NO ON MEASURE Y
REBUTTAL ARGUMENT

Vote **NO** on **Measure Y** to protect Benicia's future.

A lawsuit filed by Benicia voters (*Morsen v. Wolfe*, No. CU26-07263, Solano County Superior Court, 7/28/26) forced the City to remove from the ballot question its misleading claim that Measure Y is only about a transfer tax.

- The Argument in Favor repeats this claim. But Measure Y is **not** limited. It removes state law limits on changes to Benicia's form of government.

- Measure Y would let City Hall seek taxes **higher than statewide caps** that apply to general law cities.

- Measure Y is not "limited." It is unclear and open-ended. The way to stop surprise changes to Benicia's government is to vote **NO**.

Measure Y should be opposed by **all** residents—retirees, homeowners, renters, business owners, and community members.

Measure Y would take Benicia out from under the laws that guide most California cities. Becoming a charter city would let the City Council ignore basic, common-sense rules.

Measure Y is not just about a transfer tax. It would let the City seek changes to Benicia's form of government—changes voters do not want and do not need.

Vote **NO** on Measure Y.

Association of Benicians Opposing Charter City and Real Property Transfer Tax Measures, a California non-profit, registration no. 19572
