EXHIBIT C

North County Public Recreation District

The neighborhood parks and community facilities managed by the North County Recreation and Park District are essential to the health and vitality of local families. To address critical facility needs and ensure stable, local funding, the district proposes a dedicated funding measure focused on the following key operational priorities:

- Expanding the Community Senior Center: Providing the funding necessary to modernize, expand, and upgrade the local community senior center, ensuring local seniors have access to expanded recreational spaces, dedicated activities, and supportive social programming.

- Safe and Secure Parks: Keeping neighborhood parks clean, secure, and free from safety hazards so they remain inviting, functional public spaces for children and families.

- Accessible Facilities for All: Upgrading district park infrastructures and community spaces to satisfy modern Americans with Disabilities Act (ADA) compliance, allowing individuals with physical disabilities to fully enjoy every facility.

- Clean Park Restrooms: Directing resources toward the daily sanitation, repair, and ongoing upkeep of public park bathrooms to maintain high health standards and a positive visitor experience.

- Enriched Recreational Programming: Protecting and diversifying recreational activities, classes, and sports leagues tailored to all age groups—from early youth development to active senior engagement.

- Experienced Facility Oversight: Attracting, retaining, and supporting qualified operations staff to maintain district properties, run programs efficiently, and guarantee public safety across all park locations.

Funding Mechanism and Accountability
To execute these community improvements, the measure establishes an annual parcel tax of $82.00 on each property situated within the district boundaries. This voter-approved levy will raise a dedicated, predictable revenue stream of approximately $300,000.00 each year, remaining in effect until officially ended by district voters.

Investing in public parks is a direct investment in the collective well-being of our community. Modernizing our spaces—especially expanding dedicated environments for our aging population—fosters social connection, encourages active lifestyles, and builds civic pride across generations. By enacting this measure, residents of the North County Recreation and Park District can secure the long-term future of our shared public resources, creating a more inclusive, vibrant, and healthy place to live.
