Paid Arguments in Favor

Save Muni. Protect San Francisco's Future.

Muni carries more than 520,000 riders every weekday — seniors, students, workers, and people with disabilities who depend on reliable transit. Without new revenue, Muni faces a $307 million deficit by 2027, growing to $398 million by 2030, meaning up to 20 routes eliminated and service cut in half.

For more than a century, SPUR has championed public transit as essential to San Francisco's success, from early advocacy for the Municipal Railway itself through decades of ballot campaigns to keep Muni funded, reliable, and accountable. This measure continues that legacy.

It raises roughly $177 million a year through a fair, tiered parcel tax. Ninety-five percent of single-family homeowners pay just $129 a year. Rent-controlled tenants pay no more than $65 a year, and landlords cannot pass on more. Seniors are exempt on their primary homes; larger properties pay proportionally more.

Muni has earned this investment, already saving $250 million since 2019 through efficiency improvements, with rider satisfaction at a decades-high 78%. This measure funds operations only — the buses and trains San Franciscans rely on every day.

This measure has broad, unified support from the Mayor, the Board of Supervisors, labor, business, and transit and housing advocates alike, with no formal opposition. Combined with the regional Connect Bay Area measure, it's the difference between a Muni that works and a Muni in crisis.

Vote YES.

Muni is an absolutely essential service for San Francisco's working class and powered by the working class.

In one of the wealthiest cities in the country, flooded with billions of dollars of investment into companies whose employees depend on public transit, it is shameful that the rich won't pay their fair share and are placing our transit system in jeopardy.

A popular proposal, 2024's Prop L, would have preserved Muni funding by requiring ride-hail companies like Uber, Lyft and Waymo to redistribute a small portion of their earnings to keep buses running in a city that has allowed them to thrive. Fifty-six percent of San Francisco voters approved, but it wasn't enough to overcome a well-funded corporate lobbying campaign and backroom deals at City Hall. They put us in this position.

DSA SF believes a better world is possible and a better way of funding transit is necessary. We were part of the coalition which overcame corporate opposition to ensure the Stronger Muni for All measure is a progressive parcel tax. We secured changes to the tax so that downtown landlords pay closer to their fair share, local unions remain strong, and working people pay less. But we are nowhere near the finish line.

We recommend San Franciscans vote yes on this measure. DSA SF stands in solidarity with Muni operators and riders by keeping Muni running and resolving the current funding emergency, but small and reactive reforms like these can't deliver the affordable, expansive, and financially sustainable public transit system that San Francisco's working class deserves. For that, we need to think bigger, and we need to win working class power in order to bring those ideas to life. Join us and get organized.

CLIMATE AND ENVIRONMENTAL GROUPS SAY YES TO FUNDING PUBLIC TRANSIT.

Public transit is climate action. Every rider on a Muni bus or train means lower emissions, less congestion, cleaner air. If San Francisco is serious about its climate goals, we cannot let our transit system collapse. Transit cuts set back years of climate progress.

Sustainable growth depends on reliable transit. Prop H keeps San Francisco's buses and trains running so people can choose transit over cars — protecting our climate goals and our quality of life. Vote Yes on H for a cleaner, more sustainable San Francisco.

SENIORS AND PEOPLE WITH DISABILITIES URGE SUPPORT FOR MUNI AND PROP H.

For seniors and people with disabilities, Muni isn't a convenience — it's independence. It's the ride to a doctor's appointment, the trip to the pharmacy, the way to see friends and stay connected to community. For those

who don't or can't drive, Muni is often the only way to get around the city we call home.

Without Prop H, Muni service will be cut and accessible transit options will shrink even further for the people who depend on them most. Isolation is one of the greatest threats facing seniors and people with disabilities. Reliable transit prevents it. Don't let service cuts cut us off from our city.

Vote Yes on H.

YOUTH, STUDENTS, AND THEIR ADVOCATES SAY YES TO PROP H.

Muni is how students across San Francisco get to class, campus, jobs, and each other. From middle schoolers to college students, young San Franciscans depend on Muni more than almost anyone. That access is at risk.

Young people are the future of this city, and reliable transit is how they build independence, education, and careers. We can't afford to lose the routes that get them there. Students, young Democrats, and youth leaders across San Francisco are united: Vote Yes on H for stronger Muni, for our schools, and for our future.

CHINATOWN LEADERS SAY YES TO SAVING MUNI WITH PROP H.

Muni is a lifeline for Chinatown and every immigrant family in San Francisco. Many of our seniors don't drive. They depend on the 30, the 45, and other Muni lines to reach doctors, grocery stores, and family. When Muni service is cut, our elders are left stranded.

Chinatown's merchants, workers, and families all rely on reliable, affordable transit every single day. Chinatown has fought for decades for transit that serves our community with dignity. Prop H protects that progress. Vote Yes on H for our seniors. Vote Yes on H for our families. Vote Yes on H for Chinatown.

ADVOCATES FOR SAFE, SUSTAINABLE CITIES AND STREETS AGREE PROP H IS VITAL.

A well-funded transit system is core infrastructure for everyone who walks, bikes, and rolls on San Francisco streets. Without Prop H, Muni funding will be cut. Fewer buses means more congestion. San Francisco cannot meet its Vision Zero goals while gutting the transit system that keeps traffic off our streets.

Prop H protects the service that keeps San Francisco moving safely. Safe streets and strong transit go hand in hand. We can't build the walkable, bikeable, liveable city we're working toward if Muni service collapses around us. Join transit riders, cyclists, pedestrian safety, and housing advocates across San Francisco. Vote Yes on H for a safe and sustainable San Francisco. Vote Yes on H for stronger Muni.

LABOR LEADERS UNITE TO URGE YES ON PROP H.

Working people built this city, and Muni is how we get to work. From transit operators to teamsters, carpenters, firefighters, laborers, and engineers, San Francisco's workforce depends on affordable, reliable transit to reach the job sites, offices, and worksites that keep our city running.

Muni workers themselves know what's at stake — service cuts mean layoffs, longer routes, and a transit system stretched too thin to serve the people who need it most. Prop H protects both riders and the workforce that keeps San Francisco moving. San Francisco's labor movement stands united: Vote Yes on H.

BUSINESS LEADERS SUPPORT PROP H TO DRIVE OUR ECONOMIC RECOVERY

San Francisco's economy runs on Muni. Forty percent of San Franciscans who work downtown ride Muni to their jobs, and small businesses across the city depend on customers, employees, and deliveries moving reliably through our streets. A weaker Muni means a weaker economy — for big employers and corner stores alike.

Prop H protects the transit service our commercial corridors depend on, and it comes with real accountability. Independent audits ensure every dollar funds Muni service directly and can never be redirected. Muni has already demonstrated fiscal discipline, eliminating vacant positions and saving $137 million in personnel costs.

From neighborhood merchants to major employers, San Francisco's business community knows that a functioning transit system is essential to a functioning economy. Investing in Muni is investing in our recovery. Vote Yes on H for a stronger economy and a stronger Muni.

DEMOCRATIC CLUBS ACROSS SAN FRANCISCO SUPPORT YES ON PROP H.

San Francisco Democrats have always fought for a city that works for everyone. A transit system every resident can rely on is a critical part of that vision. Muni is core to the kind of affordable, equitable city we believe in. Prop H protects Muni service with a fair, tiered tax where those that can afford to pay more will. And it has accountability built in with independent audits ensuring every dollar goes directly to Muni service.

Investing in public transit is investing in climate action, economic opportunity, and equity for every neighborhood in San Francisco. Democratic clubs across the city are united behind Prop H because a stronger Muni means a stronger, fairer San Francisco.

Paid Arguments Against

VOTE NO ON PROPOSITION H

We support Muni. We want safe, reliable public transportation. But another long-term parcel tax is not the solution to SFMTA's financial problems.

Proposition H would create a 15-year parcel tax, beginning in 2027, with rates adjusted annually for inflation.

According to SFMTA, approximately $150 million each year would go toward reducing its existing deficit, while about $10 million would support service-quality improvements.

That raises an important question: If this new tax does not solve SFMTA's underlying structural deficit, what happens when the next funding gap comes?

San Francisco homeowners, property owners, small businesses, working families, and renters are already struggling with one of the highest costs of living and doing business in the country. Another long-term tax adds more financial pressure to our city.

Before asking San Franciscans to pay more for the next 15 years, SFMTA should demonstrate fiscal responsibility, measurable results, transparency, and sustainable solutions to its operational and financial problems.

We support Muni. But supporting Muni does not mean automatically supporting another tax.

Fix the underlying problems before asking San Franciscans to pay more.

VOTE NO ON PROPOSITION H.
