WHEREAS, the North Monterey County Unified School District ("District"), a California public school district organized and operating pursuant to the laws of the State of California ("State"), desires to upgrade, improve, construct and acquire school facilities, make improvements to certain existing facilities, rehabilitate, modernize or replace certain existing school facilities, or the acquisition or lease of real property for school facilities purposes, which may include the furnishing and equipping of school facilities, all as further described herein, for school facilities to serve the students within the District as further described in Exhibit "A" attached hereto and incorporated herein by this reference ("School Facilities"); and

WHEREAS, dedicated District teachers and staff are committed to providing a high-quality education to approximately 4,200 students in transitional kindergarten/kindergarten through twelfth grade, working to ensure that all students are college, career, and life ready; and

WHEREAS, some of the District's classrooms and school facilities are over 60 years old, and all of the District's facilities need repairs, upgrades and safety improvements to provide the education that local students deserve; and

WHEREAS, the District's school maintenance staff works hard to take care of the aging classrooms and school facilities by keeping up with necessary repairs and maintenance, but significant upgrades and capital improvements are needed that are beyond what can be funded by the District's annual budget; and

WHEREAS, the District conducted a facilities assessment and has adopted a comprehensive Facilities Master Plan that identified priority repairs needed to meet updated security and safety standards for supporting current academic standards; and

WHEREAS, the Board of Education of the District ("Board") has determined that a local funding source is needed to enable the District to provide school facilities for this generation of students and for generations to come; and

WHEREAS, if approved by local voters, the measures would help the District qualify for millions in State matching funds that would otherwise go to other school districts; and

WHEREAS, the District's bond measure would require strict fiscal accountability and transparency protections, including: every penny would benefit local schools, be controlled locally, and could not be taken away by the State or federal government; no funds could be used

WHEREAS, under Section 10403 *et seq.* of the California Elections Code ("Elections Code"), it is appropriate for the Board to request consolidation of such election with any and all other elections to be held within the boundaries of the District on Tuesday, November 3, 2026.

(ii) In the event that Bonds have been issued and sold, and proceeds therefore received, the report shall include the status of the acquisition, construction or financing of the School Facilities with the proceeds of such Bonds or series of Bonds; and

(iii) In the event that taxes have been levied in a fiscal year to pay principal and interest on the Bonds, the amount of principal and interest due on the Bonds in the corresponding calendar or fiscal year.

The report required by this Section 20(d) may be combined with other periodic reports which include the same information, including, but not limited to, periodic reports made to the California Debt and Investment Advisory Commission or continuing disclosure reports or other reports made in connection with the Bonds, or any series thereof.

The requirements of this Section 20(d) shall apply only until all Bonds, or each series of Bonds, are redeemed or defeased, but if the Bonds or any series of Bonds are refunded, such provisions shall apply until all such refunding Bonds are redeemed or defeased.

Section 21. The Bonds authorized by the measure referenced herein may be issued in one or more series by the District from time to time, and each series of Bonds shall mature not more than the applicable legal limit from the date of issuance thereof. The Bonds shall be issued under the provisions of the Education Code, under the provisions of Section 53506 of the Government Code, or under any other provision of law authorizing the issuance of general obligation bonds by school districts.

This shall include, but shall not be limited to, payment to the County for costs or expenses incurred by the County in calling and conducting the Election for the Proposition as directed herein. Such costs

may, to the extent legally permissible, be recovered as a cost of issuance of the Bonds if so authorized by the electors.

Section 24. The Superintendent, the Assistant Superintendent, Business Services, the President of the Board, and/or their respective designee(s), are hereby authorized and directed to make any changes to the text of the Proposition or the Bond Measure Statement referenced in Section 12 hereof and set forth in Exhibits "A" and "B," as applicable as required to conform to any requirements of Section 1(b) of Article XIIIA of the California Constitution, Proposition 39, State law or the County Registrar.

Section 25. The adoption of this Resolution, and the call and conducting of the Election, is not a "project" for purposes the California Environmental Quality Act, Division 13 (commencing with Section 21000) of the Public Resources Code ("CEQA") but that each of the projects specified in Exhibit "A" will be accomplished in accordance with the applicable requirements of CEQA. The Clerk of the Board is authorized and directed to complete, execute and file, or arrange for filing of, a Notice of Exemption in such regard.

TEXT OF BOND MEASURE
(SCHOOL REPAIR AND UPGRADE BOND MEASURE)

"In order to acquire, construct and reconstruct school facilities, and provide for supporting infrastructure at the existing school site of the North Monterey County Unified School District (District), and in so doing increase health, safety, welfare and educational effectiveness of classrooms for students, shall the North Monterey County Unified School District be authorized to issue Bonds in an amount not to exceed $40,000,000, including the furnishing and equipping of school facilities or the acquisition or lease of real property for schools and school facilities listed in Attachment "1" on file at the District office and herein incorporated, which Bonds shall be issued for a term not to exceed the applicable statutory maximum, which is currently twenty-five (25) years in the case of bonds issued under the authority of the Education Code and forty (40) years in the case of bonds issued under the authority of the Government Code, at an interest rate below the legal maximum, and which bonds shall be subject to the following provisions:

(A) That proceeds of the Bonds shall be used only for the construction of school facilities and supporting infrastructure, including the furnishing and equipping of school facilities or the acquisition or lease of real property for school facilities pursuant to California Constitution Article XIIIA, Section 1(b)(3) and further that the proceeds of the Bonds shall be used only for the purposes specified in California Constitution Article XIIIA, Section 1(b)(3) (as amended by Proposition 39) and not for any other purpose, including teacher and non-construction related administrator salaries and any other school operating expenses.

(B) That a list of the specific school facilities projects to be funded with the proceeds of the Bonds is attached hereto as Attachment "1" and, based upon the adoption of this Resolution, this Board of Education hereby certifies that it has evaluated safety, class size reduction and information technology needs in developing the school facilities listed in Attachment "1".

(C) That the Board of Education of the District shall conduct an annual, independent performance audit to insure that the proceeds from the sale of the Bonds have been expended only on the specific projects listed in this bond proposition.

(D) That the Board of Education of the District shall conduct an annual, independent financial audit of the proceeds from the sale of the Bonds until all of those proceeds have been expended for the school facilities projects identified herein.

(E) That the Board of Education of the District will, pursuant to the provisions of applicable State law, appoint a citizens' oversight committee, and conduct annual independent audits (as referenced above) to assure that the Bond proceeds are spent only on the school, facilities and classroom improvements, projects and costs identified in Attachment "1" and for no other purposes.

Key Findings:

The North Monterey County Unified School District serves approximately 4,200 students in TK/Kindergarten through twelfth grade. Dedicated teacher and staff are committed to helping ensure **all** students are ready for college, careers, and beyond.

Most District schools were built over 60 years ago and no longer meet modern safety or instructional standards. Many classrooms and facilities require significant repairs and upgrades to ensure a safe and effective learning environment. District maintenance staff work hard to care for aging classrooms and school facilities by keeping up with necessary repairs and maintenance, but the needed upgrades and capital improvements are beyond what the District's annual budget can fund.

Over the past year, the District conducted a facilities assessment and adopted a comprehensive Facilities Master Plan that identifies priority repairs needed to meet updated safety, security, and academic standards. The Plan meets the District's goals of providing local students with a safe, up-to-date learning environment to help them succeed in their educational journey. The District's Board believes this bond measure is needed to provide locally controlled funding to repair and improve local schools. Passage of this measure could also help the District qualify for millions of dollars in State matching funds that it would otherwise not be eligible to receive. The bond measure includes strict accountability, including the appointment of an independent citizens' oversight committee and annual audits to ensure all funds are spent locally as promised (as further set out below).

Repayment Projections: The tax levied to repay the Bonds is estimated to average $2,800,000 annually in all years bonds are outstanding anticipated to be collected through fiscal year 2053/54 at a rate of approximately $0.032 per $100 / $32.00 per $100,000 of assessed value as further set out in the Tax Rate Statement provided to voters with this bond measure.

Taxpayer Protections: The following taxpayer protections are specifically provided in this Bond Measure and by law:

- Bond funds shall be used only for the school facilities projects identified herein, and **not for any other purpose**.
- As required by law, an **Independent Citizen's Oversight Committee** shall oversee expenditures of bond funds, and related matters, and shall report to the Board of Education and communicate with the public on such expenditures.
- As required by law, the School District shall conduct **annual financial audits and performance audits** (using independent auditors) for all bond funds.

- Bond Funds **shall not be used** for teacher or non-construction related administrator salaries or other non-construction related operating expenses."

costs and related costs. Project costs may also include the payment or prepayment of existing or future lease payments and/or interim financing costs for lease of authorized facilities, property or buildings, prepayment of lease obligations for facilities purposes (including temporary classroom facilities) and payment of costs and expenses for interim financing of authorized facilities (including, but not limited to, financing delivery costs). Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on, or necessary and incidental to, bond projects. Allowable project costs also include: costs of issuing the bonds or other securities (as authorized under California law), informational distribution costs and election costs authorized under State law.

The scope and nature of any of the specific projects described above may be altered by the District as required by unforeseen conditions that may arise during the course of design and accomplishment of the projects. In the event that a modernization or renovation project is more economical for the District to be undertaken as new construction, this bond measure authorizes land acquisition, relocation and construction and/or reconstruction, and all costs relating thereto, for said reason or, alternatively, based on other considerations deemed in the best interest of the District by the Board of Education. In addition, this measure authorizes the acquisition of real property, including necessary rights of ways or other real property interests, required to expand District facilities, to provide access to school or other District facilities, or to provide additional school or related facilities.

This School Facilities Project List describes the specific facilities and capital projects the District may finance with proceeds of the Bonds. In addition, authorized projects include reimbursements for paid project costs and paying and/or prepaying interim or previously obtained financing for the types of projects included on the project list, such as bond anticipation notes, and including payment and prepayment of lease payments relating to projects and/or equipment previously financed. Listed projects will be completed as needed at a particular school site according to Board-established priorities, and the order in which such projects appear on this School Facilities Project List is not an indication of priority for funding or completion. The final cost of each project will be determined as plans are finalized, construction bids are awarded, and projects are completed. Certain construction funds expected from non-bond sources, including State grant funds for eligible projects, have not yet been secured. Until all project costs and funding sources are known, the Board of Education cannot determine the amount of bond proceeds available to be allocated for each project, nor guarantee that the bonds will provide sufficient funds to allow completion of all listed projects. Completion of some projects may be subject to further government approvals by State officials and boards, to local environmental review, and to input from the public. For these reasons, inclusion of a project on the School Facilities Projects List is not a guarantee that any specific project listed herein will be funded, constructed or completed by a specific date.

In preparing the foregoing School Facilities Project List, the Board of Education of the North Monterey County Unified School District has evaluated safety, class size and information technology needs.

TAX RATE STATEMENT

NORTH MONTEREY COUNTY UNIFIED SCHOOL DISTRICT - General Obligation Bond Election of November 3, 2026

MEASURE ___
(SCHOOL REPAIR AND UPGRADE BOND MEASURE)

As shown in the attached official ballot, an election is being held in the North Monterey County Unified School District ("District") on November 3, 2026, for the purpose of submitting to the registered voters within the District the question of whether the District shall issue and sell bonds in an amount not to exceed $40,000,000 for the purpose of providing funds for the specified school facilities and school projects as set forth in the resolution of the District calling such bond election. This measure will authorize a tax sufficient for payment of interest on, and redemption of, the bonds. The bonds shall bear interest at a rate, or rates, to be established at such time as the bonds are sold, in one or more series, at fixed or variable interest rates not to exceed the maximum applicable statutory rate for such bonds. If such bonds are authorized and sold, the principal thereof and the interest thereon are a general obligation of the District, payable from the proceeds of *ad valorem* property taxes on taxable real property located within the District.

The following information is submitted in compliance with California Elections Code Sections 9401 through 9405 based on estimates of assessed valuations available at the time of filing of this statement:

(a) The best estimate from official sources of the average annual tax rate that would be required to be levied to fund the bond issue during the entire duration of the bond debt service (repayment of the bonds) based on estimated assessed valuations available at the time of filing of this statement, which is a projection based on experience within the same jurisdiction or other demonstrable factors, is $0.032 per $100 ($32 per $100,000) of assessed valuation. The final fiscal year in which such tax is anticipated to be collected is 2053-2054.

(b) The best estimate from official sources of the highest tax rate which would be required to be levied to fund such bond issue(s) based on estimated assessed valuations available at the time of filing of this statement, which is a projection based on experience within the same jurisdiction or other demonstrable factors, is $0.032 per $100 ($32 per $100,000) of assessed valuation. It is estimated that this tax rate would apply in all years in which bonds would be outstanding.

(c) The best estimate of the total debt service, including principal and interest, that would be required to be repaid if all the bonds are issued and sold is $74,500,000.

Voters should note that these estimated tax rates are based on the *assessed value* of taxable property within the District as shown on the official rolls of Monterey County, *not* on the property's market value. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective rate than described above. Actual

future assessed valuation will depend upon the amount and value of taxable property within the District as determined by the Monterey County Assessor in the annual assessment and the equalization process. Property owners should consult their own property tax bills and/or tax advisors to determine their property's assessed value and any applicable tax exemptions.

Attention of all voters is directed to the fact that these estimates are based on assumptions and projections derived from information currently available and obtained from official sources. The actual tax rates and the years in which they will apply may vary depending on the timing of any bond sales, the amount of bonds sold, the maturities of the bonds issued and sold, market interest rates at the time of each sale of bonds and actual assessed valuations over the term of repayment of the bonds. The figures provided above are estimations based on the factors noted herein and are not maximum limitations. The timing of the bond sales and the amount of bonds sold at any given time will be governed by the needs of the District. The actual interest rates at which the bonds will be sold will depend on the bond market at the time of each such sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the District as determined by the Monterey County Assessor in the annual assessment and the equalization process.
