EXHIBIT A

Lost Hills Union School District Repair, Safety, Upgrade Measure: To retain teachers / maintain quality local schools by upgrading older schools; ensure school safety / accessibility; repair deteriorating classrooms / bathrooms, update fire / electrical / lighting / security systems, replace air conditioning; repair, equip facilities; shall Lost Hills Union School District's measure be adopted, authorizing $9,000,000 in bonds at legal rates, levying $30 per $100,000 of assessed valuation, ($720,000 annually) while bonds are outstanding, no money for administrators' salaries, requiring spending disclosure / citizens oversight, all funds staying local?

Bonds – Yes

Bonds – No

EXHIBIT B

FULL TEXT BALLOT PROPOSITION
OF THE LOST HILLS UNION SCHOOL DISTRICT
BOND MEASURE ELECTION NOVEMBER 3, 2026

The following is the full proposition presented to the voters by the Lost Hills Union School District.

Lost Hills Union School District Repair, Safety, Upgrade Measure: To retain teachers / maintain quality local schools by upgrading older schools; ensure school safety / accessibility; repair deteriorating classrooms / bathrooms, update fire / electrical / lighting / security systems, replace air conditioning; repair, equip facilities; shall Lost Hills Union School District's measure be adopted, authorizing $9,000,000 in bonds at legal rates, levying $30 per $100,000 of assessed valuation, ($720,000 annually) while bonds are outstanding, no money for administrators' salaries, requiring spending disclosure / citizens oversight, all funds staying local?

PROJECT LIST

The Board of Trustees of the Lost Hills Union School District is committed to **improving the quality of education** in our local public schools by upgrading aging classrooms and science labs and improving student safety, providing safe, secure, modern classrooms and technology needed to ensure a high-quality education in a safe, secure, and upgraded learning environment. To that end, the Board evaluated the District's urgent and critical facility needs, including safety issues, class size reduction, basic repairs, computer and information technology in developing the types of projects to be funded by this measure as described below.

This bond includes strict accountability requirements to make sure public funds are used appropriately. These requirements include public disclosure of all spending, independent annual financial and performance audits, and the formation of a committee of local citizens and business owners to ensure all spending is in line with the promises made in the measure. What's more, by law, all funds must be used to improve our local schools and cannot be taken by Sacramento, the County or anyone else.

In approving this Project List, the Board of Education determines that the District must:

(i) UPGRADE classrooms, libraries, and other school facilities to improve learning and prepare our students to go on to high school, college and for their careers; and

(ii) RETAIN AND ATTRACT quality teachers; and

(iii) REPLACE heating and cooling systems to promote health, safety, and learning at District schools; and

(iv) IMPROVE access for disabled persons; and

(v) REPAIR and upgrade building foundations; and

(vi) INSTALL energy efficiency facilities; and

(vii) REPAIR AND UPGRADE security systems for student safety; and

(ix) REQUIRE a transparent system of accountability, including a Project List detailing how money will be used, a citizens' oversight committee and public disclosure of how all funds are spent.

The Project List includes the following types of upgrades and improvements at District schools and sites:

DEDICATED LOCAL SCHOOL FUNDING FOR NECESSARY SCHOOL IMPROVEMENTS

Goal and Purpose: Lost Hills Union School District schools are still relying on old and aging air conditioning and heating systems. These outdated HVAC units break down frequently and are increasingly costly to repair. Replacing them now is a cost-effective investment that will help ensure students and teachers can focus on learning in safe, comfortable classrooms.

Many local schools look fine from the outside but need basic health and safety improvements inside because they were built more than 50 years ago. Funds from this measure will address the most urgent and basic improvements, such as replacing old heating and air conditioning systems, repairing leaky roofs, and upgrading more than old plumbing systems; so that students can learn in a healthy and safe environment

- Upgrade classrooms to provide access for students with disabilities.
- Repair building foundations.
- **Update classrooms and educational facilities to meet current safety codes.**
- Replace outdated electrical, plumbing and water systems.
- Replacing old air conditioning, heating, and ventilation systems.
- **Update restrooms.**
- Replace and repair athletic facilities.
- Replace asphalt, resurface and expand parking lots.
- Improving emergency communication systems.
- Repair and upgrade school security to improve student safety.
- Install signage.
- Install and upgrade solar and energy efficiency improvements.

SAFETY AND STUDENT SUCCESS

Goal and Purpose: If we want our students to succeed in high school, college and careers, they must be skilled in the use of today's technologies and have a solid background in science, math, reading, writing and technology. This measure will make this possible.

- Bring all classrooms up to the same safety standards.
- Ensure hands-on science labs are all up to date.
- Upgrade electrical equipment.

- Improve student support facilities and playfields.
- **Improving accessibility for students with disabilities.**

In addition to the projects listed above, the repair and renovation of each of the existing school and District support facilities may include, but not be limited to, some or all of the following: add or renovate student and staff restrooms; repair and upgrade electrical, plumbing, heating, ventilation and air conditioning systems; upgrade of facilities for energy efficiencies, electrical generation and financial savings, including solar panels; improve accessibility for students, staff and the public with disabilities; repair and replace worn-out and deteriorated roofs, windows, walls, tackboards, floors, sinks, doors and drinking fountains/hydration stations; construct or renovate offices and facilities for multipurpose and indoor/outdoor learning spaces, more efficient areas for professional development and administration and for the safety of students on campuses; install wiring and electrical systems to safely accommodate computers, technology and other electrical devices; upgrade or construct support facilities including administrative, central kitchens, physical education, music, art, and performing and fine arts classrooms or facilities, science, robotics, computer labs/classrooms, career technical facilities, media centers/libraries and buildings, covered eating areas, shade and rain shelter, playgrounds, administrative, transportation and maintenance facilities and yards; acquire modular/portable classrooms; repair and replace fire alarms, emergency communications, public address, speaker, and security systems; improve facilities to satisfy ADA and seismic requirements; as needed, removal of hazardous materials like asbestos and lead paint from older schools, as needed; improve/resurface or replace asphalt, broken concrete and improve hard courts, turf, tracks, athletic fields, irrigation, and downspout drainage systems and campus landscaping; install signage, flagpoles, solar electric systems and fencing; expand parking and improve pick-up and drop-off areas and crosswalks; improve all site utilities; acquire land; construct new school buildings; upgrade or replace interior and exterior painting, floor covering, including carpets, and school facades; demolition; upgrade kitchens, food service and school cafeterias; construct various forms of storage and support spaces and classrooms; improve quads; repair, upgrade and install interior and exterior lighting systems and back-up power generators; improve or replace playgrounds, play structures, athletic fields/stadiums, lockers, gymnasiums, and facilities to support student health, fitness and safety; construct or upgrade aquatic facilities, pools, including pool filtration systems, plaster and decking; replace outdated fences, including security fences and security systems (including access control systems and cameras), provide lunch shelters, indoor space for assemblies or for rainy day lunch; upgrade music labs, multi-purpose rooms, learning centers and media centers; add or upgrade parking lots including solar systems and electric vehicle charging stations. In addition to the listed projects stated above, the Project List also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the Project List; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, DSA oversight, and temporary housing of dislocated District activities caused by construction projects.

The upgrading of technology infrastructure includes, but is not limited to, network rewiring, cabling, computers, portable interface devices, servers, switches, routers, modules, sound projection systems, laser printers, scanners and copiers, digital white boards and smart boards, document projectors, upgrade voice-over-IP, clock/telephone/ intercom systems, call manager and network security/firewall, wireless technology systems, refresh classroom technology, miscellaneous IT and instructional equipment, data storage, archiving and preservation, phones, identity cards and the

construction and installation of a data center in the cloud for the District's enterprise systems, such as resource planning, websites, domain name systems, cloud applications and information security.

The budget for each project is an estimate and may be affected by factors beyond the District's control. Some projects throughout the District may be undertaken as joint use projects in cooperation with other local public or non-profit agencies. The final cost of each project will be determined as plans and construction documents are finalized, construction bids are received, construction contracts are awarded and projects are completed. Based on the final costs of each project, certain of the projects described above may be delayed or may not be completed. Demolition of portable classrooms and existing facilities and reconstruction of facilities scheduled for repair and upgrade may occur, if the Board determines that such an approach would be more cost-effective in creating more enhanced and operationally efficient campuses. Necessary site preparation/restoration may occur in connection with new construction, renovation or remodeling, or installation or removal of relocatable or modular classrooms, including ingress and egress, removing, replacing, or installing irrigation or drainage systems, traffic signals, sewer or utility lines, trees and landscaping, relocating fire access roads, and acquiring any necessary easements, licenses, permits, or rights of way to the property. The listed projects will be completed as needed. Each project is assumed to include its share of furniture, equipment, architectural, engineering, legal fees and similar planning costs, connection fees, program and project management, staff training expenses and a customary contingency for unforeseen design and construction costs. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District bond audits and staff when performing work on or necessary and incidental to bond projects. Bond proceeds shall only be expended for the types of projects and purposes identified herein. The District shall create an account into which proceeds of the bonds shall be deposited and comply with the reporting requirements of Government Code § 53410.

****

FISCAL ACCOUNTABILITY

THIS MEASURE REQUIRES A CLEAR SYSTEM OF ACCOUNTABILITY, INCLUDING A PROJECT LIST DETAILING HOW THE MONEY WILL BE USED, A CITIZENS' OVERSIGHT COMMITTEE, AND INDEPENDENT AUDITS TO ENSURE MONEY IS SPENT PROPERLY.

In accordance with Education Code Section 15272, the Board of Education will appoint a citizens' oversight committee and conduct annual independent audits to assure that funds are spent only on District projects and for no other purpose. The expenditure of bond money on these projects is subject to stringent financial accountability requirements. By law, performance and financial audits will be performed annually, and all bond expenditures will be monitored by an independent citizens' oversight committee to ensure that funds are spent as promised and specified. The citizens' oversight committee must include, among others, representation of a bona fide taxpayers association, a business organization and a senior citizens organization. No District employees or vendors are allowed to serve on the citizens' oversight committee.

No Administrator Salaries: Proceeds from the sale of the bonds authorized by this proposition shall be used only for the acquisition, construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and not for any other purpose, including teacher and school administrator salaries and other operating expenses**.**
