## ARGUMENT IN FAVOR OF MEASURE J

**We can't let our community fall behind. Vote YES on Measure J to prepare Julian students for college, careers, and the skilled jobs of tomorrow.**

For more than 100 years, Julian Union High School District has served our mountain communities. But many classrooms and facilities are aging and overdue for essential repairs and modernization. Our students deserve the same modern, hands-on learning opportunities available elsewhere in the region.

Measure J, is a locally controlled plan to upgrade career technical education facilities, including agricultural science, mechanics, welding, auto shop, engineering, and animal programs. These improvements help students learn with current technology, build a strong foundation in science, math, and engineering, and graduate ready for college, careers, and skilled trades.

The State does not provide adequate facilities funding for local schools. Julian must stand up for our students with a local solution that cannot be taken away or redirected to Sacramento. Measure J gives our community the power to Invest in safe, modern classrooms, labs, and career training facilities built for today's students and tomorrow's workforce.

Voting YES on Measure J will:

- Construct or modernize agricultural science, mechanics, welding, auto shop, and animal program facilities
- Upgrade labs, tools, and instructional technology for engineering and skilled trades
- Improve student safety and campus security, including cameras, emergency communications, fire alarms, and smoke detectors

Measure J. Includes strict taxpayer protections:

- All money stays local and cannot be taken by the State
- An Independent citizens' oversight committee, annual audits, and public disclosure are required
- No money can be used for administrator salaries or pensions
- A clear project list ensures transparency and accountability

Join parents, teachers, business owners, agricultural leaders, and neighbors who believe Julian students deserve safe, modern facilities and real-world career training. **Vote YES on Measure J for Julian Union High School District.**

The undersigned proponent(s)* or author(s)* of the Direct Argument in favor of ballot measure at the General election for the Julian Union High School District to be held on November 3, 2026 hereby state that such argument Is true and correct to the best of their knowledge and belief.

DANA PETERSON
Julian Community Leader

**No Argument Against Measure J was filed with the Office of the Registrar of Voters**

## FULL TEXT OF MEASURE J

*The full text of bond measure to be printed in the election material begins below the following line.*

---

### KEY FINDINGS

Julian Union High School District (the "District") has served our community for over 100 years, providing generations of students with a well-balanced education. The Board of Education of the District (the "Board") believes that it is important that our students have the same educational opportunities as others in the region.

To maintain this standard, the District is identifying ways to support 21st-century learning in career technical education opportunities, including in agricultural science, hands-on mechanics welding, auto shop and animal programs.

As our buildings continue to age, there is a growing need to ensure our career technology facilities are safe, functional and aligned with current industry standards, and to support and improve programs that provide career technical education opportunities.

Updating and modernizing career technical educational facilities that focus on hands-on agriculture, auto shop and animal sciences will help provide District students with the specialized training and competitive edge needed for success in modern technical careers, and continue to serve our community for generations to come.

### BOND AUTHORIZATION

By approval of this measure by at least 55% of the registered voters voting on the measure, the District will be authorized to issue and sell bonds of up to $9,000,000 in aggregate principal amount, at interest rates not to exceed legal limits and to provide financing for the specific types of school facilities projects listed in the Bond Project List included below, subject to all the accountability requirements specified below.

### ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Expenditures to address specific facilities needs of the District will be in compliance with the requirements of Article XIIIA, Section 1(b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following.)

Bonds authorized by this measure may be issued under the provisions of the California Education Code (starting at Section 15100), under the provisions of the California Government Code (starting at Section 53506), or under any other provision of law authorizing the issuance of general obligation bonds by school districts. The bonds may be issued in series by the District, from time to time, and each series of bonds shall mature within the legal limitations set forth in the applicable law under which the bonds are issued.

**Evaluation of Needs**. The Board has identified specific facilities needs of the District, and has determined which projects to finance from a local bond. The Board hereby certifies that it has evaluated safety, class size reduction, enrollment growth, and information technology needs in developing the Bond Project List described below.

**Independent Citizens' Oversight Committee**. Following approval of this measure, the Board will establish an independent citizens' oversight committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the Board.

**Performance Audits**. The Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the school facilities projects listed below.
