REBUTTAL TO THE ARGUMENT AGAINST MEASURE Q

Vote **YES on Measure Q** to ensure Fairfield's City Clerk is selected based on qualifications, experience, and professional skills-not campaign politics.

The City Clerk runs elections, maintains public records, protects access to government information, and ensures official actions are properly announced, recorded, preserved, and accessible to the public.

Currently, a candidate for City Clerk only needs to be at least 18 years old and a registered Fairfield voter. If only one person runs, they are automatically elected to a four-year term, regardless of their professional qualifications or experience.

Measure Q would allow Fairfield to select the most qualified City Clerk based on certification, education, experience, integrity, management ability, and knowledge of elections, records, and open-government laws.

Approximately 80% of California cities appoint their City Clerks. Cities similar in size to Fairfield-including Concord, Vallejo, Richmond, Berkeley, Clovis, Simi Valley, and Thousand Oaks-have chosen appointment to keep politics out of this important professional role.

Measure Q means a more professional, accountable process focused on qualifications and performance for Fairfield residents.

Please join your neighbors in voting YES on Measure Q.
