MEASURE "S" - TEMECULA VALLEY UNIFIED SCHOOL DISTRICT

FULL TEXT OF BOND MEASURE

BOND AUTHORIZATION

By approval of this measure by at least 55% of the registered voters voting on the measure, the District will be authorized to issue and sell bonds of up to $215,000,000 in aggregate principal amount, at interest rates not to exceed legal limits and to provide financing for the specific types of school facilities projects listed in the Bond Project List included below, subject to all the accountability requirements specified below. It is currently expected that the final maturity date of bonds issued pursuant to this measure will approximately 30 years from the date of the election.

ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Expenditures to address specific facilities needs of the District will be in compliance with the requirements of Article XIIIA, Section 1(b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following.)

Bonds authorized by this measure may be issued under the provisions of the California Education Code (starting at Section 15100), under the provisions of the California Government Code (starting at Section 53506), or under any other provision of law authorizing the issuance of general obligation bonds by school districts. The bonds may be issued in series by the District, from time to time, and each series of bonds shall mature within the legal limitations set forth in the applicable law under which the bonds are issued.

Evaluation of Needs. The Board of Education of the District (the "Board") has identified detailed facilities needs of the District, and has determined which projects to finance from a local bond. The Board hereby certifies that it has evaluated safety, class size, enrollment trends, and information technology needs in developing the Bond Project List described below.

Independent Citizens' Oversight Committee. Following approval of this measure, the Board will establish an independent citizens' oversight committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the Board.

Performance Audits. The Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the school facilities projects listed below.

Financial Audits. The Board will conduct annual, independent financial audits of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed below.

Government Code Accountability Requirements. As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the Riverside County Treasurer, as required by the Education Code, and (4) the Superintendent of the District shall cause an annual report to be filed with the Board of the District not later than January 1 of each year, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this measure, as required by Sections 53410 and 53411 of the Government Code.

Bonding Capacity. Issuance of each series of bonds authorized by this measure is required to conform with all applicable legal requirements. This includes issuance within applicable bonding capacity limitations, which may include a waiver of bonding capacity granted by the State Board of Education, if sought and granted.

NO TEACHER OR ADMINISTRATOR SALARIES

Proceeds from the sale of bonds authorized by this measure shall be used only for the purposes specified in Article XIII A, Section 1(b)(3), specifically the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and the acquisition or lease of school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

STATE MATCHING FUNDS

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The District's proposal for the projects described below may assume the receipt of matching state funds, which, if available, could be subject to appropriation by the Legislature or approval of a statewide bond measure.

INFORMATION ABOUT ESTIMATES AND PROJECTIONS

Voters are informed that any estimates or projections in the bond measure or ballot materials, including relating to estimated tax rates, the duration of issued bonds and related tax levies and collections are provided as informational only. Such amounts are estimates and are not maximum amounts or limitations on the terms of the bonds, the tax rate or duration of the tax supporting repayment of issued bonds. Such estimates depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan, including but not limited to the amount of bonds issued and outstanding at any one time, the interest rates applicable to issued bonds, market conditions at the time of sale of the bonds, when bonds mature, timing of project needs and changes in assessed valuations in the District. As such, while such estimates and approximations are provided based on information currently available to the District and its current expectations, such estimates and approximations are not limitations and are not binding upon the District. In addition, the abbreviated and condensed statement of the bond measure presented to

voters which is subject to a word count limitation imposed by State law does not limit the scope and complete meaning of the measure provided in this Full Text of Bond Measure and related ballot materials.

BOND PROJECT LIST

Scope of Projects. Bond proceeds will be expended on the modernization, renovation, expansion, acquisition, construction/reconstruction, rehabilitation, and/or replacement of school facilities of the District, including the furnishing and equipping of school facilities, at all existing sites of the District and all sites that may be acquired by the District in the future.

School Facility Project List. The items presented on the following list provide the specific types of school facilities projects authorized to be financed with voter-approved bond proceeds. Specific examples included on this list are not intended to limit the types of projects described and authorized by this measure. The following types of projects are authorized by this measure:

Modernization of Learning Environments

- Portable Reduction: Replace or reduce the number of aging, outdated portable buildings with permanent, modern classroom facilities.
- Classroom Upgrades: Modernize or replace outdated classrooms, labs, and other learning environments and school facilities to support 21st-century instructional standards.
- Furniture & Technology: Upgrade classroom furniture and technology infrastructure (including network systems and electrical wiring) to meet modern learning needs.
- Early Education: Construct or reconfigure facilities to support Preschool, Transitional Kindergarten (TK) and Kindergarten programs, including age-appropriate restrooms and play areas.

Essential Repairs & Infrastructure

- Major Systems: Repair or replace deteriorating roofs, gas lines, sewer lines, plumbing, and electrical systems.
- Energy & Climate: Repair or replace Energy Management Systems, including interior and exterior lighting, and outdated heating, ventilation, and air conditioning (HVAC) systems to reduce operating costs.
- Safety Alarms: Upgrade or replace fire alarms, smoke detectors, and emergency communication systems.

Health, Safety & Security

- Physical Safety: Improve the physical safety of facilities, including the repair or replacement of cracked or deteriorating concrete and asphalt (walkways and parking lots).
- Security: Install or upgrade fencing, security cameras, and modern door locks; and create controlled “single point of entry” systems for parents and visitors.
- Access & Ingress/Egress: Improve campus ingress/egress and reconfigure parking/bus drop-off zones to increase student safety and improve traffic flow.
- ADA Compliance: Ensure all facilities meet the requirements of the Americans with Disabilities Act (ADA) and make other accessibility upgrades to ensure barrier-free access.

Outdoor Learning & Activities

- Shade Structures: Add shade structures and seating, where feasible, for outdoor eating, learning, and physical activities.
- Play & Recreation: Repair or replace outdated play equipment, playgrounds, and hard courts to ensure student safety.
- Fields & Grounds: Upgrade fields, turf, and irrigation systems; and construct or renovate changing rooms and restrooms for physical education.

Incidental Expenses. Each of the bond projects described in this Bond Project List include the costs of furnishing and equipping such facilities, and all costs which are incidental but directly related to the types of projects described above. Examples of incidental costs include, but are not limited to: costs of design, engineering, architect and other professional services, facilities assessments, inspections, site preparation, utilities, landscaping, interior and exterior painting, bond project construction management, administration and other planning and permitting, legal, accounting and similar costs; independent annual financial and performance audits; a customary construction contingency; abatement, demolition and disposal of existing structures; the costs of interim housing and storage during construction including relocation and construction costs incurred relating to interim facilities; the preparation or restoration of construction, renovation or remodeling; rental or construction of storage facilities and other space on an interim basis for materials and other equipment and furnishings displaced during construction; costs of relocating facilities and equipment as needed in connection with the projects; the acquisition or improvement of interim classrooms and facilities for students, administrators, and school functions, including portable classrooms and other modular facilities; federal and state-mandated safety upgrades; addressing unforeseen conditions revealed by construction/modernization and other necessary improvements required to comply with existing building codes, including the Field Act; access requirements of the Americans with Disabilities Act; and costs of the election; bond issuance costs; and project administration during the duration of such projects, as permitted by law.

Furnishing and Equipping. Each project is assumed to include its share of furniture, fixtures, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction

costs. In addition to the listed projects stated above, the list also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by construction projects. The upgrading of technology infrastructure includes, but is not limited to, computers, projectors, portable interface devices, servers, switches, routers, modules, sound projection systems, printers, digital white boards, document projectors, telephone system, call manager and network security/firewall, wireless technology systems and other miscellaneous equipment.

Alterations to Scope; Acquisition of Real Property. The scope and nature of any of the specific projects described above may be altered by the District as required by conditions that may arise during the course of design and construction. In the event that a modernization or renovation project is more economical for or otherwise determined by the Board to be in the best interests of the District to be undertaken as new construction, this bond measure authorizes said new construction including land acquisition, relocation and construction at a new or alternative site, and/or demolition and reconstruction and/or repurposing on the original site, including an expanded site, and all costs relating thereto. For any project involving rehabilitation or renovation of a building or the major portion of a building, the District shall be authorized to proceed with new construction instead, if the Board determines that replacement and new construction is more economically practical than rehabilitation and renovation, considering the building's age, condition, expected remaining life, and other relevant factors.

In addition, this measure authorizes the acquisition of real property, including necessary rights of ways or other real property interests required to expand District facilities, to provide access to school or other District facilities, or to provide additional school or related facilities.

Interim Financing Included; Joint Use Projects Authorized. Authorized projects include paying and/or prepaying interim or previously obtained financing for the types of projects included on the Bond Project List, such as bond anticipation notes, and includes prepayment of lease payments to acquire title to facilities and/or equipment previously financed. Projects may also be undertaken on a joint use basis with other public entities.

Bond Project List Not in Order of Priority; Board Determines Prioritization. Approval of this bond measure does not guarantee that the proposed projects will be funded beyond the local revenues generated by the measure. The District's capital needs currently exceed the amount of bonds the voters are being asked to authorize. The order in which particular projects are listed is not intended to suggest priority for funding or completion, and itemization of projects in the list above does not guarantee that all such projects will be undertaken. Project priorities will be determined by the Board. The ability of the District to undertake and complete the listed projects is subject to numerous variables including the adequacy and availability of sufficient funding sources. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.

Interpretation. The terms of this bond measure and the words used in the Bond Project List shall be interpreted broadly to effect the purpose of providing broad and clear authority for the officers and employees of the District to provide for the school facilities projects the District proposes to finance with the proceeds of the sale of bonds authorized by this proposition within the authority provided by law, including Article XIIIA, Section 1(b)(3) of the California Constitution, Education Code Section 15000 *et seq.* and the Strict Accountability in Local School Construction Bonds Act of 2000. Words used in the Bond Project List such as repair, improve, upgrade, expand, modernize, renovate, and reconfigure are used to describe school facilities projects in plain English but are not intended to expand the nature of such projects beyond what is authorized by law. As such, in accordance with legal requirements, the Bond Project List does not authorize, and shall not be interpreted to authorize, expending proceeds of the sale of bonds authorized by this proposition for current maintenance, operation or repairs.

Severability. The Board hereby declares, and the voters by approving this Bond Measure concur, that every section and part of this bond proposition has independent value, and the Board and the voters would have adopted each provision hereof regardless of every other provision hereof. Upon approval of this measure by the voters, should any part be found by a court of competent jurisdiction to be invalid for any reason, all remaining parts hereof shall remain in full force and effect to the fullest extent allowed by law, and to this end the provisions of this bond measure are severable.

MEASURE "S"- TEMECULA VALLEY UNIFIED SCHOOL DISTRICT

TAX RATE STATEMENT

An election will be held in the Temecula Valley Unified School District (the "District") on November 3, 2026, to authorize the sale of up to $215,000,000 in general obligation bonds. The following information is submitted in compliance with Sections 9400-9404 of the Elections Code of the State of California. Such information is based upon the best estimates and projections presently available from official sources, upon experience within the District, and other demonstrable factors.

Based upon the foregoing and projections of the District's assessed valuation, the following information is provided:

1. The best estimate of the average annual tax rate that would be required to fund this bond issue over the entire duration of the bond debt service, based on estimated assessed valuations available at the time of filing of this statement, is $20 per $100,000 of assessed valuation. It is currently expected that the tax will be collected until fiscal year 2055-2056, which is approximately 30 years from the date of the election.

2. The best estimate of the highest tax rate that would be required to fund this bond issue, based on estimated assessed valuations available at the time of filing this statement, is $20 per $100,000 of assessed valuation. This rate is projected to apply beginning in fiscal year 2027-2028.

3. The best estimate of total debt service, including principal and interest, that would be required to be repaid if all the bonds are issued and sold will be approximately $382,999,538.

These estimates are based on projections derived from information obtained from official sources, and are based on the assessed value (not market value) of taxable property on the County's official tax rolls. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions. The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and durations and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary depending on the timing of bond sales, the par amount of bonds sold at each sale and actual increases in assessed valuations. The timing of the bond sales and the amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. Actual assessed valuations will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

/s/ Kimberly Velez, Ed.D.
Superintendent
Temecula Valley Unified School District

IMPARTIAL ANALYSIS OF MEASURE "S"

The purpose of Measure S is to enable voters to authorize or reject the Temecula Valley Unified School District (hereinafter, "the District") issuing and selling General Obligations Bonds to provide financing for school facilities projects. The Board of Education of the District, by adopting Resolution No. 2025-26/42 ("Resolution"), elected to call an election to place this Measure on the ballot.

Measure S would enable the District to issue and sell bonds of up to a maximum amount of two-hundred and fifteen million dollars ($215,000,000), at interest rates not to exceed legal limits. It is currently expected that the final maturity date of bonds issued pursuant to Measure S will be approximately 30 years from the date of the election, if approved.

The Resolution indicates that the finances obtained through the issuance and sale of bonds shall be restricted and expended only for the listed school facility projects. Bond proceeds will be expended on the modernization, renovation, expansion, acquisition, construction/reconstruction, rehabilitation, and/or replacement of current and future school facilities of the District, including the furnishing and equipping of such school facilities.

Proceeds for the sale of bonds authorized by Measure S shall not be used for any other purpose, such as teacher and administrator salaries and other school operating expenses. Measure S provides for the District to establish an independent citizens' oversight committee to ensure bond proceeds are expended only on the types of school facilities projects that have been listed as part of the Resolution. The Board of Education of the District will conduct annual, independent performance and financial audits to oversee that bond proceeds have been expended only on the school facilities projects listed in the Resolution.

For this Measure to be approved, at least fifty-five percent (55%) of qualified voters within the District who vote on the Measure must vote yes.

A "YES" vote on Measure "S" is a vote to authorize the District to issue and sell bonds to provide financing of school facilities projects.

A "NO" vote on Measure "S" is a vote to reject the District from issuing and selling bonds to provide financing of school facilities projects.

By: Minh C. Tran
Riverside County Counsel

ARGUMENT IN FAVOR OF MEASURE "S"

Vote YES on Measure S to modernize our classrooms, elevate student safety, and safeguard the high standard of education that defines the Temecula Valley Unified School District.

Our schools are proud to serve students across Temecula, Murrieta, French Valley, Winchester, and Riverside County. To maintain our track record of academic excellence, we must ensure our facilities match the caliber of our students and educators. While our schools are beautifully maintained, many classrooms are now entering their fourth decade. Measure S allows us to transition from temporary portable structures into permanent, safe learning environments designed for the future.

With local summer temperatures often exceeding 100 degrees, upgrading HVAC and expanding campus shade structures is a vital step in creating healthy, high-performance environments where students can thrive.

Measure S provides locally controlled funding to deliver top-tier neighborhood schools for all students, ensuring our campuses continue to foster high academic achievement and serve our community for decades to come.

Vote YES on S: Designing Safe, Modern, and Successful Schools

- Repair aging and leaky roofs, plumbing and electrical systems
- Replace portable classrooms with permanent classrooms
- Replace inadequate cooling, heating, electrical, ventilation systems
- Modernize classrooms and labs to support quality instruction at all schools
- Upgrade career technical education facilities and equipment to prepare students for college and in-demand careers

Measure S is Transparent and Accountable

- **100% Local Impact:** Every single penny stays directly in our neighborhood schools.
- **Strict Oversight:** A legally binding, detailed project list ensures precise execution, backed by an independent citizens' oversight committee and annual public audits.
- **Protected Funds:** No funds can be used for administrators' salaries or pensions.

Temecula Valley schools are the cornerstone of our community. Excellent schools protect our property values and strengthen our local economy, benefiting every single resident.

Join local families, business leaders, and neighbors in voting YES on Measure S to secure safe, modern, and successful schools.

REBUTTAL TO ARGUMENT IN FAVOR OF MEASURE "S"

Do not be fooled by emotional appeals!

The proponents ask you to trust TVUSD with **$215 million** in borrowing, while failing to disclose the true cost to taxpayers. With interest, Measure S is projected to cost **$383 million** over 30 years. This means a whopping **45%** of what Temecula families pay will go directly to investors, not classrooms! The claim that *"every single penny stays directly in our neighborhood schools"* is FALSE. This inconvenient truth was deliberately omitted from the ballot, despite repeated appeals for complete transparency.

Measure S is **not** the District's only option for improving facilities. TVUSD maintains approximately **$120 million in General Fund balance** that may legally be used for construction and modernization. Instead of prioritizing those needs, approximately **85%** of the annual budget ($450 million in 2026-2027) is devoted to salaries and benefits.

Supporters argue *"no funds can be used for salaries…"* Technically true—but incomplete. Every dollar raised through Measure S reduces pressure on the General Fund, allowing existing resources to continue funding escalating compensation instead of facility improvements.

The promised *"annual audits"* are nothing extraordinary. Every government agency undergoes routine financial statement audits. While necessary, those audits do **not** determine whether costs are reasonable, contracts are competitively priced, or taxpayer dollars are being spent efficiently.

Everyone supports safe schools and modern classrooms. The real question is whether Temecula families should bear heavier tax burden before the District demonstrates fiscal discipline, prioritizes existing resources, and starts coming clean about the true long-term cost of this bond!

VOTE NO ON MEASURE S

By: David Marko,
Inland Region Vice Chair, California Republican Party

Bob Kowell,
President, Murrieta Temecula Republican Assembly

Jack M. Guerrero, CPA
Treasurer, California Republican Party

Michael Gregory,
Temecula Parent

ARGUMENT AGAINST MEASURE "S"

Vote NO on Measure S: This measure uses deceptive ballot language to deliberately hide the true costs from voters, rewards a blatant lack of fiscal discipline, and asks taxpayers to shoulder an even heavier financial burden despite rising cost-of-living.

1. Deceptive and Unacceptable Lack of Transparency

The ballot prominently highlights a $215 million loan but completely buries the actual repayment cost of **$383 million** over 30 years of crushing interest. TVUSD actively withheld this information from the ballot statement because it knows voters would reject it. This intentional lack of disclosure is completely unacceptable.

2. Rewarding Fiscal Mismanagement

TVUSD's massive $450 million annual budget (2026-2027) allocates a staggering 85% for salaries and benefits. While student enrollment steadily drops, compensation keeps skyrocketing — including excessive bonuses approved for administrators on the same date as the bond. **This is the height of gall.**

TVUSD is treating homeowners like an endless ATM, while holding approximately $120 million in General Fund balance (6/30/26) that state law allows for use on repairs and modernization. Furthermore, Temecula taxpayers are *still* paying off a previously depleted TVUSD bond (ostensibly used for the same purpose).

3. Extravagant Taxation Without Justification

Temecula families shoulder one of the highest tax burdens in America. Nearly half (45%) of local property tax already funds public education, while California pours a massive $20,000 per student into schools. With costs of housing, groceries, insurance, and utilities at historic highs, asking homeowners for another tax is completely out of touch.

Conclusion: No Accountability, No New Taxes

True support for our schools requires accountability, responsible budgeting, and total honesty. TVUSD has proven it lacks fiscal discipline, refuses to control spending, and cannot be trusted to be fully transparent with our community. **Vote NO on Measure S.**

Temecula Parent / Homeowner

REBUTTAL TO ARGUMENT AGAINST OF MEASURE "S"

The opposition relies on recycled claims used against school bond measures across the region, regardless of the local facts or the unique needs of each community. Tellingly, their argument never once mentions students, because their priority is political rhetoric, not our kids or our community.

Measure S is a smart, fiscally responsible investment based on transparent public planning, documented facility needs, and community input:

Fact: Many TVUSD schools are approaching 40 years old. Measure S replaces aging portables with permanent classrooms, modernizes classrooms and career technical education facilities, and improves student safety and comfort during extreme summer heat.

Fact: Good schools directly protect local home values. Continuing to pour taxpayer money into maintaining 30-year-old portable classrooms is a colossal waste of funds.

Fact: Our District completed a transparent public Facilities Master Plan, updated this year, to identify the needs of every school. The full plan is available to review at https://www.tvusdplan.org/.

Fact: Claims that repayment information was "hidden" are simply false. State law requires independent fiscal analyses, tax rate information, and ballot materials to be publicly available for every voter.

Fact: Measure S provides locally controlled funding that stays 100% in TVUSD. It cannot be taken by the State and includes a legally binding project list, independent citizens' oversight, and annual public audits.

Don't let misinformation distract from the real needs of our students and schools. The facts are clear. Measure S is a responsible investment in safe, modern schools for Temecula students today and for generations to come. Vote YES on Measure S.
