ARGUMENT IN FAVOR OF MEASURE BB

Santee's elementary schools are among our community's most valuable assets. Quality schools give our children the education they need to succeed and strengthen our community by protecting home and business values.

Measure BB will provide funding for essential repairs for Santee Elementary School District with local control, full disclosure of all spending, independent oversight and **no increase in your current tax rate.**

To repair and preserve Santee's elementary schools, maintain local control and ensure that our community**—not the State—**decides how our tax dollars are spent, **vote YES on Measure BB.**

Here's how:

Local Control and Public Disclosure:

- Full **public disclosure** of all spending is legally required.
- Not one cent can be used to pay administrator salaries, pensions or benefits.
- By law, **funds cannot be taken by the State** and spent elsewhere.

Measure BB Protects Taxpayers:

- An independent citizens' bond oversight committee and third-party auditor will review every expenditure.
- **Measure BB will not raise the current tax rate.**

Measure BB Will Fund Critical Repairs and Renovations:

- Replacing inefficient heating, ventilation, filtration and air-conditioning systems.
- Repairing leaky roofs, aging plumbing, and deteriorating sewer systems.
- Installing keyless entry access and emergency communications systems.
- Ensuring accessibility in classrooms, restrooms, playgrounds and walkways for students with disabilities.
- Installing shade structures to protect students from extreme heat.
- Providing a multipurpose space for PE, afterschool programs and community activities.
- Improving playgrounds and playfields used by the schools and the community.
- Adding perimeter fencing and gates.

To preserve our independence from outside interference and keep decisions about our schools local, **Vote YES on Measure BB.**

NO ARGUMENT AGAINST MEASURE BB WAS FILED WITH THE OFFICE OF THE REGISTRAR OF VOTERS

FULL TEXT OF MEASURE BB

The following is the full proposition presented to the voters by the Santee School District (the "District").

"With funds that cannot be taken by the State and spent elsewhere, and no increase in tax rates, shall Santee Elementary School District's measure:

- repairing leaky roofs, plumbing, sewer systems
- updating inefficient heating, ventilation, air-conditioning systems
- building multipurpose instruction classrooms
- repairing aging schools, classrooms

be adopted authorizing $30 million of bonds with legal rates, average levies below $13 per $100,000 of assessed valuation ($2.2 million annually) while outstanding, audits, independent oversight, and full public disclosure of all spending?"

SCHOOL FACILITIES PROJECTS TO BE FUNDED FROM BOND PROCEEDS

As required by the California Constitution, the proceeds from the sale of the bonds will be used only for the purposes authorized under Article XIIIA of the California Constitution, including construction, reconstruction, rehabilitation, or replacement of school facilities, furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, as specifically set forth in this ballot measure, and costs incident thereto, and not for any other purpose, including salaries and other routine school operating expenses.

The below Bond Project List describes the specific projects the District proposes to finance with proceeds of the bonds. The scope of specific projects, the order of construction, and their completion is contingent on facilities planning, final project costs, and the availability of needed funds. Further, projects on the project list are of the type that issuing the authorized general obligation bonds will not cause the State to reduce any financial contribution that would otherwise be available to the District had these bonds not been authorized, issued, and or expended for their stated purpose.

The Project List includes both projects that can be completed using the bond proceeds, along with State matching funds and other building funds the District is projected to receive and projects that are planned and needed but whose construction is contingent on the amount of bond funds available, plus the amount of State matching and other building funds the District may receive in the future, which is a function of the State building program rules, passage of State bonds, and the growth rate of the District. The completion of specific projects is also contingent on final project costs.

Specific projects to be funded by the bond measure include, without limitation, the following:

- Expand, upgrade, renovate and revitalize existing or construct new classrooms and school facilities for vocational and career training programs;
- Acquire, install and/or upgrade campus and student safety and security systems, lighting systems, bell systems, fencing, controlled access gates, point of entry access, keyless entry and drop-off/pickup locations;
- Repair, replace and resurface deteriorating asphalt, concrete, sidewalks, parking lots, driveways, pedestrian access and walkways;
- Replace, repair and modernize deteriorating roofs, leaking pipes, outdated plumbing, sewer and gas lines, waterlines, wells, storm drains and valves, heating, cooling, ventilation systems (HVAC) and electrical systems;
- Renovate, upgrade and modernize classrooms and school facilities including flooring, windows, window coverings, doors, lighting, interior and exterior finishes, and paint;
- Renovate, upgrade, modernize and repair restrooms;
