EXHIBIT B

TAX INFORMATION STATEMENT

An election will be held in the Merced Union High School District (the "School District") within the boundaries of School Facilities Improvement District No. 3 of the Merced Union High School District (the "School Facilities Improvement District") on November 3, 2026, to authorize the sale of up to $129,000,000 in bonds for the School Facilities Improvement District to finance school facilities improvement projects for the benefit of the area of land included within the School Facilities Improvement District, as described in the measure. If the bond measure is approved by at least 55% of the voters of the School Facilities Improvement District voting on the bond measure, the School District expects to issue the bonds for the School Facilities Improvement District in multiple series over time. Principal and interest on the bonds will be payable from the proceeds of tax levies made upon the taxable property in the School Facilities Improvement District. The following information is provided in compliance with Sections 9400 through 9405 of the California Elections Code.

1. The best estimate of the average annual tax rate that would be required to be levied to fund this bond issue over the entire duration of the bond debt service, based on assessed valuations available at the time of filing this statement, is $29.27 per $100,000 of assessed valuation. The final fiscal year in which the tax to be levied to fund this bond issue is anticipated to be collected is fiscal year 2062-63.

2. The best estimate of the highest tax rate that would be required to be levied to fund this bond issue, based on estimated assessed valuations available at the time of filing this statement, is $30.00 per $100,000 of assessed valuation in fiscal year 2027-28.

3. The best estimate of the total debt service, including the principal and interest, that would be required to be repaid if all of the bonds are issued and sold is approximately $281,756,000.

Voters should note that estimated tax rates are based on the *ASSESSED VALUE* of taxable property on the County's official tax rolls, *not* on the property's market value, which could be more or less than the assessed value. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions.

Attention of all voters is directed to the fact that the foregoing information is based upon the School District's projections and estimates only, which are not binding upon the School District. The average annual tax rate, the highest tax rate, the final fiscal year in which the tax is anticipated to be collected and the year or years in which they will apply, and the actual total debt service, may vary from those presently estimated for a variety of reasons, including, without limitation, due to variations in the timing of bond sales, the amount or amortization of bonds sold, market conditions at the time of each sale, and actual assessed valuations over the term of repayment of the bonds. The dates of sale and the amount or amortization of bonds sold at any given time will be determined by the School District based on need for project funds and other factors, including the legal limitations on bonds approved by a 55% affirmative vote. Market conditions, including, without limitation, interest rates, are affected by economic and other factors beyond the control of the School District and will depend on the bond market at the time of each sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the School Facilities Improvement District as determined by the County Assessor in the annual assessment and the equalization process. The growth or decline in assessed valuation is the result of a number of economic and other factors outside the control of the School District.

Dated: June 2, 2026.
