Vote YES on Measure Y: Investing in Woodland's Future

Woodland is growing rapidly, but our vital city services are falling behind. Calls for police and fire protection have surged, while staffing, equipment, and infrastructure struggle to keep pace. Voting YES on Measure Y provides a stable, locally controlled revenue source to ensure our city can protect neighborhoods, improve emergency response times, repair potholes and sidewalks, and keep parks clean and safe.

Without this crucial investment, the essential services we rely on every day will continue to strain under the weight of our community's growth.

Measure Y will help Woodland:

• Strengthen fire and police protection
• Improve emergency response times
• Repair deteriorating roads, potholes, and sidewalks
• Maintain critical infrastructure
• Keep parks and public spaces clean, safe, and well maintained

Fiscal Accountability and Local Control:

• **Every Penny Stays Local:** Measure Y funds remain under local control and directly benefit Woodland residents.
• **Transparency Ensures Accountability:** Independent audits and public disclosure of spending will help ensure funds are used properly.
• **Protects Essential Purchases:** Exemptions for essential purchases, including groceries and medicine, help protect residents on fixed incomes.

Measure Y is designed with fiscal responsibility and transparency in mind. Residents will be able to see how funds are spent and how they benefit Woodland.

Our neighborhoods, families, and first responders deserve the resources necessary to maintain a safe, thriving community. Don't leave Woodland's future to chance. Protect our quality of life and ensure our city has the tools to meet tomorrow's challenges.

Vote YES on Measure Y.
