MEASURE "AA" - PERRIS UNION HIGH SCHOOL DISTRICT

FULL TEXT BALLOT PROPOSITION

The following is the full proposition presented to the voters by the Perris Union High School District.

"Without increasing current tax rates, to repair/ acquire/ upgrade/ construct classrooms, career technical education / school sites and facilities to support college/career readiness in math, science, technology, engineering, and skilled trades; remove hazardous materials where needed; and improve school safety/security systems, shall Perris Union High School District's measure be adopted authorizing $187,000,000 in bonds at legal rates, levying $20 per $100,000 assessed value (averaging $12 million annually) while bonds are outstanding, with citizen oversight, audits and independent audits?"

PROJECT LIST

The Board of Trustees of the Perris Union High School District is committed to improving the quality of education in local schools by providing safe, secure, upgraded classrooms, facilities and technology needed to support high quality instruction in core subjects like math, science, and technology. To that end, the Board evaluated the District's urgent and critical facility needs, including safety issues, class size, computer and information technology in developing the scope of projects to be funded. The District conducted a facilities evaluation and received public input in developing this Project List. Teachers, staff, community members and the Board have prioritized the key health and safety needs so that the most critical facility needs are addressed. **The Board concluded that reducing overcrowding, upgrading science labs, engineering labs, and career technical education facilities so students are prepared for college and in-demand careers and protecting the quality of our schools, the quality of life in our community, and the value of our homes are wise investments.** Therefore, in approving this Project List, the Board of Trustees determines that the District **must:**

(i) Provide modern Career Technical Education facilities and equipment to prepare students for good paying jobs in construction, welding, auto mechanics and other skilled trades; and

(ii) Provide classrooms, facilities and technology needed to support high quality instruction in the fields of math, science, engineering, and technology; and

(iii) Repair or replace deteriorating roofs, aging plumbing, and electrical systems where needed; and

(iv) Improve student safety, campus security systems, including fencing, cameras, emergency communications systems, smoke detectors, fire alarms, and sprinklers and upgrade older schools to meet current health codes, building safety codes, and provide proper access for students with disabilities; and

(v) Remove hazardous materials like asbestos, lead pipes and lead paint from older school sites where encountered; and

(vi) Upgrade computer systems, instructional technology to keep pace with technological advances and ensure network security; and

(vii) Construct/acquire classrooms and facilities at existing schools to avoid overcrowding; and

(viii) Create modern, multi-use classrooms to support hands-on science instruction and learning-by-doing; and

(ix) Adhere to specific fiscal accountability safeguards:

- **(a) All expenditures subject to annual independent financial audits.**
- **(b) No funds used for administrators' salaries and pensions.**
- **(c) No money taken by the State; all funds stay local.**
- **(d) All expenditures reviewed by an independent taxpayer oversight committee to ensure that funds are spent only as authorized.**

The Project List includes the following types of upgrades and improvements at District schools, facilities and sites:

CONSTRUCT, REPAIR AND IMPROVE SCHOOLS TO SUPPORT HIGH QUALITY INSTRUCTION AND RELIEVE OVERCROWDING

Basic School Construction, Repair and Upgrade Projects
Funded By Money That Cannot Be Taken By the State

Goals and Purposes: While some District schools are newer, there are still many classrooms and facilities that are aging and need updates because all students deserve the same access to updated classrooms and facilities. The area is growing fast, Liberty High School, which opened in 2021, is already at maximum capacity, and the District needs to build new schools and add classrooms at existing schools to keep up with growth, and avoid overcrowding. In addition, this measure will ensure that students that plan to go to college are prepared to succeed there, while other students that don't receive job skills and career training they will need to compete for good paying jobs.

- Construct, upgrade and modernize classrooms, science labs, school facilities, computer systems and instructional technology needed throughout District schools to support instruction in science, technology, engineering, math and skilled trades so students are prepared for college and in-demand careers.
- Provide modern Career Technical Education facilities and equipment to prepare students for good paying jobs in fields such as construction, welding, auto mechanics, and other skilled trades.
- Provide classrooms, facilities, and technology needed to support high quality instruction in math, science, engineering, and technology,

including modern, multi-use classrooms to support hands-on science instruction and learning-by-doing.

- Provide classrooms and facilities needed to support high quality instruction in music and visual and performing arts.
- Repair or replace deteriorating roofs, aging plumbing, gas lines, sewer lines, and electrical systems where needed.
- Create flexible, multi-use classrooms throughout District schools to support hands-on instruction and learning-by-doing.
- Construct new middle school facilities and renovate, expand and improve middle schools as needed to reduce overcrowding and accommodate growth.
- Renovate, modernize, and improve aging non-classroom school facilities throughout District schools, including multi-purpose rooms, libraries, arts facilities, cafeterias, and restrooms.
- Improve heating, ventilation, and air-conditioning systems, insulation, doors, and windows to increase energy efficiency and save money.

STUDENT HEALTH AND SAFETY

Student Safety, Health and Campus Security Projects

Goal and Purpose: Student safety and security has become a top priority for schools around the nation and in the District, as well. Whether or not you have school-age children, providing for safe and secure schools, protecting the quality of life in our community, and preserving the value of our homes is a wise investment. This measure will upgrade and implement student health and safety systems, including provisions for single point of entry, which will allow us to control who has access to schools, and provisions for security lighting, fencing, smoke detectors, fire alarms, sprinklers, and other campus systems for improved student safety and security.

- Improve student safety and campus security systems, including fencing, security cameras, security lighting, gates, other access control systems, emergency communications systems, and classroom door locks.
- Remove hazardous materials like asbestos and lead pipes from older school sites, where encountered.
- Modernize and improve facility safety systems such as smoke detectors, fire alarms and sprinklers.
- Upgrade older schools to meet current health codes, building safety codes, and provide proper access for students with disabilities.
- Expand and construct physical education facilities, including gymnasiums, stadiums and other athletic facilities needed to support student health, fitness and safety and ensure that all students have equal access to outdoor learning, athletics, and physical education facilities.
- Improve pick up and drop off areas and staff and public parking facilities to enhance safety and efficiency.
- Replace aging, outdated portables with modern classrooms that meet 21st century health, safety and academic standards.

***

The listed projects will be completed as needed. In addition to the listed projects stated above, the Project List also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the Project List; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by construction projects. In addition to the projects listed above, the repair and renovation of each of the existing school facilities may include, but not be limited to, some or all of the following: add or renovate student and staff restrooms; repair and replace electrical, plumbing, heating, ventilation and air conditioning systems; upgrade of facilities for energy efficiencies, electrical generation and financial savings; repair, upgrade and replace worn-out and deteriorated roofs, gutters, windows, walls, tackboards, floors, doors, sinks and drinking fountains/hydration stations; construct or renovate the District office and facilities for professional development of teachers, more efficient administration and proper data security; install wiring and electrical systems to safely accommodate computers, information technology and other electrical devices; upgrade or construct support facilities including administrative, physical education, music, art, performing and fine arts classrooms or facilities, science, computer labs/classrooms, libraries and buildings, dedicated eating areas, maintenance facilities and yards; repair and replace fire alarms, emergency communications and security systems; improve facilities to satisfy ADA requirements; resurface or replace asphalt and hard courts, turf (including artificial turf) and irrigation/drainage systems and campus landscaping; expand parking and drop-off areas; improve all site utilities; acquire land; construct new school buildings; upgrade interior and exterior painting, floor covering, and school facades; demolition; upgrade kitchens, food service, and school cafeterias; construct various forms of storage and support spaces and classrooms; improve outdoor learning environments and quads; repair, upgrade and install interior and exterior lighting systems; improve playgrounds, athletic fields, stadiums, and play apparatus; replace outdated security fences and security systems (including access control systems), provide lunch shelters, indoor space for assemblies or for rainy day lunch; upgrade music labs, multi-purpose rooms, learning centers and media centers; add new parking lots and parking structures. Construction or renovation of athletic/physical education facilities and stadiums includes related lighting and seating accommodations for teams and spectators, as well as locker rooms, showers, and related facilities. The upgrading of technology infrastructure includes, but is not limited to, network rewiring, cabling, computers, portable interface devices, servers, switches, routers, modules, sound projection systems, laser printers, digital white boards, document projectors, upgrade voice-over-IP, clock/telephone/ intercom systems, call manager and network security/firewall, wireless technology systems, refresh classroom technology and other miscellaneous equipment. The budget for each project is an estimate and may be affected by factors beyond the District's control. Some projects throughout the District may be undertaken as joint use projects in cooperation with other local public or nonprofit agencies. The final cost of each project will be determined as plans and construction documents are finalized, construction bids are received, construction contracts are awarded and projects are completed. Based on the final costs of each project, certain of the projects described above may be delayed or may not be completed. Demolition of portable classrooms and existing facilities and reconstruction of facilities scheduled for repair and upgrade may occur, if the Board determines that such an approach would be more cost-effective in creating more enhanced and operationally efficient campuses. Necessary site preparation/restoration may occur in connection with new construction, renovation or remodeling, or installation or removal of relocatable or modular classrooms, including ingress and egress, removing, replacing, or installing irrigation or drainage systems, traffic signals, sewer or utility lines, trees and landscaping, relocating fire access roads, road widening, and acquiring any necessary easements, licenses, permits or rights of way to the property. Each project is assumed to include its

share of furniture, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction costs. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District bond audits and staff when performing work on or necessary and incidental to bond projects. Bond proceeds shall only be expended for the types of projects and purposes identified herein. The District shall create an account into which proceeds of the bonds shall be deposited and comply with the reporting requirements of Government Code § 53410.

FISCAL ACCOUNTABILITY: IN ACCORDANCE WITH EDUCATION CODE SECTION 15272, THE BOARD OF TRUSTEES WILL APPOINT A CITIZENS' OVERSIGHT COMMITTEE AND CONDUCT ANNUAL INDEPENDENT AUDITS TO ASSURE THAT FUNDS ARE SPENT ONLY ON DISTRICT PROJECTS AND FOR NO OTHER PURPOSE. THE EXPENDITURE OF BOND MONEY ON THESE PROJECTS IS SUBJECT TO STRINGENT FINANCIAL ACCOUNTABILITY REQUIREMENTS. BY LAW, PERFORMANCE AND FINANCIAL AUDITS WILL BE PERFORMED ANNUALLY, AND ALL BOND EXPENDITURES WILL BE MONITORED BY AN INDEPENDENT CITIZENS' OVERSIGHT COMMITTEE TO ENSURE THAT FUNDS ARE SPENT AS PROMISED AND SPECIFIED. THE CITIZENS' OVERSIGHT COMMITTEE MUST INCLUDE, AMONG OTHERS, REPRESENTATION OF A BONA FIDE TAXPAYERS ASSOCIATION, A BUSINESS ORGANIZATION AND A SENIOR CITIZENS ORGANIZATION. NO DISTRICT EMPLOYEES OR VENDORS ARE ALLOWED TO SERVE ON THE CITIZENS' OVERSIGHT COMMITTEE.

NO ADMINISTRATOR SALARIES: PROCEEDS FROM THE SALE OF THE BONDS AUTHORIZED BY THIS PROPOSITION SHALL BE USED ONLY FOR THE ACQUISITION, CONSTRUCTION, RECONSTRUCTION, REHABILITATION, OR REPLACEMENT OF SCHOOL FACILITIES, INCLUDING THE FURNISHING AND EQUIPPING OF SCHOOL FACILITIES, AND NOT FOR ANY OTHER PURPOSE, INCLUDING TEACHER AND SCHOOL ADMINISTRATOR SALARIES AND OTHER OPERATING EXPENSES.

MEASURE "AA" - PERRIS UNION HIGH SCHOOL DISTRICT

TAX RATE STATEMENT

PERRIS UNION HIGH SCHOOL DISTRICT
GENERAL OBLIGATION BONDS
MEASURE AA

An election will be held in Perris Union High School District (the "District") on November 3, 2026 for the purpose of submitting to the electors of the District the question of incurring bonded indebtedness of the District in the principal amount of $187,000,000. If such bonds are authorized and sold, the principal thereof and interest thereon will be payable from the proceeds of taxes levied on the taxable property in the District. The following information regarding tax rates is given in compliance with Section 9401 of the California Elections Code. This information is based upon the best estimates and projections presently available from official sources, upon experience within the District and other demonstrable factors.

Based upon the foregoing and projections of the assessed valuations of taxable property in the District, and assuming the entire debt service on the bonds will be paid through property taxation:

1. The best estimate of the average annual tax rate that would be required to be levied to fund the bond issue over the entire duration of the bond debt service, based on assessed valuations available at the time of the filing of this statement, or a projection based on experience within the same jurisdiction or other demonstrable factors is $18.50 per $100,000 of assessed valuation of all property to be taxed. It is estimated that the final fiscal year in which the tax is anticipated to be collected is fiscal year 2056-2057.

2. The best estimate of the highest tax rate that would be required to be levied to fund the bond issue, and an estimate of the year in which that rate will apply, based on estimated assessed valuations available at the time of the filing of this statement, or a projection based on experience within the same jurisdiction or other demonstrable factors, is $20.00 per $100,000 of assessed valuation of all property to be taxed for fiscal years 2030-2031 through and including 2056-2057.

3. The best estimate of the total debt service, including the principal and interest, that would be required to be repaid if all the bonds are issued and sold is approximately $356,671,141.

Attention of voters is directed to the fact that the foregoing information is based upon projections and estimates only. The actual timing of sales of the bonds and the amount to be sold at any time will be governed by the needs of the District and other factors. The actual interest rates at which the bonds will be sold, which will not exceed the maximum permitted by law, will depend upon the bond market at the time of sale. The actual assessed valuations in future years will depend upon the value of property within the District as determined in the assessment and the equalization process. Assessed valuation is not the same as market price of real property. Therefore, the actual tax rates and the years in which those tax rates will be applicable may vary from those presently estimated and stated above.

Voters should note that estimated tax rates are based on the *ASSESSED VALUE* of taxable property on the County's official tax rolls, *not* on the property's market value. Property owners should consult their own property tax bills to determine their property's assessed value and any applicable tax exemptions.

Dated: _____ , 2026

Dr. Jose Luis Araux
Superintendent
Perris Union High School District

IMPARTIAL ANALYSIS OF MEASURE "AA"

Perris Union High School District General Obligation Bonds

The purpose of Measure AA is to enable voters to authorize or reject the Perris Union High School District (hereinafter, "the District") issuing and selling General Obligations Bonds to provide financing for school facilities projects. The Board of Trustees of the District, by adopting Resolution No. 04:26-27 ("Resolution"), elected to call an election to place this Measure on the ballot.

Measure AA would enable the District to issue and sell bonds of up to a maximum amount of one-hundred and eighty-seven million dollars ($187,000,000), at legal rates, levying twenty dollars ($20) per one-hundred thousand dollars ($100,000) of assessed value while the bonds are outstanding. According to the District, this Measure, if approved, will not increase current tax rates.

The Resolution indicates that the finances obtained through the issuance and sale of bonds shall be used on urgent and critical facility needs of the District. Bond proceeds will be expended to address overcrowding, student health, and student safety while also upgrading science labs, engineering labs, and career technical education facilities. Proceeds for the sale of bonds authorized by Measure AA shall only be used for the acquisition, construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of such facilities. The proceeds shall not be used for teacher or school administrator salaries or other operating expenses.

Measure AA provides for the Board of Trustees of the District to appoint a citizens' oversight committee, that shall not include any District employees or vendors. The Board of Trustees of the District, along with the citizens' oversight committee, will conduct annual performance and financial audits to ensure that funds obtained through this Measure are spent only on projects listed in the Resolution and no other purposes.

For this Measure to be approved, at least fifty-five percent (55%) of qualified voters within the District who vote on the Measure must vote yes.

A "YES" vote on Measure "AA" is a vote to authorize the District to issue and sell bonds to provide financing of school facilities projects.

A "NO" vote on Measure "AA" is a vote to reject the District from issuing and selling bonds to provide financing of school facilities projects.

Riverside County Counsel

ARGUMENT IN FAVOR OF MEASURE "AA"

Vote YES on AA to continue supporting safe and modern schools for all students at Perris Union High School District - <u>without increasing taxes.</u>

PUHSD serves students in Menifee, Perris, Romoland, and Nuevo—and has worked hard to ensure all our children receive the same quality of education across our communities. While some of our schools are newer and updated, there are still many classrooms and school facilities that are aging and need repairs—including 35 classrooms that had leaky roofs last year alone.

At the same time our community continues to grow. Liberty High School in Menifee opened in 2021 and is already at capacity.

We need to ensure that students who plan to go to college are prepared to succeed, and those who don't receive the job skills and career training they need to compete for good-paying jobs.

Measure AA will ensure that local students have the tools to succeed – without raising tax rates**.**

Yes on AA: Safe and Updated Schools – Without Raising Taxes

- Provide modern Career Technical Education facilities and equipment to prepare students for good-paying jobs
- Provide the classrooms, facilities and technology needed to support high-quality instruction in math, science, engineering, and technology
- Repair or replace deteriorating roofs, plumbing, gas lines, sewer lines, and electrical systems where needed
- Improve student safety and campus security systems, including security fencing, security cameras, emergency communications systems, and fire alarms

Mandatory Fiscal Accountability and Transparency

- A project list describing how the money would be used, a Citizens' Oversight Committee, and public disclosure of how all funds are spent
- All funds stay local to support our students and can't be taken away by the State
- No money can be used for administrators' salaries or pensions

Join parents, students, community leaders, and teachers in voting YES on AA!
