ARGUMENT IN FAVOR OF MEASURE B

Vote YES on B — a better deal for Merced.

Merced is at a crossroads. A federal fire safety grant that pays for 24 firefighters is expiring—and won't be renewed. Our roads are a mess. We've already cut basic services like park safety to make ends meet. Enough!

That's why we need Measure B.

Your Yes on B vote saves Merced's emergency response, streets, and vital services with money Sacramento and DC can't take.

YES on B Keeps Merced SAFE

Most Fire Department calls are medical emergencies. Seconds matter, and experienced first responders are critical to saving lives.

Without Measure B, Merced has no choice but to fire nearly half of our firefighter-paramedics—crippling our ability to respond fast when every second counts, and putting your life and property at risk!

Measure B keeps a paramedic or medical responder on every emergency call—funded with money the federal government can't take.

YES on B Keeps Merced Moving

Our streets need repair. Without Measure B, Merced is forced to choose: fund lifesaving 911 response, or fix the roads at the rate YOU deserve. We can't do both without your YES vote.

YES on B repairs potholes, maintains our streets, and makes roads safer for drivers, bikers, and pedestrians right here—while keeping 911 responders able to reach you fast in an emergency.

Your Money. Your Merced.

By law, every penny of Measure B stays in Merced. Sacramento can't touch it. Washington can't touch it.

YES on B is ACCOUNTABLE: Citizen Oversight of all spending, public spending reports, and independent annual audits guarantee every dollar goes exactly where it's promised.

Public safety, business, and community leaders agree: Merced can't afford to lose lifesaving services or gut everything else trying to save them.

Vote YES on Measure B.
