**WHEREAS,** pursuant to United States Income Tax Regulations Section 1.150-2, the Board desires to declare its official intention at this time that if the measure submitted to voters hereunder is successful and bonds are issued pursuant to such measure, that it intends to reimburse from said bond proceeds any expenditures made by the District prior to the date of issuance of said bonds for the purposes described in the measure; and

District voters, it may (i) pay certain costs of the projects listed in Appendix A prior to the date of issuance of bonds and, in such case, (ii) intends to use a portion of the proceeds of bonds for reimbursement of said expenditures for the projects that are paid before the date of issuance of bonds.

**Section 15. Estimates Included in Ballot Materials.** The measure authorized by this Resolution includes information presented to voters with respect to the amount of money required to repay issued bonds, the estimated rate of the approved tax per $100 or $100,000 of assessed valuation (*ad valorem* tax), and the estimated duration through which the proposed tax supporting bond repayment will be levied and collected, among others. Any estimates have been provided by the District in good faith based upon information currently available to the District, but depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan. Such estimates and approximations are not intended by the Board, and shall not be interpreted or construed as additional restrictions on the District's bond program, bond issuances and related tax rate, and, other than the total principal amount of bonds authorized to be issued by the bond measure, do not represent legal maximums or additional limitations beyond applicable legal requirements. Furthermore, the abbreviated and condensed statement of the bond measure set forth in Appendix B, limited by State law to 75 words or less, does not limit the scope and broader and complete meaning provided in the Full Text of Bond Measure, set forth in Appendix A.

**Section 16. Official Actions.** The President of the Board, the Superintendent/President and the Assistant Superintendent, Vice President of Administrative Services, are hereby separately authorized and directed to execute and deliver to County officials any directions, requisitions or other writings, and to make any changes or additions to the text of the measure as described herein and in the tax rate statement, to conform to any legal requirements or the County Registrar, in order to cause the election to be held and conducted in the District.

### ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. **Evaluation of Needs.** The District Board of Trustees (the "District Board") has identified detailed facilities needs of the District and has determined which projects to finance from a local bond. The District Board hereby certifies that it has evaluated safety, class size reduction, enrollment growth, and information technology needs in developing the Bond Project List shown below.

**Independent Citizens' Oversight Committee.** Following approval of this measure, the District Board will establish an Independent Citizens' Oversight Committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the District Board.

**Performance Audits.** The District Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the school facilities projects listed below.

**Financial Audits.** The District Board will conduct annual, independent financial audits of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed below.

**Government Code Accountability Requirements.** As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the Shasta County Treasurer, as required by the California Education Code, and (4) the Superintendent/President of the District shall cause an annual report to be filed with the District Board not later than January 1 of each year, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this measure, as required by Sections 53410 and 53411 of the Government Code.

## STATE MATCHING FUNDS

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed project or projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The District's proposal for the project or projects described below may assume the receipt of matching state funds, which, if available, could be subject to appropriation by the Legislature or approval of a statewide bond measure.

## INFORMATION ABOUT ESTIMATES AND PROJECTIONS INCLUDED IN BALLOT

Voters are informed that any estimates or projections in the bond measure or ballot materials, including relating to estimated rates of *ad valorem* property taxes, the duration of issued bonds and related levies and collections of *ad valorem* property taxes are provided as informational only and are not binding on the District. Such amounts are estimates and are not maximum amounts or limitations on the terms of the bonds, the rate or the duration of the tax supporting repayment of issued bonds. Such estimates depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan, including but not limited to the amount of bonds issued and outstanding at any one time, the interest rates applicable to issued bonds, market conditions at the time of sale of the bonds, when bonds mature, timing of project needs and changes in assessed valuations in the District. While such estimates and approximations are provided based on information currently available to the District and its current expectations, such estimates and approximations are not limitations and are not binding upon the District. In addition, the abbreviated and condensed statement of the bond measure presented to voters which is subject to a word count limitation imposed by State law does not limit the scope and complete meaning of the measure provided in this Full Text of Bond Measure and related ballot materials.

Alterations to Scope; New Construction; Real Property Interests. The scope, nature and priority of any of the specific projects described above may be altered by the District Board. This may occur due to unforeseen conditions that may arise during the course of planning, design and construction, or due to other compelling factors which become apparent in the course of project planning and execution, for example changing project cost considerations, safety considerations including discoveries, programmatic considerations or other considerations that arise or become apparent over the several years of undertaking bond financed projects. In the event that a modernization or renovation project is determined by the Board to be more economical or otherwise in the best interests of the District to be undertaken as new construction, this bond measure authorizes land acquisition, relocation and construction at a new or alternative site, and/or demolition and reconstruction and/or repurposing on the original site, including an expanded site, and all costs relating thereto. In addition, new construction of a facility may be revised to modernization of an existing facility due to any of the factors mentioned herein, among other possible reasons. This measure authorizes the acquisition of interests in real property, including necessary rights of ways or other real property interests, required to expand District facilities, to provide access to school or other District facilities, or to provide additional school or related facilities. This measure also authorizes payment of costs related to consolidation of facilities or campuses.

Interim Financing Included; Joint Use Projects Authorized. Other Funding Sources. Voters are advised that the Bond Project List presents more projects than are expected can be addressed with proceeds of this bond measure. The District Board will determine project prioritization and there is no representation nor guarantee that all projects will be addressed. Additional funds for facilities projects are expected to be pursued from the State's facilities matching funds program, if and to the extent available and qualifying, to provide additional funding for facilities projects.

Unforeseen Circumstances. Many factors which the District cannot predict or control may impact its ability to address each of the projects, including but not limited to construction cost issues, supply chain issues which can cause project delays, labor shortages, and unknown environmental factors or site conditions, among others. The District is unable to anticipate all unforeseen circumstances which may limit or prevent some of the projects listed above from being undertaken or completed.

Interpretation. The terms of this Bond Measure and the words used in the Bond Project List shall be interpreted broadly to effect the purpose of providing broad and clear authority for the officers and employees of the District to provide for the school facilities projects the District proposes to finance with the proceeds of the sale of bonds authorized by this proposition within the authority provided by law, including Article XIIIA, Section 1(b)(3) of the California Constitution, Education Code Section 15000 *et seq.* and the Strict Accountability in Local School Construction Bonds Act of 2000. Examples included on the project list are not intended to limit the broader types of projects described and authorized by this measure. Words used in the Project List such as repair, improve, upgrade, expand, modernize, renovate, and reconfigure are used to describe facilities projects in plain English but are not intended to expand the nature of such projects beyond what is authorized by State law. The Bond Project List only authorizes capital expenditures.

Severability. The District Board hereby declares, and the voters by approving this Bond Measure concur, that every section and part of this bond proposition has independent value, and the District Board and the voters would have adopted each provision hereof regardless of every other provision hereof. Upon approval of this measure by the voters, should any part be found by a court of competent jurisdiction to be invalid for any reason, all remaining parts hereof shall remain in full force and effect to the fullest extent allowed by law, and to this end the provisions of this bond measure are severable.

## TAX RATE STATEMENT
## REGARDING PROPOSED
## SHASTA-TEHAMA-TRINITY JOINT COMMUNITY COLLEGE DISTRICT
## GENERAL OBLIGATION BONDS

An election will be held in the Shasta-Tehama-Trinity Joint Community College District (the "District") of the counties of Shasta, Tehama, Trinity, Lassen, Humboldt and Modoc, California, on November 3, 2026, to authorize the sale of up to $129,630,000 in bonds of the District to finance school facility improvements as described in the measure. If such bonds are authorized and sold, principal and interest on the bonds will be payable only from the proceeds of *ad valorem* property tax levies made upon the taxable property in the District. The following information is provided in compliance with Sections 9400-9404 of the Elections Code of the State of California. Such information is based upon the best estimates and projections presently available from official sources, upon experience within the District, and other demonstrable factors.

Based upon the foregoing and projections of the District's assessed valuation, the following information is provided:

1. The best estimate of the average annual tax rate which would be required to be levied to fund this bond issue over the entire duration of the bond debt service, based on a projection of assessed valuations available at the time of filing of this statement, is $7.76 per $100,000 of assessed value. The final fiscal year in which the tax is anticipated to be collected is 2060-61.

2. The best estimate of the highest tax rate which would be required to be levied to fund this bond issue, based on a projection of assessed valuations available at the time of filing of this statement, is $15.29 per $100,000 of assessed value. It is estimated that such rate would be levied in fiscal years 2031-32 through 2042-43.

3. The best estimate of the total debt service, including the principal and interest, that would be required to be repaid if all the bonds are issued and sold is approximately $264,800,000.

Voters should note the estimated tax rate is based on the assessed value (not market value) of taxable property on the applicable county's official tax rolls. In addition, taxpayers eligible for a property tax exemption such as the homeowner's exemption will have a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions.

The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary from those used to provide the estimates set forth above, due to factors such as variations in the timing of bond sales, the par amount of bonds sold and market interest rates available at the time of each sale, actual assessed valuations over

the term of the bonds, and other factors. The date and amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. The actual interest rates at which the bonds will be sold will depend on conditions in the bond market at the time of sale. Actual future assessed valuations will depend upon the amount and value of taxable property within the District as determined by the counties as part of the annual assessment and the equalization process.
