FULL TEXT OF MEASURE

Shall South Monterey County Joint Union High School District (SMCJUHSD) with an enrollment of approximately 2,584 in grades 9-12, be reorganized in accordance with the Plans and Recommendation of the Monterey County Committee on School District Organization (which can be viewed at: montereycoe.org/reorganization-ballot-measure), to form two new unified school districts: one new unified school district covering the entire current territory of Greenfield Union School District (current enrollment 3,299 in grades TK-8) to be known as Greenfield Unified School District (projected enrollment 4,652 in grades TK-12), and a second unified school district covering King City Union School District (current enrollment 2,481 in grades TK-8) and the rest of the territory of SMCJUHSD to be known as King City Joint Unified School District (projected enrollment 3,846 in grades TK-12). Five small elementary school districts that currently feed into SMCJUHSD would retain their separate governing boards and attendance patterns for high school. These districts are San Lucas Union Elementary School District, San Ardo Union Elementary School District, Bradley Union Elementary School District, San Antonio Union Elementary School District, and Bitterwater-Tully Elementary School District. If approved by the voters, the new unified school districts would be effective for all purposes in the 2028-29 school year. If approved by the voters, the reorganization would result in the dissolution of Greenfield Union School District, King City Union School District, and SMCJUHSD. Greenfield High School and all elementary facilities in Greenfield Union School District would become property of the new Greenfield Unified School District. King City High School, the continuation high schools, and all elementary school facilities in King City Union School District would become property of the new King City Joint Unified School District. The feasibility study contained in the Plans and Recommendation reflect there would be no reduction in per pupil funding if approved by the voters while at the same time resulting in administrative cost reductions from consolidation of administrative positions and functions. The plans and recommendations provide for the division of the assets and obligations of SMCJUHSD in a manner to achieve fairness considering many factors including a Memorandum of Understanding signed by SMCJUHSD, Greenfield Union School District, and King City Union School District. The plans and recommendations provide for two new five-member governing boards for the new unified school districts to be elected by the voters of the respective new unified school district at the same election at which they vote to approve or reject the reorganization measure described above.
