IMPARTIAL ANALYSIS BY COUNTY COUNSEL

MEASURE A

To improve the quality of education, upgrade and modernize outdated classrooms, restrooms and school facilities; expand/renovate career technical education classrooms and programs; replace leaky roofs and old HVAC systems; shall Calaveras Unified School District's measure be adopted authorizing $66,800,000 of Bonds at legal rates, estimated levies averaging 4.9 cents per $100 assessed value ($4,750,000 annually) while bonds are outstanding, with annual audits, citizens' oversight, all money staying local, with no projected increase to existing tax rates?

This Measure has been placed on the ballot by the Board of Education ("Board") of the Calaveras Unified School District ("CUSD").

A "YES" vote on Measure A would authorize the District to finance facility improvements at CUSD sites via the issuance of bonds in the amount of $66,800,000. The Board has adopted a list of projects prioritizing classroom modernizations, site infrastructure, and career tech and safety and security projects.

Proceeds from the sale of bonds authorized by this Measure may legally be used only for the construction, reconstruction, replacement, or rehabilitation of school facilities, including the furnishing and equipping of school facilities, or for the acquisition or lease of real property for school facilities. They may not be utilized for other purposes such as teacher/administrator salaries or other operating expenses. The Measure includes a bond project list detailing the specific projects which are to be financed with proceeds from the sale of bonds authorized by the Measure, including renovating career technical education facilities, repairing or replacing leaky roofs and existing HVAC systems, renovating and modernizing classrooms, upgrading plumbing fixtures and infrastructure and sewer systems, upgrading or replacing fire alarms, installing and updating security systems, and constructing or renovating physical education and athletic facilities. The Measure also creates an independent citizens' oversight committee to ensure bond revenues are expended only for authorized purposes and provides that CUSD will commission an annual independent performance audit and an annual independent financial audit on the expenditure of bond proceeds. The results of these annual audits shall be reported to the Board and to the citizens' oversight committee at least annually.

It is estimated that the average annual tax rate to fund this bond while it is outstanding will be approximately $49.44 per $100,000 of assessed value; the final fiscal year in which the tax is anticipated to be collected is 2060-61. CUSD's estimate of the highest tax rate which would be required to be levied to fund the bond is $58.03 per $100,000 of assessed value; it is estimated that such rate would be levied beginning in fiscal year 2039-40 and going forward.

A "NO" vote on Measure A is a vote against authorizing the District to issue bonds to finance the above school site facility improvements.

To become effective, Measure A must be approved by fifty-five percent (55%) of the qualified registered voters of the District voting upon the Measure.

By: /s/ SARAH EDWARDS
COUNTY COUNSEL

Any person desiring the details of this proposed Measure may telephone the Calaveras Unified School District Office of the Superintendent at (209) 754-2300.

TAX RATE STATEMENT

MEASURE A

An election will be held in the Calaveras Unified School District (the "District") on November 3, 2026, to authorize the sale of up to $66,800,000 in Bonds of the District to finance school facilities as described in the measure. If such bonds are authorized and sold, principal and interest on the bonds will be payable only from the proceeds of *ad valorem* tax levies made upon the taxable property in the District. The following information is provided in compliance with Sections 9400-9404 of the Elections Code of the State of California. Such information is based upon the best estimates and projections presently available from official sources, upon experience within the District, and other demonstrable factors.

Based upon the foregoing and projections of the District's assessed valuation, the following information is provided:

1. The best estimate of the average annual tax rate which would be required to be levied to fund this Bond issue over the entire duration of the bond debt service, based on a projection of assessed valuations available at the time of filing of this statement, is $49.44 per $100,000 of assessed value. The final fiscal year in which the tax is anticipated to be collected is 2060-61.

2. The best estimate of the highest tax rate which would be required to be levied to fund this Bond issue, based on a projection of assessed valuations available at the time of filing of this statement, is $58.03 per $100,000 of assessed value. It is estimated that such rate would be levied starting in fiscal year 2039-40 and following.

3. The best estimate of the total debt service, including the principal and interest, that would be required to be repaid if all the Bonds are issued and sold is approximately $161,600,000.

Voters should note the estimated tax rate is based on the assessed value (not market value) of taxable property on the County's official tax rolls. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions.

The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary from those used to provide the estimates set forth above, due to factors such as variations in the timing of bond sales, the par amount of Bonds sold and market interest rates available at the time of each sale, actual assessed valuations over the term of the bonds, and other factors. The date and amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. The actual interest rates at which the bonds will be sold will depend on conditions in the bond market at the time of sale. Actual future assessed valuations will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

Date: 6/18/2026

Interim Superintendent, Calaveras Unified School District

ARGUMENT IN FAVOR OF MEASURE A

Our schools are some of the most important assets in our community and should be our number one priority. High quality schools improve student achievement, increase property values, prepare children for a productive future, and create greater neighborhood safety. Although our teachers and staff do a great job educating local students, many classrooms and school facilities in the Calaveras Unified School District are outdated and inadequate to provide students with the school facilities they need to succeed.

While our schools have been well maintained over the years, they are old. The average age is nearly 55 years, and Calaveras High School, our oldest, was first built in 1928! Aging classrooms and facilities must be upgraded, since many do not meet 21st-century educational, safety, or technological standards. Approving Measure A will improve our schools without increasing tax rates.

Measure A will provide funding to make improvements throughout the District including:

- Expanding, renovating and constructing career technical classrooms and programs to better prepare students for employment after high school
- Replacing outdated heating, ventilation and air-conditioning systems
- Repairing or replacing leaky roofs
- Upgrading inadequate electrical systems
- Renovating deteriorating plumbing and sewer systems

Measure A makes financial sense and protects taxpayers.

- Will not increase tax rates.
- By law, spending must be reviewed and annually audited by an independent citizens' oversight committee.
- All bond funds must be spent locally and cannot be taken by the State.
- Funds are required to be spent only on schools, not for administrator or teacher salaries.
- Qualifies the District for over $20.5 million in State matching funds to help pay for improvements.

Without increasing taxes, Measure A upgrades and renovates old and inadequate classrooms, improves the education of local students, and maintains the quality of our community. That's something we can all support. Please join us and VOTE YES ON MEASURE A!

ARGUMENT AGAINST MEASURE A

(None Filed)

FULL TEXT BALLOT PROPOSITION OF THE CALAVERAS UNIFIED SCHOOL DISTRICT BOND ELECTION FOR NOVEMBER 3, 2026

MEASURE A

ACCOUNTABILITY SAFEGUARDS

The provisions in this section are specifically included in this proposition in order that the Calaveras Unified School District's voters and taxpayers may be assured that their money will be spent wisely to address specific facilities needs of the Calaveras Unified School District, all in compliance with the requirements of Article XIII A, Section 1(b)(3) of the State Constitution, and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following).

Evaluation of Needs. The Board of Education has evaluated the facilities needs of the Calaveras Unified School District and has identified projects to finance from a local bond measure at this time. The Board of Education hereby certifies that it has evaluated safety, class size reduction and information technology needs in developing the Project List.

Limitation on Use of Bond Proceeds. The State of California does not have the power to take locally approved school district bond funds for any State purposes. Proceeds from the sale of bonds authorized by this proposition shall be used only for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on or necessary and incidental to the bond projects.

Independent Citizens Oversight Committee. The Board of Education shall establish an independent Citizens' Oversight Committee (pursuant to Education Code Section 15278 and following), to ensure bond proceeds are spent only for the school facilities projects listed in the Project List. The committee shall be established within 60 days of the date when the Board of Education certifies the official results of the election.

Annual Performance Audits. The Board of Education shall conduct an annual, independent performance audit to ensure that the bond proceeds have been expended only on the school facilities projects listed in the Project List.

Annual Financial Audits. The Board of Education shall conduct an annual, independent financial audit of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed in the Project List.

Special Bond Proceeds Account; Annual Report to Board. Upon approval of this proposition and the sale of any bonds approved, the Board of

Continue to next page

Education shall take actions necessary pursuant to Government Code Section 53410 and following to establish an account in which proceeds of the sale of bonds will be deposited. As long as any proceeds of the bonds remain unexpended, the Superintendent of the District shall cause a report to be filed with the Board no later than December 31 of each year, commencing December 31, 2027, stating (1) the amount of bond proceeds received and expended in that year, and (2) the status of any project funded or to be funded from bond proceeds. The report may relate to the calendar year, fiscal year, or other appropriate annual period as the Superintendent shall determine, and may be incorporated into the annual budget, audit, or other appropriate routine report to the Board.

PROJECT LIST

Bond proceeds will be expended to modernize, replace, renovate, expand, construct, acquire, equip, furnish and otherwise improve the classrooms and school facilities of the District. Priority will be given to the following types of projects included on the list below:

Classroom modernizations	Site Infrastructure
Career Tech	Safety and Security

The specific school facilities projects to be funded include, but shall not be limited to:

Calaveras High School/Goldstrike High School Campus

- Construct, renovate, furnish, and equip classrooms, labs and maker spaces to support CTE (Career Technical Education) instruction
- Repair or replace leaky roofs
- Repair/replace heating, ventilation & air conditioning (HVAC) systems
- Upgrade deteriorating plumbing fixtures and infrastructure and sewer systems
- Renovate, construct and modernize classrooms, including fixtures, flooring, windows, window coverings, doors, lighting, interior and exterior finishes, and paint
- Develop, construct, install and improve outdoor areas including learning, meeting and gathering areas and building/installing shade/rain structures and seating
- Construct, renovate, repair, replace and/or install athletic facilities, gymnasiums, athletic playfields and courts, locker rooms and related improvements and equipment
- Install door and window hardware, locks and/or safety treatments
- Install fencing

Continue to next page

- Repair, replace and/or upgrade paved surfaces and hardscape, including walkways and parking lots
- Renovate, repair and modernize restrooms
- Upgrade and expand campus-wide wireless systems and telecommunications, internet, and network connections
- Upgrade and/or replace fire alarms and alarm systems
- Install and update security systems and cameras

Toyon Middle School

- Repair or replace leaky roofs
- Repair/replace heating, ventilation & air conditioning (HVAC) systems
- Upgrade deteriorating plumbing fixtures and infrastructure and sewer systems
- Renovate, construct and modernize classrooms, including fixtures, flooring, windows, window coverings, doors, lighting, interior and exterior finishes, and paint
- Construct, renovate, furnish, and equip labs and maker spaces to support STEM (science, technology, engineering and math) instruction
- Design, purchase, and installation of exterior shade structures
- Construct, renovate, repair, replace and/or install gymnasiums, athletic facilities and related improvements and equipment
- Install door and window hardware, locks and/or safety treatments
- Repair, replace and or/upgrade paved surfaces and hardscape, including walkways and parking lots
- Renovate, repair and modernize restrooms
- Upgrade and expand campus-wide wireless systems and telecommunications, internet, and network connections.
- Install and update security systems and cameras

Jenny Lind Elementary

- Repair or replace leaky roofs
- Repair/replace heating, ventilation & air conditioning (HVAC) systems
- Upgrade deteriorating plumbing fixtures and infrastructure and sewer systems

- Renovate, construct and modernize classrooms, multi-purpose room, cafeteria, and other school facilities including flooring, windows, window coverings, doors, lighting, interior and exterior finishes, fixtures, furniture and paint
- Design, purchase, and installation of exterior shade structures
- Construct, renovate, repair, replace and/or install physical education facilities, playfields and playgrounds, and related improvements and equipment
- Install door and window hardware, locks and/or safety treatments
- Repair, replace and or/upgrade paved surfaces and hardscape, including walkways, stairways and parking lots
- Renovate, repair and modernize restrooms
- Upgrade and expand campus-wide wireless systems and telecommunications, internet, and network connections.
- Upgrade and/or replace fire alarms and alarm systems
- Install and update security systems and cameras
- Repair or replace outdated portable classrooms or install new portable classrooms

Valley Springs Elementary

- Repair or replace leaky roofs
- Repair/replace heating, ventilation & air conditioning (HVAC) systems
- Upgrade deteriorating plumbing fixtures and infrastructure and sewer systems
- Renovate, construct and modernize classrooms, kitchen and other school facilities including flooring, windows, window coverings, doors, lighting, interior and exterior finishes, fixtures, furniture and paint
- Design, purchase, and installation of exterior shade structures
- Construct, renovate, repair, replace and/or install physical education facilities, playfields and playgrounds, and related improvements and equipment
- Install door and window hardware, locks and/or safety treatments
- Repair, replace and or/upgrade paved surfaces and hardscape, including walkways, stairways and parking lots
- Upgrade and expand campus-wide wireless systems and telecommunications, internet, and network connections.
- Install and update security systems and cameras

- Repair or replace outdated portable classrooms or install new portable classrooms

West Point Elementary

- Repair or replace leaky roofs
- Repair/replace heating, ventilation & air conditioning (HVAC) systems
- Renovate, construct and modernize classrooms, multi-purpose rooms, and other school facilities including flooring, windows, window coverings, doors, lighting, interior and exterior finishes, fixtures, furniture and paint
- Install door and window hardware, locks and/or safety treatments
- Repair, replace and or/upgrade paved surfaces and hardscape, including walkways, stairways and parking lots
- Renovate, repair and modernize restrooms
- Upgrade and expand campus-wide wireless systems and telecommunications, internet, and network connections.
- Repair or replace outdated portable classrooms or install new portable classrooms
- New library/media center

Sierra Hills Education Center

- Repair/replace heating, ventilation & air conditioning (HVAC) systems
- Upgrade deteriorating plumbing fixtures and infrastructure and sewer systems
- Renovate, construct and modernize classrooms and other school facilities including flooring, windows, window coverings, doors, lighting, interior and exterior finishes, fixtures, furniture and paint
- Design, purchase, and installation of exterior shade structures
- Construct, renovate, repair, replace and/or install physical education facilities, courts and related improvements and equipment
- Install door and window hardware, locks and/or safety treatments
- Repair, replace and or/upgrade paved surfaces and hardscape, including walkways, stairways and parking lots
- Upgrade and expand campus-wide wireless systems and telecommunications, internet, and network connections
- Install and update security systems and cameras
- Repair or replace outdated portable classrooms or install new portable classrooms

District & Central Offices and Student Classrooms at the District Office

- Security Fencing to protect buses, equipment, fuel tanks, tools and building interiors
- Update electrical, plumbing, and flooring in all areas as needed including the student classrooms at the District Offices
- Install security camera system for the Bus Barn, IT Department, Computer Labs (and equipment therein), and offices
- Panic Button to be installed at the District Offices for access by employees in the event of an emergency

District-wide Improvements

- Repair or replace leaky roofs
- Repair/replace heating, ventilation & air conditioning (HVAC) systems
- Upgrade deteriorating plumbing fixtures and infrastructure and sewer systems
- Renovate, construct and modernize multi-purpose rooms, libraries, cafeterias, kitchens and other school facilities including flooring, windows, window coverings, doors, lighting, interior and exterior finishes, fixtures, furniture and paint
- Design, purchase, and installation of exterior shade structures
- Construct, renovate, repair, replace and/or install physical education facilities, playfields and playgrounds, and all related improvements and equipment
- Install door and window hardware, locks and/or safety treatments
- Renovate, repair and modernize restrooms
- Upgrade and expand campus-wide wireless systems and telecommunications, internet, and network connections, including VOIP.
- Repair, replace and or/upgrade paved surfaces and hardscape, including walkways, stairways and parking lots
- Acquire, replace, and equip transportation lifts, athletic vans, maintenance vehicles, and related equipment necessary to support student transportation, athletics programs, campus operations, safety, and maintenance needs.
- Acquire and upgrade software, computers, and other equipment, to support an innovative 21st-century learning environment
- Upgrade and/or replace fire alarms and alarm systems
- Install and update security systems and cameras

Continue to next page

- Install, repair, and/or replace perimeter and security fencing, gates, posts, hardware, and related access-control components as needed to improve site safety, security, and student access.

- Repair/replace or renovate old portable classrooms

The listed projects will be completed as needed. Each project is assumed to include its share of furniture, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction costs. In addition to the listed projects stated above, the list also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by construction projects. In addition to the projects listed above, the repair and renovation of each of the existing school facilities may include, but not be limited to, some or all of the following: renovation of student and staff restrooms; upgrade of facilities for energy efficiencies; installation wiring and electrical systems to safely accommodate computers, technology and other electrical devices and needs; upgrades or construction of support facilities, including administrative, physical education/athletic facilities and performing arts buildings and maintenance yards; resurfacing or replacing of hard courts, and turf and irrigation systems and campus landscaping and play fields; expand parking; install interior and exterior painting and floor covering; demolition; and construction of various forms of storage and support spaces, upgrade classrooms, bleachers, kitchens, repair, upgrade and install interior and exterior lighting systems; replace outdated security fences and security systems. The upgrading of technology infrastructure includes, but is not limited to, computers, LCD projectors, portable interface devices, servers, switches, routers, modules, sound projection systems, laser printers, digital white boards, document projectors, upgrade voice-over-IP, call manager and network security/firewall, wireless technology systems and other miscellaneous equipment and software. The allocation of Bond proceeds will be affected by the District's receipt of State matching funds and the final costs of each project. In the absence of State matching funds, which the District will aggressively pursue to reduce the District's share of the costs of the projects, the District will not be able to complete some of the projects listed above. The budget for each project is an estimate and may be affected by factors beyond the District's control. Some projects throughout the District, such as gyms, fields and performing arts facilities, may be undertaken as joint use projects in cooperation with other local public or non-profit agencies. The final cost of each project will be determined as plans and construction documents are finalized, construction bids are received, construction contracts are awarded and projects are completed. Based on the final costs of each project, certain of the projects described above may be delayed or may not be completed. Demolition

Continue to next page

of existing facilities and reconstruction of facilities scheduled for repair and upgrade may occur, if the Board determines that such an approach would be more cost-effective in creating more enhanced and operationally efficient campuses. Necessary site preparation/restoration may occur in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including ingress and egress, removing, replacing, or installing irrigation, utility lines, trees and landscaping, relocating fire access roads, and acquiring any necessary easements, licenses, or rights of way to the property. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on or necessary and incidental to bond projects. Bond proceeds shall only be expended for the specific purposes identified herein. The District shall create an account into which proceeds of the bonds shall be deposited and comply with the reporting requirements of Government Code § 53410.
