Dixon Unified School District

ARGUMENT IN FAVOR OF MEASURE U

EVERY student deserves to LEARN in a school with safe, updated facilities. **Measure U will help make that possible in Dixon elementary, middle and high schools.**

Today's graduates must compete in a highly technical workforce and global economy. We need schools with adequate classrooms, labs, and technology so **Dixon students** have the same opportunities as others to properly prepare for college/good-paying jobs.

Unfortunately, most of our schools were built so long ago (60 to 70 years) that underground pipes and infrastructure are failing, resulting in gas leaks, water leaks, and sewage backups.

Last year alone there were 62 roof leaks.

There are 61 portable classrooms in our schools that are 20+ years old. Many are falling apart, with structural damage and water leaks. It's expensive to keep repairing these decaying portables.

Measure U will:

- **Remove** hazardous materials like asbestos/lead pipes
- **Repair/Replace** heating, air conditioning, and ventilation units that are at least 20 years old and failing
- **Repair/Replace** deteriorating roofs, plumbing, gas lines, sewer lines, and electrical systems
- **Upgrade** older schools so they meet current health/building safety codes, and provide proper access for students with disabilities
- **Provide** modern labs, career technical facilities and equipment so students are prepared for college/careers in agricultural sciences, engineering, technology and skilled trades
- **Replace** aging portable classrooms

Taxpayer protections are REQUIRED.

- **ALL funds STAY LOCAL** for DUSD schools/students
- The State CANNOT take this funding away
- NO funds are allowed for administrators' salaries/pensions
- Independent Citizens' Oversight and mandatory audits ensure funds are spent properly

Even if you do not have school-age children, supporting Measure U is a wise investment. Good schools improve the quality of life in our community and protect the value of our homes.
