ARGUMENT IN FAVOR OF MEASURE G

URGENTLY NEEDED REPAIRS WITHOUT RAISING TAXES
Measure G will NOT raise our taxes. Measure G extends the tax rate authorized by voters in 2002, enabling our Colleges to make fire safety repairs and urgently needed renovations.

KEEP COLLEGE AFFORDABLE
The cost to attend California's public universities is six times that of community college. Tens of thousands of East County students rely on Grossmont College and Cuyamaca College to earn college credits and learn job skills. **Measure G will help East County students continue attending local community colleges and transfer to four-year colleges/universities without generating crushing debt.**

REDUCE WILDFIRE RISK
Recent wildfires burned thousands of acres in East County, and the threat keeps growing. Grossmont College needs to increase water storage to be able to fight a major fire. Measure G adds water storage, pressure, and sprinklers to protect both campuses and surrounding neighborhoods and keeps Cuyamaca College available as an East County evacuation center.

REPAIR AGING BUILDINGS AND REPLACE WIRING
Measure G replaces frayed wiring and leaky roofs; renovates outdated electrical/heating systems; and fixes deteriorating bathrooms and broken plumbing.

TRAIN NURSES
Up-to-date labs and training equipment are necessary for Grossmont College to continue providing registered nurses for East County hospitals. Facing a statewide nursing shortage, we can't allow training facilities to fall behind. Measure G will enable these life-saving professionals to acquire these needed skills.

ASSIST VETERANS
The Grossmont-Cuyamaca Community College District assists Veterans seeking to learn new skills and rejoin the civilian workforce. Measure G provides new teaching facilities to upgrade programs that serve Veterans.

PROTECT TAXPAYERS

- No increase in current tax rate
- Funds cannot be taken by Sacramento and spent elsewhere
- Annual independent audits and citizens' oversight committee
- Full public disclosure of all spending
- No money for administrator salaries or pensions
- **Endorsed by the San Diego County Taxpayers Association**

Vote YES on Measure G. Keep our colleges safe, affordable, and open for the next generation – without raising our taxes.

Member, California Nurses Association

No Argument Against Measure G was filed with the Office of the Registrar of Voters

FULL TEXT OF MEASURE G

The full text of bond measure to be printed in the election material begins below the following line.

BOND AUTHORIZATION

By approval of this measure by at least 55% of the registered voters voting on the measure, the Grossmont-Cuyamaca Community College District (the "District") will be authorized to issue and sell bonds of up to $624,000,000 in aggregate principal amount, at interest rates not to exceed legal limits and to provide financing for the specific types of facilities projects listed in the Bond Project List included below, subject to all the accountability requirements specified below.

ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Expenditures to address specific facilities needs of the District will be in compliance with the requirements of Article XIIIA, Section 1(b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following.)

Bonds authorized by this measure may be issued under the provisions of the California Education Code (starting at Section 15100), under the provisions of the California Government Code (starting at Section 53506), or under any other provision of law authorizing the issuance of general obligation bonds by community college districts. The bonds may be issued in series by the District, from time to time, and each series of bonds shall mature within the legal limitations set forth in the applicable law under which the bonds are issued.

Evaluation of Needs. The Governing Board of the District (the "Board") has identified detailed facilities needs of the District, and has determined which projects to finance from a local bond. The Board hereby certifies that it has evaluated safety, class size reduction, enrollment growth, and information technology needs in developing the Bond Project List described below.

Independent Citizens' Oversight Committee. Following approval of this measure, the Board will establish an independent citizens' oversight committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the Board.

Performance Audits. The Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the facilities projects listed below.

Financial Audits. The Board will conduct annual, independent financial audits of the bond proceeds until all of those proceeds have been spent for the facilities projects listed below.

Government Code Accountability Requirements. As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the San Diego County Treasurer, as required by the Education Code, and (4) the Chancellor of the District shall cause an annual report to be filed with the Board of the District, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this measure, as required by Sections 53410 and 53411 of the Government Code.

Bonding Capacity. Issuance of each series of bonds authorized by this measure is required to conform with all applicable legal requirements. This includes issuance within applicable bonding capacity limitations, which

may include a waiver of bonding capacity granted by the State Governing Board, if sought and granted.

NO TEACHER OR ADMINISTRATOR SALARIES

Proceeds from the sale of bonds authorized by this measure shall be used only for the purposes specified in Article XIII A, Section 1(b)(3), specifically the construction, reconstruction, rehabilitation, or replacement of educational facilities, including the furnishing and equipping of educational facilities, and the acquisition or lease of educational facilities, and not for any other purpose, including teacher and administrator salaries and other operating expenses, in accordance with Opinion 04-110 of the Attorney General of the State of California.

STATE MATCHING FUNDS

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The District's proposal for the projects described below may assume the receipt of matching state funds, which, if available, could be subject to appropriation by the Legislature or approval of a statewide bond measure.

INFORMATION ABOUT ESTIMATES AND PROJECTIONS

Voters are informed that any estimates or projections in the bond measure or ballot materials, including relating to estimated tax rates, the duration of issued bonds and related tax levies and collections are provided as informational only. Such amounts are estimates and are not maximum amounts or limitations on the terms of the bonds, the tax rate or duration of the tax supporting repayment of issued bonds. Such estimates depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan, including but not limited to the amount of bonds issued and outstanding at any one time, the interest rates applicable to issued bonds, market conditions at the time of sale of the bonds, when bonds mature, timing of project needs and changes in assessed valuations in the District. As such, while such estimates and approximations are provided based on information currently available to the District and its current expectations, such estimates and approximations are not limitations and are not binding upon the District. In addition, the abbreviated and condensed statement of the bond measure presented to voters which is subject to a word count limitation imposed by State law does not limit the scope and complete meaning of the measure provided in this Full Text of Bond Measure and related ballot materials.

The District has examined the debt service requirements due on its outstanding bonds, the scheduled amortization of such bonds, and the 2025-26 cumulative tax rate of $37.52 per $100,000 assessed value. As a result, the District expects that the bonds issued pursuant to this measure will not increase the cumulative tax rate supporting the District's general obligations above the 2025-26 tax rate, using reasonable assumptions regarding assessed valuation growth although the final maturity of outstanding bonds will be extended by this measure. Notwithstanding the foregoing, voters are informed that general obligation bonds authorized by this measure are secured by an *ad valorem* tax unlimited as to rate or amount under State law. Although the current expectation is that the cumulative tax rate for bonds will not be increased by this measure, voters are informed that this expectation does not result in a cap or limitation on the tax levies required to amortize bonds authorized hereby. The District cannot anticipate all events that could result in assessed valuation changes including declines which may result in levies during the term of the bonds that are higher than the rate described in this section.

BOND PROJECT LIST

Scope of Projects. Bond proceeds will be expended on the modernization, renovation, expansion, acquisition, construction/reconstruction, rehabilitation, and/or replacement of facilities of the District, including the furnishing and equipping of such facilities, at all existing sites of the District and all sites that may be acquired by the District in the future, with projects expected to be financed at each campus as listed below.

FULL TEXT OF MEASURE G (CONTINUED)

Facility Project List. The items presented on the following list provide the types of projects authorized to be financed with voter-approved bond proceeds. Specific examples included on this list are not intended to limit the types of projects described and authorized by this measure. The following types of projects are authorized by this measure:

GROSSMONT CAMPUS PROJECTS

- Make critically needed replacements, repairs or upgrades to wildfire protection systems, domestic water systems, and related infrastructure improvements.
- Construct career and technical education facilities to expand programs in skilled trades such as welding, construction management and advanced manufacturing.
- Reconstruct the communication and arts classrooms and instructional facilities by replacing a 60+ year-old deteriorating building that has asbestos, leaky roofs and other hazardous materials and is not up to code.
- Reconstruct the child development center to replace the 28+ year-old building and modular structures to support high-quality childcare and early childhood education, including lab spaces and enhanced accessibility and safety.
- Replace, renovate, modernize, construct and equip other instructional buildings, classrooms and labs, as well as training, learning resources and student services facilities.

CUYAMACA CAMPUS PROJECTS

- Reconstruct the 50+ year-old instructional building complex, which is not able to support modern technology and current academic needs or building codes, to support teaching, learning, and support services with state-of-the-art learning spaces for engineering, communications, environmental health and safety management, computer-assisted design, world languages, and humanities.
- Renovate and upgrade the 25+ year-old child development center to improve safety and security for children, families and staff.
- Modernize the 37 year-old library to create a central academic and student support hub by upgrading infrastructure and accessibility, creating study areas and collaboration rooms, as well as upgrading technology infrastructure and lighting and safety systems.
- Replace, renovate, modernize, construct and equip other instructional buildings, classrooms and labs, as well as training and learning resources facilities.

DISTRICT-WIDE PROJECTS

- Federal and State-mandated Americans with Disabilities Act (ADA) and other accessibility upgrades district-wide, including site access, walkways, upgraded parking for persons with disabilities, staff and student restrooms, relocation of some existing electrical devices, drinking fountains, playground equipment and classrooms.
- Replace, repair or upgrade fume hoods, eye wash stations, and other health and safety equipment and systems.
- Repair or replace leaking pipes, plumbing, sewer and gas lines, storm drains and valves, heating, cooling, ventilation, electrical and other utility systems.
- Replace and upgrade transformers, automatic transfer switches, and other electrical and mechanical infrastructure.
- Replace, repair or upgrade aging roofs, flooring, windows, window coverings, doors, lighting, seating, interior and exterior finishes, shade structures, paint and related building systems.

- Install, replace or upgrade electronic access controls, campus security and emergency systems, fire and life safety systems, lighting systems and other safety and security improvements.
- Replace or upgrade cable plants, communications systems, hardware, and other data center equipment, storage area network, software, technology and network connections and infrastructure, data backup systems, internet and wi-fi.
- Improve, install, replace or upgrade energy management systems, utility isolation systems, solar and other systems to improve energy efficiency and sustainability.
- Replace or upgrade interior and exterior lighting systems and fixtures, including replacing outdated fluorescent lighting with energy-efficient alternatives.
- Construct, repair or improve roadways, walkways, parking lots, and related site improvements.
- Replace, expand or upgrade wireless access points, distributed antenna systems, current phone systems and other communication systems.
- Replace or upgrade student information systems and other instructional technology.

Incidental Expenses. Each of the bond projects described in this Bond Project List include the costs of furnishing and equipping such facilities, and all costs which are incidental but directly related to the types of projects described above. Examples of incidental costs include, but are not limited to: costs of design, engineering, architect and other professional services, facilities assessments, inspections, site preparation, utilities, landscaping, interior and exterior painting, bond project construction management, administration and other planning and permitting, legal, accounting and similar costs; independent annual financial and performance audits; a customary construction contingency; abatement, demolition and disposal of existing structures; the costs of interim housing and storage during construction including relocation and construction costs incurred relating to interim facilities; the preparation or restoration of construction, renovation or remodeling; rental or construction of storage facilities and other space on an interim basis for materials and other equipment and furnishings displaced during construction; costs of relocating facilities and equipment as needed in connection with the projects; the acquisition or improvement of interim classrooms and facilities for students, administrators, and functions, including portable classrooms and other modular facilities; federal and state-mandated safety upgrades; addressing unforeseen conditions revealed by construction/modernization and other necessary improvements required to comply with existing building codes, including the Field Act; access requirements of the Americans with Disabilities Act; and costs of the election; bond issuance costs; and project administration during the duration of such projects, as permitted by law.

Furnishing and Equipping. Each project is assumed to include its share of furniture, fixtures, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction costs. In addition to the listed projects stated above, the list also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by construction projects. The upgrading of technology infrastructure includes, but is not limited to, computers and computer stations, racks, projectors, portable interface devices, servers, switches, routers, modules, sound projection systems, printers, digital white boards, document projectors, audio-visual equipment, telephone system, call manager and network security/firewall, wireless technology systems and other miscellaneous equipment.

FULL TEXT OF MEASURE G (CONTINUED)

Alterations to Scope; Acquisition of Real Property. The scope and nature of any of the specific projects described above may be altered by the District as required by conditions that may arise during the course of design and construction. In the event that a modernization or renovation project is more economical for or otherwise determined by the Board to be in the best interests of the District to be undertaken as new construction, this bond measure authorizes said new construction including land acquisition, relocation and construction at a new or alternative site, and/or demolition and reconstruction and/or repurposing on the original site, including an expanded site, and all costs relating thereto. For any project involving rehabilitation or renovation of a building or the major portion of a building, the District shall be authorized to proceed with new construction instead, if the Board determines that replacement and new construction is more economically practical than rehabilitation and renovation, considering the building's age, condition, expected remaining life, and other relevant factors.

In addition, this measure authorizes the acquisition of real property, including necessary rights of ways or other real property interests required to expand District facilities, to provide access to District facilities, or to provide additional school or related facilities.

Interim Financing Included; Joint Use Projects Authorized. Authorized projects include paying and/or prepaying interim or previously obtained financing for the types of projects included on the Bond Project List, such as bond anticipation notes, and includes prepayment of lease payments to acquire title to facilities and/or equipment previously financed. Projects may also be undertaken on a joint use basis with other public entities.

Bond Project List Not in Order of Priority; Board Determines Prioritization. Approval of this bond measure does not guarantee that the proposed projects will be funded beyond the local revenues generated by the measure. The District's capital needs currently exceed the amount of bonds the voters are being asked to authorize. The order in which particular projects are listed is not intended to suggest priority for funding or completion, and itemization of projects in the list above does not guarantee that all such projects will be undertaken. Project priorities will be determined by the Board. The ability of the District to undertake and complete the listed projects is subject to numerous variables including the adequacy and availability of sufficient funding sources. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.

Interpretation. The terms of this bond measure and the words used in the Bond Project List shall be interpreted broadly to effect the purpose of providing broad and clear authority for the officers and employees of the District to provide for the facilities projects the District proposes to finance with the proceeds of the sale of bonds authorized by this proposition within the authority provided by law, including Article XIIIA, Section 1(b)(3) of the California Constitution, Education Code Section 15000 *et seq*. and the Strict Accountability in Local School Construction Bonds Act of 2000. Words used in the Bond Project List such as repair, improve, upgrade, expand, modernize, renovate, and reconfigure are used to describe facilities projects in plain English but are not intended to expand the nature of such projects beyond what is authorized by law. As such, in accordance with legal requirements, the Bond Project List does not authorize, and shall not be interpreted to authorize, expending proceeds of the sale of bonds authorized by this proposition for current maintenance, operation or repairs.

Severability. The Board hereby declares, and the voters by approving this Bond Measure concur, that every section and part of this bond proposition has independent value, and the Board and the voters would have adopted each provision hereof regardless of every other provision hereof. Upon approval of this measure by the voters, should any part be found by a court of competent jurisdiction to be invalid for any reason, all remaining parts hereof shall remain in full force and effect to the fullest extent allowed by law, and to this end the provisions of this bond measure are severable.

The full text of measure ends at the above line.
