Dixon Unified School District

REBUTTAL to the Argument Against Measure U

Don't be deceived by our opponents' inaccurate and misleading statements. **Measure U is absolutely needed and a sound investment in our Dixon public schools and students.**

Here are the Facts:

FACT: DUSD facilities staff work hard to maintain our neighborhood schools and keep them in good condition with limited resources. The repairs/upgrades needed go far beyond the scope of regular school maintenance budgets.

FACT: Every day, over 3,460 students enter the District's seven school campuses: three elementary schools (Anderson, Tremont, and Gretchen Higgins), one middle school (John Knight), two high schools (Dixon and Maine Prairie), and one charter school (Dixon Montessori).

FACT: DUSD is not just maintaining one school roof, plumbing and electrical system. They are maintaining seven campuses with many buildings, roofs, plumbing and electrical systems.

FACT: It's been a decade since our last school improvement measure. That funding renovated/upgraded science and computer labs, libraries, classrooms, just to name a few - but **there is still more work to be done, especially in our elementary schools**.

FACT: Existing funding is insufficient to complete these facility upgrades. The longer we wait, the more expensive they will be.

FACT: Measure U requires a clear system of accountability, including a project list detailing how the funds will be used, a Citizens' Oversight Committee, and independent audits to ensure funds are spent properly. **The 2016 bond reports are available to the public at:** https://www.dixonusd.org/oversight-committee/

Make your vote count – for our children, for our community. **VOTE YES on U!**
