FULL TEXT OF BOND MEASURE

MERCED UNION HIGH SCHOOL DISTRICT-LIVINGSTON HIGH SCHOOL SAFETY, RENOVATION AND CONSTRUCTION MEASURE

This measure may be known and referred to as the "Merced Union High School District-Livingston High School Safety, Renovation and Construction Measure" or as "Measure __". *[designation to be assigned by County Registrar of Voters]*

BOND AUTHORIZATION

By approval of this measure by at least 55% of the voters of School Facilities Improvement District No. 1 of the Merced Union High School District (the "School Facilities Improvement District") voting on the measure, the Merced Union High School District (the "School District") shall be authorized to issue and sell bonds of up to $33,800,000 in aggregate principal amount to provide financing for the specific school facilities projects listed under the heading entitled "BOND PROJECT LIST" below (the "Bond Project List") for the benefit of the area of land included within the School Facilities Improvement District, and allow the School District to qualify to receive potential State of California matching grant funds, subject to all of the accountability safeguards specified below.

ACCOUNTABILITY SAFEGUARDS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers of the School Facilities Improvement District may be assured that their money will be spent to address specific school facilities needs of the School District benefiting the School Facilities Improvement District, all in compliance with the requirements of Article XIIIA, Section 1(b)(3) of the Constitution of the State of California (the "California Constitution"), and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Sections 15264 and following of the California Education Code).

Evaluation of Needs. The Board of Trustees of the School District (the "Board") has evaluated the facilities needs of the School District benefiting the School Facilities Improvement District to determine which projects to finance from a local bond at this time. To address the facilities needs of the School District benefiting the School Facilities Improvement District, the Board deems it necessary and advisable to fund the specific school facilities projects listed in the Bond Project List. The Board hereby certifies that it has evaluated safety, class size reduction and information technology needs in developing the Bond Project List.

Limitations on Use of Bonds. Proceeds from the sale of bonds authorized by this measure shall be used only for the construction, reconstruction,

rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, benefiting the School Facilities Improvement District, and not for any other purpose, including teacher and administrator salaries and other school operating expenses. More specifically, the Bond Project List provides for the specific projects the School District proposes to finance with proceeds from the sale of bonds authorized by this measure and such proceeds shall be applied only to those specific purposes.

Independent Citizens' Oversight Committee. In accordance with and pursuant to California Education Code Section 15278 *et seq.*, the Board shall establish an independent citizens' oversight committee, within 60 days of the date that the Board enters the election results on its minutes pursuant to Section 15274 of the California Education Code, to ensure that (a) bond revenues are expended only for the purposes specified in Article XIIIA, Section 1(b)(3) of the California Constitution, and (b) that no funds are used for any teacher or administrative salaries or other school operating expenses. In accordance with Section 15282 of the California Education Code, the citizens' oversight committee shall consist of at least seven members and shall include a member active in a business organization representing the business community located within the School District, a member active in a senior citizens' organization, a member active in a bona fide taxpayers' organization, a member that is a parent or guardian of a child enrolled in the School District, and a member that is both a parent or guardian of a child enrolled in the School District and active in a parent-teacher organization. The committee may be comprised of the same members of the citizens' oversight committees for other School District bond measures. No employee or official of the School District and no vendor, contractor or consultant of the School District shall be appointed to the citizens' oversight committee.

Annual Performance Audits. In compliance with the requirements of Article XIIIA, Section 1(b)(3)(C) of the California Constitution, and the Strict Accountability in Local School Construction Bonds Act of 2000, the Board shall conduct an annual, independent performance audit to ensure that the proceeds from the sale of bonds authorized by this measure have been expended only on the school facilities projects listed in the Bond Project List. These audits shall be conducted in accordance with the Government Auditing Standards issued by the Comptroller General of the United States for performance audits. The results of these audits shall be made publicly available and shall be submitted to the citizens' oversight committee in accordance with Section 15286 of the California Education Code.

Annual Financial Audits. In compliance with the requirements of Article XIIIA, Section 1(b)(3)(D) of the California Constitution, and the Strict Accountability in Local School Construction Bonds Act of 2000, the Board shall conduct an annual, independent financial audit of the proceeds from the sale of bonds authorized by this measure until all of those proceeds have been spent for the school facilities projects listed in the Bond Project List. These audits shall be conducted in accordance with the Government Auditing Standards issued by the Comptroller General of the United States for financial audits. The results of these audits shall be made publicly available and shall be submitted to the citizens'

oversight committee in accordance with Section 15286 of the California Education Code.

Special Bond Proceeds Account; Annual Report to Board. In compliance with the requirements of California Government Code Section 53410 and following, upon approval of this measure and the sale of any bonds approved, the Board shall take actions necessary to establish an account in which proceeds of the sale of bonds authorized by this measure shall be deposited. In compliance with the requirements of California Government Code Section 53411, as long as any proceeds of the bonds remain unexpended, the chief fiscal officer of the School District shall cause a report to be filed with the Board at least once a year, stating (a) the amount of funds collected and expended in that year, and (b) the status of any project required or authorized to be funded from bond proceeds. The report may relate to the calendar year, fiscal year, or other appropriate annual period as the chief fiscal officer of the School District shall determine, and may be incorporated into the annual budget, audit, or other appropriate routine report to the Board.

FURTHER SPECIFICATIONS

Joint-Use Projects. The School District may enter into agreements with other public agencies or nonprofit organizations for joint use of the school facilities financed with the proceeds from the sale of bonds authorized by this measure in accordance with California Education Code Section 17077.42 (or any successor provision). The School District may seek State grant funds for eligible joint-use projects as permitted by law, and this measure hereby specifies and acknowledges that, subject to the limitations on the uses provided for herein, the proceeds from the sale of bonds authorized by this measure will or may be used to fund all or a portion of the local share for any eligible joint-use projects identified in the Bond Project List or as otherwise permitted by California State regulations, as the Board shall determine.

Single Purpose. All of the purposes enumerated in this measure shall be united and voted upon as one single measure, pursuant to California Education Code Section 15100, and all the enumerated purposes shall constitute the specific single purpose of the bonds, and the proceeds from the sale of bonds authorized by this measure shall be spent only for such purpose, pursuant to California Government Code Section 53410.

Bonds may be Issued in Excess of Statutory Bonding Limit. Issuance of all of the authorized bonds might require the outstanding debt of the School District to exceed its statutory bonding limit (currently 1.25% of the total assessed valuation of taxable property in the School District). In that event, the School District intends to seek a waiver of its bonding limit from the State Board of Education, which has the power to waive certain requirements of the California Education Code applicable to the School District. By approval of this measure, the voters have authorized the School District to seek such a waiver, and to issue authorized bonds in excess of the School District's statutory bonding limit as the State Board of Education may approve. No such waiver has yet been sought or granted.

Other Terms of the Bonds. When sold, the bonds shall bear interest at an annual rate not exceeding the statutory maximum, and that interest shall be made payable at the time or times permitted by law. The bonds may be issued and sold in several series, and no bond shall be made to mature more than the statutory maximum number of years from the date borne by that bond.

BOND PROJECT LIST

The Bond Project List below lists the specific projects benefiting the School Facilities Improvement District that the School District proposes to finance with proceeds of the bonds. The Bond Project List shall be considered a part of this bond measure and shall be reproduced in any official document required to contain the full statement of the bond measure. Listed projects will be completed as needed at a particular school or school facility site according to Board-established priorities, and the order in which such projects appear on the Bond Project List is not an indication of priority for funding or completion. In so far as permitted by law, each project is assumed to include its share of costs of the election and bond issuance, construction-related costs, such as project and construction management, architectural, engineering, permitting and entitlements, inspection and similar planning and testing costs, demolition and interim facility costs, legal, accounting and similar fees, costs related to the independent annual financial and performance audits, a contingency for unforeseen design and construction costs, and other costs incidental to or necessary for completion of the listed projects (whether the related work is performed by the School District or third parties). The final cost of each project will be determined as plans are finalized, construction bids are awarded, and projects are completed. In addition, certain project funds expected from non-local bond sources, including State of California grant funds for eligible projects, have not yet been secured. Therefore, the Board cannot guarantee that the bond proceeds will provide sufficient funds to allow completion of all listed projects. Alternatively, if the School District obtains unexpected funds from non-local bond sources with respect to listed projects, such projects may be enhanced, supplemented or expanded to the extent of such funds. Some projects may be subject to further government approvals, including by State officials and boards and/or local environmental or agency approval. Inclusion of a project on the Bond Project List is not a guarantee that the project will be completed (regardless of whether bond funds are available).

The specific projects authorized to be financed with proceeds from the sale of bonds for the School Facilities Improvement District authorized by this measure are as follows:

SCHOOL FACILITIES IMPROVEMENT DISTRICT PROJECTS
The following projects are authorized to be financed at Livingston High School and at all other school facilities sites benefiting the area of land included within the School Facilities Improvement District:
• Repair and replace leaky roofs. • Renovate, expand and upgrade outdated Career Technical Education classrooms and labs to better prepare and train students for the workforce and prepare students for better paying jobs.

- Renovate or construct gymnasiums, theaters, band rooms, and other student support facilities as needed in order to have equal educational facilities at all high schools.
- Make health and safety improvements.
- Repair or replace deteriorating plumbing and sewer systems.
- Make security improvements including fire alarms, fencing, and communication systems.
- Replace or renovate outdated heating ventilation and air conditioning systems.
- Make handicapped accessibility improvements and/or eliminate or mitigate health and safety risks and/or comply with local, state and federal building, health, safety, access and other related requirements, including requirements of the Field Act and the Americans with Disabilities Act (ADA).
- Renovate or construct cafeterias and kitchens and other student support facilities in order to have equal facilities at all high schools.
- Modernize and renovate outdated classrooms, restrooms and school facilities.
- Upgrade inadequate electrical systems.
- Upgrade and expand computer and science labs.
- Renovate and expand Agricultural Education facilities to improve job training and career readiness in farming.
- Improve student access to computers and modern technology by updating and/or acquiring and installing technology equipment, fixtures and infrastructure, including computers, tablets, mobile devices, software, interactive educational technology, digital projectors and cameras, monitors, audio systems, video systems, network equipment (including servers, network interface devices, network switches and routers, wireless network equipment, firewalls, network security equipment, racking, power and cooling equipment, wiring and uninterruptible power supply equipment and systems), backup power systems, etc.; rehabilitate and replace such equipment, fixtures and infrastructure as needed in the future. Technology equipment, fixtures and infrastructure include existing technology equipment, fixtures and infrastructure as well as technology equipment, fixtures and infrastructure developed in the future.
- Upgrade, Construct, replace, improve, renovate and/or acquire and install physical education facilities and grounds for school and community use, including gymnasiums, locker rooms, fields, courts, pools, turf, outside instructional areas, paved and other hard surfaces, and replace, acquire and/or install furniture, equipment and fixtures in such facilities and areas.
- Replace portable classrooms with permanent classrooms.
- Construct or acquire and install additional classrooms and related facilities.
- Construct, reconfigure, modify and/or acquire and install school facilities and improvements to school grounds to create innovative indoor and outdoor learning areas and spaces, including outdoor learning areas, shade structures, and walkways.
- Construct, replace, improve, renovate and/or acquire and install custodial and storage facilities.
- Construct, replace, improve, renovate and/or acquire and install restrooms.

- Modernize, upgrade, renovate, rehabilitate, re-configure, expand and/or upgrade classroom buildings, common areas and school support facilities (including library, multipurpose room/auditorium, food storage, preparation and service, cafeteria and office/staff support facilities), whether permanent, portable or modular, including interior and exterior (as applicable) doors, windows, door and window hardware, roofs, rain gutters and downspouts, pillars, structural supports, walls, ceilings and floors and finishes, paint, siding, insulation, casework, surfaces, cabinets, secured storage, carpets, drapes, window coverings, infrastructure, lighting, sinks, drinking fountains, fixtures, signage, furniture and equipment.
- Remove, repair, and refinish building and site areas damaged by dry rot, water, termites, etc.
- Erosion mitigation improvements to grounds and buildings.
- Make energy-efficiency upgrades and acquire and install energy efficient equipment and systems to reduce carbon footprint, to promote energy efficiency, reduce maintenance costs and promote climate resiliency and sustainability, including sustainable building improvements (e.g., windows, lighting, electrical systems panel, HVAC, water systems, distribution and storage systems, energy efficiency/management monitoring systems, networks, fixtures, equipment and controls, etc.).
- Construct, replace, improve, renovate and/or acquire and install auditoriums and performing arts classrooms, centers and related facilities.
- Construct, replace, improve, renovate and/or acquire and install green spaces, including hard and softscapes, irrigation and drainage, and shade structures.
- Construct, replace, improve, renovate and/or acquire and install playgrounds, playfields and other play spaces, including replacing turf and installing new irrigation and drainage systems, and acquire, improve, replace and/or upgrade playground equipment and fixtures.
- Renovate, replace, upgrade, expand, and/or install walls, gates, fencing, and landscaping.
- Reconfigure, renovate, repair, resurface, improve and/or expand parking lots and related areas, including ingress and egress areas, student pick-up/drop-off areas, and parking areas.
- Renovate, replace, upgrade, acquire, install and/or integrate major site/building/utility systems, equipment and related infrastructure and casing, including lighting, refrigeration, water, gas, irrigation, drainage, and energy efficiency/management monitoring systems, networks, fixtures, equipment and controls.
- Acquire, purchase and/or install furniture, equipment, fixtures and infrastructure to support STEAM/STEM instructional programs, including interactive educational technology and projection systems, computers, printers, scanners, digital projectors and cameras, audio systems, video systems, phone and sound projections systems, peripherals, smart boards, monitors, network equipment (including servers, network interface devices, network switches and routers, wireless network equipment, firewalls, network security equipment, racking, power and cooling equipment, wiring and uninterruptible power supplies); furnishing and equipping shall include initial purchases, and scheduled and necessary replacements and upgrades and updating of technology.

All or portions of these projects may be used as joint-use projects within the meaning of Section 17077.42(c) of the California Education Code (or any successor provision).

MISCELLANEOUS
All listed bond projects include the following as needed:
• Planning and designing necessary for listed bond projects. • The inspection, sampling and analysis of grounds, buildings and building materials to determine the presence of hazardous materials or substances, including asbestos, lead, etc., and the encapsulation, removal, disposal and other remediation or control of such hazardous materials and substances. • Seismic and historical evaluations, site surveys (including topographic, geological and utility surveys), and infrastructure analyses. • Necessary onsite and offsite preparation or restoration in connection with new construction, renovation or remodeling, or installation or removal of relocatable buildings or other temporary buildings, including demolition of structures; removing, replacing, or installing irrigation, drainage, utility lines (gas, water, sewer, electrical, data and voice, etc.), trees and landscaping; and relocating fire access roads or ingress/egress pathways. • Address other unforeseen conditions revealed by construction, renovation or modernization (including plumbing or gas line breaks, dry rot, seismic and structural deficiencies, etc.). • Acquire or construct other improvements required to comply with building codes, including seismic safety requirements, the Field Act, and access requirements. • Acquisition of any rights-of-way, easements, licenses and/or real property made necessary by listed bond projects, or lease of real property made necessary by the listed bond projects. • Acquire or construct storage facilities and other space on an interim basis, as needed to accommodate construction materials, equipment, and personnel. • Furnishing and equipping of classrooms and other school facilities; furnishing and equipping shall include initial purchases, and scheduled and necessary replacements, upgrades and updating of technology. • Acquisition of all or a portion of any school site or facility, or an interest therein, or make lease payments with respect to any school site or facility, encumbered in order to finance or refinance the listed school facilities projects. • All other costs and work necessary or incidental to the listed bond projects.
PROJECTS INVOLVING RENOVATION, REHABILITATION OR REPAIR
For any project involving renovation, rehabilitation or repair of a building or the major portion of a building, the School District shall be authorized to proceed with new replacement construction instead (including any necessary demolition) if the Board determines that replacement new construction is more practical than renovation, rehabilitation or repair, considering the building's age, condition, expected remaining life, comparative cost and other relevant factors.

GENERAL PROVISIONS

Interpretation. The terms of this bond measure and the words used in the Bond Project List shall be interpreted broadly to effect the purpose of providing broad and clear authority for the officers and employees of the School District to provide for the school facilities projects benefiting the School Facilities

Improvement District that the School District proposes to finance with the proceeds of the sale of bonds for the School Facilities Improvement District authorized by this measure within the authority provided by law, including Article XIIIA, Section 1(b)(3) of the California Constitution, California Education Code Section 15000 *et seq.* and the Strict Accountability in Local School Construction Bonds Act of 2000. Without limiting the generality of the foregoing, such words as repair, improve, upgrade, expand, modernize, renovate, and reconfigure are used in the Bond Project List to describe school facilities projects in plain English and are not intended to expand the nature of such projects beyond, or have an effect on, and shall be interpreted to only permit, what is authorized under Article XIIIA, Section 1(b)(3) of the California Constitution, California Education Code Section 15000 *et seq.* and the Strict Accountability in Local School Construction Bonds Act of 2000. In this regard, the Bond Project List does not authorize, and shall not be interpreted to authorize, expending proceeds of the sale of bonds for the School Facilities Improvement District authorized by this measure for current maintenance, operations or repairs. The school facilities projects on the Bond Project List only authorize capital expenditures.

Estimated Ballot Information. The Board hereby declares, and the voters of the School Facilities Improvement District by approving this bond measure concur, that the information included in the statement of the bond measure to be voted on pursuant to Section 13119 of the California Elections Code is based upon the School District's projections and estimates only and is not binding upon the School District. The amount of money to be raised annually and the rate and duration of the tax to be levied for the bonds may vary from those presently estimated due to variations from these estimates in the timing of bond sales, the amount of bonds sold and market interest rates at the time of each sale, and actual assessed valuations over the term of repayment of the bonds. The dates of sale and the amount of bonds sold at any given time will be determined by the School District based on need for project funds and other factors. The actual interest rates at which the bonds will be sold will depend on the bond market at the time of each sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the School Facilities Improvement District as determined by the County Assessor in the annual assessment and the equalization process.

Headings. The headings or titles of the sections of the bond measure, including any headings or titles included in the Bond Project List, are solely for convenience of reference and shall not affect the meaning, construction or effect of the bond measure.

Severability. The Board and the voters hereby declare that every portion, section, subdivision, paragraph, clause, sentence, phrase, word, application and individual project (individually referred to as "Part" and collectively as "Parts"), of this bond measure has independent value, and the Board and the voters would have adopted each Part hereof regardless of whether any other Part of this bond measure would be subsequently declared invalid. Upon approval of this bond measure by the voters, should any Part of this bond measure be found by a court of competent jurisdiction to be invalid for any reason, all remaining Parts hereof shall remain in full force and effect to the fullest extent allowed by law, and to this end the Parts of this bond measure are severable.
