IMPARTIAL ANALYSIS OF MEASURE U

DIXON UNIFIED SCHOOL DISTRICT

GENERAL OBLIGATION BOND MEASURE

Measure U was placed on the ballot by the Governing Board of the Dixon Unified School District. If approved, Measure U would authorize the District to issue and sell general obligation bonds in an aggregate principal amount not to exceed $49,000,000, at interest rates within legal limits.

Bond proceeds would be used for school facility projects identified in the measure, including constructing and renovating classrooms and other school facilities; replacing deteriorating portable classrooms; repairing or replacing roofs, plumbing, sewer and gas lines, heating, ventilation, air-conditioning and electrical systems; making health, safety and seismic improvements; improving technology infrastructure; and constructing or renovating libraries, multipurpose rooms, cafeterias, athletic facilities, playgrounds and other school facilities. The District would determine the priority and timing of projects, and approval of the measure does not guarantee that all listed projects will be completed.

The measure includes accountability requirements governing the use of bond proceeds. Bond proceeds may be used only for the purposes specified in the measure and may not be used for teacher or administrator salaries or other school operating expenses. The measure requires an independent citizens' oversight committee, annual independent performance and financial audits, and annual reports regarding the receipt and expenditure of bond proceeds and the status of funded projects.

Principal and interest on the bonds would be paid by property taxes levied on taxable property within the District. According to the District's Tax Rate Statement, the estimated average annual tax rate is $29 per $100,000 of assessed valuation, and the estimated highest tax rate is $30 per $100,000 of assessed valuation. The District estimates that taxes will be collected through fiscal year 2061-62 and that total debt service, including principal and interest, will be approximately $105,000,000. These amounts are estimates and may vary.

A "yes" vote on Measure U means general obligation bonds totaling up to $49,000,000 may be issued to finance the school facility projects specified in the measure.

A "no" vote on Measure U means the bonds will not be authorized.

Measure U requires approval by at least 55 percent of the votes cast on the measure to pass.

Respectfully submitted,

Carrie Blacklock
