VISTA UNIFIED SCHOOL DISTRICT

MEASURE N

(This measure will appear on the ballot in the following form.)

MEASURE N

Without increasing current tax rates, to repair and upgrade aging classrooms, science labs, school facilities, and instructional technology to support college/career readiness in math, science, technology, engineering, arts, and skilled trades and fix deteriorating roofs, plumbing, sewer, and electrical systems shall Vista Unified School District's measure be adopted authorizing $543,000,000 in bonds at legal rates, levying $58 per $100,000 assessed value ($31,000,000 annually) while bonds are outstanding, with citizen oversight, independent audits, and all money locally-controlled?

Bonds – Yes Bonds – No

This measure requires 55% of those voting on the measure.

COUNTY COUNSEL IMPARTIAL ANALYSIS

The Board of Education for the Vista Unified School District ("District") placed this measure on the ballot. If approved by 55% of the votes cast, this measure will authorize the District to issue and sell general obligation bonds in an amount not to exceed $543,000,000.

This measure will authorize a levy on the assessed value of taxable property within the geographical boundaries of the District in an amount needed to pay the principal and interest on the bonds each year the bonds are outstanding. The District estimates the average tax rate would be $58 for every $100,000 of assessed valuation, and the highest tax rate would be approximately $58 for every $100,000 of assessed valuation. The tax is anticipated to be collected through fiscal year 2062-2063.

The estimated total debt service, including principal and interest, required to be repaid if the bonds are issued and sold is approximately $1,154,254,750. Actual amounts may vary depending on the timing of sales, bonds sold at each sale, interest rates, and assessed valuation.

The measure identifies a list of projects at schools and facilities within the District that may be funded from the bond proceeds. Approval of this measure does not guarantee the proposed projects will be funded by the sale of the bonds. The District's proposal for certain projects may assume receipt of matching State funds subject to appropriation by the Legislature or approval of a statewide bond measure.

As required by State law, the measure states that the proceeds from the sale of the bonds may be used only for the purposes specified and that the District will establish an independent citizens' oversight committee and conduct an annual independent performance audit to ensure funds are spent only on the projects listed in the measure. The District must also conduct an annual, independent financial audit of bond proceeds. The District states it has evaluated safety, class size reduction, and information technology needs in developing the projects listed in the measure.

A "YES" vote is in favor of authorizing the District to issue and sell $543,000,000 in general obligation bonds.

A "NO" vote is against authorizing the District to issue and sell $543,000,000 in general obligation bonds.

TAX RATE STATEMENT

An election will be held within the boundaries of Vista Unified School District ("District") on November 3, 2026 to authorize the sale of up to $543 million in bonds to finance facilities as described in the measure. If the bonds are approved, the District expects to sell the bonds in multiple series as a "bond extension" to the prior bond authorization, with bond maturities structured so that tax rate in each year is not projected to increase as compared to the current tax rate. Principal and interest on the bonds will be payable from the proceeds of tax levies made upon the taxable property located within the District. The following information is provided in compliance with Sections 9400 to 9404, inclusive, of the California Elections Code.

1. The best estimate from official sources of the average annual tax rate that would be required to be levied to fund this bond issue over the entire duration of the bond debt service, based on assessed valuations available at the time of the election and a projection based on experience within the same jurisdiction and other demonstrable factors, is estimated to be $58 per $100,000 of assessed valuation. The final fiscal year in which the tax is anticipated to be collected is 2062-63.

2. The best estimate from official sources of the highest tax rate that would be required to be levied to fund this bond issue, and an estimate of the year in which that rate will apply, based on assessed valuations available at the time of filing this statement, and a projection based on experience within the same jurisdiction and other demonstrable factors, is estimated to be $58 per $100,000 of assessed valuation first occurring in fiscal year 2028-29.

3. The best estimate from official sources of the total debt service, including the principal and interest, that would be required to be repaid if all the bonds are issued and sold is $1,154,254,750.

Voters should note that the estimated tax rate is based on the ASSESSED VALUE of taxable property on the San Diego County official tax rolls, not on the property's market value. Property owners should consult their own property tax bills to determine their property's assessed value and any applicable tax exemptions.

Attention of all voters is directed to the fact that the foregoing information is based upon the District's projections and estimates only, which are not binding upon the District. The actual tax rates, debt service and the years in which they will apply may vary from those presently estimated, due to variations from these estimates in the timing of bond sales, the amount of bonds sold and market interest rates at the time of each sale, and actual assessed valuations over the term of repayment of the bonds. The dates of sale and the amount of bonds sold at any given time will be determined by the District based on need for construction funds and other factors. The actual interest rates at which the bonds will be sold will depend on the bond market at the time of each sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.
