ARGUMENT IN FAVOR OF MEASURE BB

Santee's elementary schools are among our community's most valuable assets. Quality schools give our children the education they need to succeed and strengthen our community by protecting home and business values.

Measure BB will provide funding for essential repairs for Santee Elementary School District with local control, full disclosure of all spending, independent oversight and **no increase in your current tax rate.**

To repair and preserve Santee's elementary schools, maintain local control and ensure that our community**—not the State—**decides how our tax dollars are spent, **vote YES on Measure BB.**

Here's how:

Local Control and Public Disclosure:

- Full **public disclosure** of all spending is legally required.
- Not one cent can be used to pay administrator salaries, pensions or benefits.
- By law, **funds cannot be taken by the State** and spent elsewhere.

Measure BB Protects Taxpayers:

- An independent citizens' bond oversight committee and third-party auditor will review every expenditure.
- **Measure BB will not raise the current tax rate.**

Measure BB Will Fund Critical Repairs and Renovations:

- Replacing inefficient heating, ventilation, filtration and air-conditioning systems.
- Repairing leaky roofs, aging plumbing, and deteriorating sewer systems.
- Installing keyless entry access and emergency communications systems.
- Ensuring accessibility in classrooms, restrooms, playgrounds and walkways for students with disabilities.
- Installing shade structures to protect students from extreme heat.
- Providing a multipurpose space for PE, afterschool programs and community activities.
- Improving playgrounds and playfields used by the schools and the community.
- Adding perimeter fencing and gates.

To preserve our independence from outside interference and keep decisions about our schools local, **Vote YES on Measure BB.**

NO ARGUMENT AGAINST MEASURE BB WAS FILED WITH THE OFFICE OF THE REGISTRAR OF VOTERS

FULL TEXT OF MEASURE BB

The following is the full proposition presented to the voters by the Santee School District (the "District").

"With funds that cannot be taken by the State and spent elsewhere, and no increase in tax rates, shall Santee Elementary School District's measure:

- repairing leaky roofs, plumbing, sewer systems
- updating inefficient heating, ventilation, air-conditioning systems
- building multipurpose instruction classrooms
- repairing aging schools, classrooms

be adopted authorizing $30 million of bonds with legal rates, average levies below $13 per $100,000 of assessed valuation ($2.2 million annually) while outstanding, audits, independent oversight, and full public disclosure of all spending?"

SCHOOL FACILITIES PROJECTS TO BE FUNDED FROM BOND PROCEEDS

As required by the California Constitution, the proceeds from the sale of the bonds will be used only for the purposes authorized under Article XIIIA of the California Constitution, including construction, reconstruction, rehabilitation, or replacement of school facilities, furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, as specifically set forth in this ballot measure, and costs incident thereto, and not for any other purpose, including salaries and other routine school operating expenses.

The below Bond Project List describes the specific projects the District proposes to finance with proceeds of the bonds. The scope of specific projects, the order of construction, and their completion is contingent on facilities planning, final project costs, and the availability of needed funds. Further, projects on the project list are of the type that issuing the authorized general obligation bonds will not cause the State to reduce any financial contribution that would otherwise be available to the District had these bonds not been authorized, issued, and or expended for their stated purpose.

The Project List includes both projects that can be completed using the bond proceeds, along with State matching funds and other building funds the District is projected to receive and projects that are planned and needed but whose construction is contingent on the amount of bond funds available, plus the amount of State matching and other building funds the District may receive in the future, which is a function of the State building program rules, passage of State bonds, and the growth rate of the District. The completion of specific projects is also contingent on final project costs.

Specific projects to be funded by the bond measure include, without limitation, the following:

- Expand, upgrade, renovate and revitalize existing or construct new classrooms and school facilities for vocational and career training programs;
- Acquire, install and/or upgrade campus and student safety and security systems, lighting systems, bell systems, fencing, controlled access gates, point of entry access, keyless entry and drop-off/pickup locations;
- Repair, replace and resurface deteriorating asphalt, concrete, sidewalks, parking lots, driveways, pedestrian access and walkways;
- Replace, repair and modernize deteriorating roofs, leaking pipes, outdated plumbing, sewer and gas lines, waterlines, wells, storm drains and valves, heating, cooling, ventilation systems (HVAC) and electrical systems;
- Renovate, upgrade and modernize classrooms and school facilities including flooring, windows, window coverings, doors, lighting, interior and exterior finishes, and paint;
- Renovate, upgrade, modernize and repair restrooms;

- Construct, expand, retrofit and equip classrooms, facilities, counseling, wellness centers, learning resource centers and other student support facilities;
- Provide adequate furniture and equipment for all classrooms;
- Renovate, repair, replace, construct and/or install playfields, locker rooms, other physical education, athletic and multi-use recreational facilities, and all related improvements;
- Develop, construct, install and improve outdoor areas including playgrounds, outdoor learning and meeting areas, hardscaping, landscaping, irrigation improvements, shade structures and seating;
- Upgrade, install, expand district-wide technology projects including installing all necessary network infrastructure, network connections, network security and wiring, and upgrading, servers, fiber optics, hardware, data backup systems, software, computers, tablets, classroom technology tools, remote learning software, internet and wi-fi;
- Make health and safety improvements, such as installing necessary seismic reinforcements, repairing termite damage and repairing and/or replacing aging building materials including removal of hazardous materials identified either prior to or during construction; and
- Federal and State-mandated Americans with Disabilities Act (ADA) accessibility upgrades District-wide including site access, walkways, parking, staff and student restrooms, relocation of some existing electrical devices, drinking fountains, playground equipment and classrooms

Each of the bond projects described in the Project List includes the costs of furnishing and equipping such facilities, and all costs which are incidental but directly related to the types of projects described above.

To the extent permitted by law examples of incidental costs include, but are not limited to: costs of design, engineering, architect and other professional services, facilities assessments, inspections, site preparation, utilities, landscaping, construction management and other planning and permitting, legal, accounting and similar costs; independent annual financial and performance audits; a customary construction contingency; demolition and disposal of existing structures; the costs of interim housing and storage during construction including relocation and construction costs incurred relating to interim facilities; rental or construction of storage facilities and other space on an interim basis for materials and other equipment and furnishings displaced during construction; costs of relocating facilities and equipment as needed in connection with the projects; interim classrooms and facilities for students, administrators, and school functions, including modular facilities; federal and state-mandated safety upgrades; addressing unforeseen conditions revealed by construction/modernization and other necessary improvements required to comply with existing building codes, including the Field Act; access requirements of the Americans with Disabilities Act; costs of the election; project construction oversight, management and administration during the duration of such projects, including by District personnel, and bond issuance costs.

Unforeseen conditions may arise during the course of planning, design and construction resulting in the scope and nature of any of the specific projects described above being altered by the District. In the event that the District determines that, with respect to a modernization or renovation project, it is more economical for the District or otherwise in the District's best interests to be undertaken as new construction, this bond measure authorizes said new construction, including land acquisition, relocation, expansion and construction and/or reconstruction, and all costs relating thereto. Conversely, if the District determines that it is more economical or otherwise in the best interests of the District to modernize or renovate District facilities instead of undertaking a new construction project, this bond measure authorizes such a project. In addition, this measure authorizes the acquisition of real property, including necessary rights of ways or other real property interests, required to expand District facilities, to provide access to school or other District facilities, or to provide additional school or related facilities. Further, authorized projects include reimbursements for project costs previously paid and paying and/or prepaying interim financing for the types of projects included on the project list, such as bond anticipation notes. Finally, projects on this list may be undertaken and used as joint use projects with other public agencies.

FULL TEXT OF MEASURE BB (CONTINUED)

Approval of the District's bond measure does not guarantee that all of the identified projects within this Bond Project List will be funded. The District plans to continue to pursue funds from the State of California, if available, to complete certain of the identified facilities projects. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.

The order in which projects are listed in the foregoing Bond Project List does not suggest an order of priority. Project prioritization is vested in and will be determined by the District's Board of Education. Bond proceeds shall only be expended for the specific purposes identified herein. The District shall create an account into which proceeds of the bonds shall be deposited and comply with the reporting requirements of Government Code section 53410.

These projects may include participation in the State Facility Program's Joint-Use Program to gain matching funds for teacher education, multi-purpose rooms, gymnasiums, libraries, childcare, and other qualifying Joint-Use facilities. With respect to such joint-use projects, the bond funds authorized by this bond measure may be used to pay all of the local share needed to qualify the projects for special State matching funds under the State Facility Program's Joint-Use Program requirements.

FISCAL ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this proposition in order that the voters and taxpayers in the District may be assured that their money will be spent only to address specific facilities needs of the District in compliance with the requirements of Article XIIIA, Section I (b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following).

Evaluation of Needs. The Board hereby certifies that it has evaluated safety, class size reduction and information technology needs in developing the project list contained in this ballot proposition.

Independent Citizens' Oversight Committee. The Board shall establish an Independent Citizens' Oversight Committee pursuant to Education Code Section 15278 and following to ensure bond proceeds are expended only on the projects listed in this ballot proposition. The committee shall be established within 60 days of the date when the results of the election appear in the minutes of the Board.

Performance Audits. The Board shall conduct an annual, independent performance audit to ensure that the bond proceeds have been expended only on the projects listed in this ballot proposition.

Financial Audits. The Board shall conduct an annual, independent financial audit of the bond proceeds until all of those proceeds have been spent for the projects listed in this ballot proposition.

Special Bond Proceeds Account: Annual Report to Board. Upon approval of this proposition and the sale of any bonds approved, the Board shall take actions necessary to establish an account in which proceeds of the sale of bonds will be deposited which will be a Building Fund to be held by the San Diego County Treasurer, as required by the California Education Code.

ADDITIONAL SPECIFICATIONS

Terms of the Bonds. The bonds may be issued and sold in several series in accordance with the financing plan determined by the Board of Education. Bonds may be issued pursuant to the Education Code or the Government Code in the discretion of the Board of Education at interest rates not exceeding the legal limits.

FULL TEXT OF MEASURE BB (CONTINUED)

Limit on Use of Bond Proceeds. Proceeds from the sale of bonds authorized by this proposition may be used only for the construction, reconstruction, rehabilitation or replacement of school facilities including the furnishing and equipping of school facilities or acquisition or lease of real property for school facilities and not for any other purpose, including teacher and administrator salaries not related to oversight of the projects to be constructed with the bonds and other school operating expenses. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on or necessary and incidental to the projects being financed.

State Matching Funds. The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of Measure BB does not guarantee that the proposed project or projects in the Santee School District that are the subject of bonds under Measure BB will be funded beyond the local revenues generated by Measure BB. The school district's proposal for the project or projects may assume the receipt of matching state funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure.
