m., unless a holiday falls on a weekday, in order to reopen the roadway known as the Upper Great Highway to private vehicles during that time?**

| | |
|---|---|
| YES | ◯ |
| NO | ◯ |

This measure requires 50%+1 affirmative votes to pass.

## Digest by the Ballot Simplification Council

**The Way It Is Now:** Sunset Dunes Park is an open recreational space that replaced the Great Highway between Lincoln Way and Sloat Boulevard (Upper Great Highway) and is closed to private vehicles at all times.

Sunset Dunes Park (former Upper Great Highway) is open to emergency vehicles, official government vehicles, intra-park transit shuttle buses, and similar authorized vehicles.

Map provided by San Francisco Recreation and Park Department.

**The Proposal:** Proposition G would close Sunset Dunes Park from Monday at 4:00 a.m. through Friday at 6:00 p.m., unless a holiday falls on a weekday, in order to reopen the roadway known as the Upper Great Highway to private vehicles during that time.

The Upper Great Highway will remain open to emergency vehicles, official government vehicles, intra-park transit shuttle buses, and similar authorized vehicles.

Proposition G would require the City to obtain all necessary approvals, including any permits required by the California Coastal Act or from other government agencies, to reopen the roadway known as the Upper Great Highway to private vehicles.

**A "YES" Vote Means:** If you vote "yes," you want to close Sunset Dunes Park from Monday at 4:00 a.m. through Friday at 6:00 p.m., unless a holiday falls on a weekday, in order to reopen the roadway known as the Upper Great Highway to private vehicles during that time.

**A "NO" Vote Means:** If you vote "no," you do not want the City to make these changes.

## Controller's Statement on "G"

Deputy City Controller ChiaYu Ma has issued the following statement on the fiscal impact of Proposition G:

Should the proposed Ordinance be approved by the voters and the roadway is open to private vehicles, in my opinion, it would significantly increase the cost of government by approximately $9.8 million in one-time capital costs and by approximately $500,000 to $1.9 million annually. The cost of the proposed Ordinance, should it be approved

The above statement is an impartial analysis of this measure. Arguments for and against this measure immediately follow.

by the voters, is dependent on decisions that the Mayor and Board of Supervisors make through the budget process and operational decisions made by departments, as an ordinance cannot bind future Mayors and Boards of Supervisors to provide funding for this or any other purpose.

The proposed initiative ordinance would amend the Park Code to restrict private vehicles on the Upper Great Highway between Lincoln Way and Sloat Boulevard from Friday at 6:00 PM until Monday at 4:00 AM and on holidays.

Depending on future operational decisions made by City departments, the proposed Ordinance could result in annual cost increases ranging from $500,000 to $1.9 million. This includes traffic signal maintenance costs, annualized roadway maintenance and replacement costs, and an additional cost for sand removal and dune reshaping. The sand removal and dune reshaping would cost approximately $100,000 and $1.5 million more each year, which represents an increase over current levels of service. Sand removal costs are highly dependent on the defined level of service, weather conditions and funding availability, which results in a wide range of potential costs. For context, sand removal and dune reshaping for Sunset Dunes Park was approximately $290,000 in FY 2024-2025 and $330,000 in FY 2025-2026. In prior years when the roadway was open to vehicles on weekdays, actual expenditures for sand removal and dune reshaping was approximately $860,000 in FY 2022-2023 and $420,000 in FY 2023-2024. The proposed Ordinance would also result in decreased staffing needs and maintenance of Sunset Dunes Park as a park during weekdays, reducing costs and freeing staff to work on other functions. For context, staffing at Sunset Dunes Park costs approximately $300,000 annually for 1.5 full-time-equivalent positions.

Additionally, the proposed Ordinance would likely result in increased, one-time capital project costs of approximately $9.8 million. This would include approximately $750,000 to remove existing park elements and restore roadway segments, $8.8 million in new traffic signals at 8 intersections, and $200,000 for temporary and permanent restriping and signage. A full signal upgrade would be necessary approximately every 30 years. Installation of signals at the intersection of the Upper Great Highway and Sloat Boulevard would result in changes to the Ocean Beach Climate Change Adaptation Project, which could result in additional project costs for redesigning elements of the planned plaza.

Finally, the proposed Ordinance would require a coastal development permit. Applying for the coastal development permit may prompt additional requirements, including studies or permit conditions, that may increase the cost of government, although at a level that cannot be determined at this time.

## How “G” Got on the Ballot

On July 23, 2026, the Department of Elections certified that the initiative petition calling for Proposition G to be placed on the ballot had a sufficient number of valid signatures to qualify the measure for the ballot.

10,615 signatures were required to place an initiative ordinance on the ballot. This number is equal to 2% of the registered voters at the time a “Notice of Intent to Circulate Petition” was published. A random check of the signatures submitted by the proponents of the initiative petition prior to the July 6, 2026, submission deadline showed that the total number of valid signatures was greater than the number required.
