BACKGROUND:

Fiscal Sustainability Efforts

On March 17, 2025, the City Council established Fiscal Sustainability as a City Council goal, due to the increasing financial pressures from the City's landslide response while balancing the need to maintain aging infrastructure and essential City services. Since then, Staff has hosted five public City Council budget workshops/meetings and two Finance Advisory Committee (FAC) meetings to carefully evaluate the City's fiscal condition; identify potential cost-containment and revenue enhancement options; and engage in comprehensive and transparent planning discussions in the public arena.

This intensive work has led the City to implement several initiatives to improve its financial position. These efforts included forming a Fiscal Sustainability Council Subcommittee (Councilmembers Bradley and Lewis) to consider and provide direction on potential initiatives; reinstating Consumer Price Index (CPI) adjustments for key revenue sources; reassessing capital project budgets; reducing operating expenditures; aggressively pursuing grant funding; restoring previously suspended revenues (e.g., reinstatement of the 1972 Act Landscaping and Lighting District assessments); and examining the impact of rate increases to certain assessments.

To date, these efforts have resulted in an estimated $11.3 million in available fund balances between the FY 2025-26 and FY 2026-27 Budgets, including approximately $600,000 in additional annual revenues, $5.2 million in secured grant funding, $3.7 million in reduced capital expenditures, and $1.8 million in reduced General Fund operating expenditures.

Additional information regarding the City's fiscal sustainability efforts is available in the attached City Council staff reports (Attachment F-K).

Ongoing Funding Needs

Although the City has identified additional funding, the FY 2026-27 budget process has spotlighted financial stressors that continue to place an increasing burden on the City's operating budget. Ongoing landslide-related expenditures (beginning in October 2022) that are expected to reach approximately $72.1 million by the end of FY 2026-27; maintaining aging street, sewer, and storm drain systems; keeping parks and trails in good condition; ensuring responsive public safety services; and other essential services all require continued local investments and a sustainable revenue source.

Staff also reported that continued reliance on General Fund transfers, Special Revenue Funds, and grant funding may not be sufficient to fully address the City's long-term capital needs in a timely manner under its fiscally responsible pay-as-you-go approach. Based on the FY 2026-27 through FY 2030-31 Capital Improvement Program, approximately $86.4 million in capital projects remain potentially unfunded over the next five years.

Community Needs Survey

Between February 4 and 12, 2026, the City's consultant, FM3, conducted a dual-mode (telephone and online) Community Needs Survey (Survey) of likely November 2026 voters in Rancho Palos Verdes and received 412 responses.

Residents were asked various questions, including the top City issues or concerns that should be prioritized for funding. Examples included, but were not limited to, maintaining roads, preparing for and responding to natural disasters, maintaining parks and trails, and mitigating the landslide. The intent of the Survey was to inform future policy decisions involving funding for high priority needs in the future.

In addition, the survey tested two hypothetical measures (increasing the TOT from 10% to 13% and Golf Tax from 10% to up to 15%) for the November 2026 General Election ballot. These taxes were tested over others such as sales or utility users taxes, because the majority would be borne by non-residents utilizing hotels/motels and private golf courses as opposed to Rancho Palos Verdes residents. After providing respondents with additional information on both measures, 75% indicated they would support the TOT Measure and 70% would support the Golf Tax Measure.

If both measures were approved by 50% + 1 of Rancho Palos Verdes voters during the November 3, 2026 General Municipal Election, they would have the potential to generate an additional $2.6 million in tax revenue annually. This revenue would help fund the priorities identified in the survey and other general city services.

Community Outreach

The City does not advocate for any particular outcome associated with the Community Needs Survey results, the City's financial or operational conditions, or potential ballot measures. However, the City may provide information and educational materials to inform the public accordingly.

To assist with this effort, the City contracted with the Lew Edwards Group (LEG) to provide outreach and communication services regarding the City's fiscal conditions, needs, and the priorities that residents identified in the Community Needs Survey.

From March 2026 to present, the City has provided educational information on its online and social media platforms, the Citywide newsletter, presentations to homeowner's associations and other community groups, stakeholder outreach to the hospitality industry, and an online survey to seek public opinion on the major priorities that respondents identified in the Community Needs Survey. Most respondents echoed the importance of those priorities, which ranged from public safety services to maintaining roads. This feedback will be valuable in continuing the responsible planning and budgeting necessary to ensure that City services are maintained at the level that the Rancho Palos Verdes community needs and expects.

DISCUSSION:

Community Needs Follow-Up Survey (June 2026)

In June 2026, FM3 conducted a Community Needs Follow-Up Survey to assess any significant changes in public opinion regarding the City's priorities and the two hypothetical TOT and Golf Tax ballot measures since the February 2026 Survey. The Survey's preliminary results indicated that most respondents continued to support the same priorities (as listed below) and the two ballot measures:

- Prevent property crimes, home invasion break-ins, and vehicle thefts
- Address landslides and land movement risks and damage
- Maintain roads
- Exercise transparency, accountability, and local control over budget funds for the benefit of RPV residents

This evening, FM3 will present a report on the results of the Community Needs Follow-Up Survey (Attachment E).

Staff recommend City Council receive and file the Community Needs Follow-Up Survey presentation and results (Attachment E).

Proposed Ballot Measures

In sum, over 1,000 Rancho Palos Verdes residents have engaged over two professionally conducted Community Needs Surveys, a City-developed interactive program to solicit feedback, and outreach presentations to local neighborhoods and community groups to receive their input on spending priorities and the aforementioned ballot measures. Given their ongoing support for the two measures, as evidenced by the Community Needs Survey Follow-Up Survey (Attachment E), Staff recommend considering the placement

of the following two ballot measures on the November 3, 2026 General Municipal Election for voter approval.

Measure No. 1 (TOT)

Rancho Palos Verdes Public Safety/City Services Measure: To help prepare for and respond to wildfires/natural disasters; maintain roads/storm drains; prevent sinkholes; address landslides/land movement; and support general city services, shall the transient occupancy tax (paid only by hotel/motel guests) be adjusted from 10% to 13%, providing approximately $2,200,000 annually until ended by voters, requiring audits, spending disclosures, all funds benefiting Rancho Palos Verdes which cannot be taken by the State or Los Angeles County, be adopted?	**YES** **NO**

The City's TOT has been part of the Rancho Palos Verdes Municipal Code (RPVMC) in Section 3.16.030 since 1973 and imposes a 10% TOT on rent charged for the privilege of occupying a hotel or motel room within the City for 30 days or less. The TOT is paid only by hotel and motel guests and collected by the operator on behalf of the City. All TOT revenue is locally controlled and used by the City for general City services that benefit the Rancho Palos Verdes community.

As presented in the FY 2026-27 Preliminary Budget on June 2, 2026, Staff projected approximately $6.9 million in TOT revenue, which remains the second largest revenue source for the General Fund (property taxes being the largest revenue source). Of this amount, approximately $6.7 million is attributed to Terranea Resort, with the remaining approximately $150,000 generated from other TOT sources, including smaller lodging establishments (e.g. Hotel Aqua Mar, formerly America's Best Value Inn). Because TOT is paid by hotel and lodging guests (most likely being non-residents), it provides a way for visitors to contribute toward City services, infrastructure, and public safety resources that support the community and visitor-serving areas.

As part of the City Council's Fiscal Sustainability Goal, Staff and the FAC reviewed all revenue sources, including TOT, in comparison to other cities. The City's current 10% rate was identified as lower than many comparable coastal resort and visitor-serving communities. Among 16 comparable jurisdictions, Rancho Palos Verdes is tied with Lomita for the lowest TOT rate. The ranges for these cities were between 10% to 15%. Additionally, among the comparable destination communities, Rancho Palos Verdes is tied with Newport Beach for the lowest TOT rate. The ranges for these cities were also between 10% to 15%. As the second-largest General Fund revenue source after property taxes, a potential TOT increase would generate more revenue for the City that are likely to be borne mainly by non-residents.

To estimate what an increase to the TOT would generate in revenue, it was reported at the April 3, 2025 budget workshop that each additional one percentage point increase to the TOT was estimated to generate approximately $700,000 annually, with a 2% escalation year-over-year. This was estimated based on the current 10% TOT rate for FY 2025-26 budget assumption of approximately $7.0 million. It should also be noted that increasing the rate to 13% would still be lower than most comparable jurisdictions while still generating additional revenue that is locally controlled and dedicated to general City services for the Rancho Palos Verdes community.

Staff recommend that the City Council consider adopting two Resolutions (Attachments A-B) to place the TOT Measure on the November 3, 2026 General Municipal Election Ballot for voter approval and to authorize the drafting of direct arguments, setting priorities for filing arguments, and directing the City Attorney to prepare an impartial analysis for this Measure.

Measure No. 2 (Golf Tax)

Rancho Palos Verdes City Services/Golf Tax Measure: To help prevent property crimes, home break-ins, vehicle thefts; keep public areas, parks/children's play areas, safe/clean; support general city services; shall the City golf tax paid by private golf course users be adjusted from 10% to up to 15%, providing approximately $400,000 annually until ended by voters; requiring audits, spending disclosures, all funds benefiting Rancho Palos Verdes which cannot be taken by the State or Los Angeles County, be adopted?	**YES**
	NO

The City imposes a 10% Golf Tax on golf fees paid by users of private golf courses within the City. The Golf Tax was established in 1993 at a rate of 10%. The tax is authorized under RPVMC Chapter 3.40. Government-owned golf courses are exempt, including the County-owned Los Verdes Golf Course. As a result, the City's Golf Tax applies to private golf facilities within the City, including Trump National Golf Club Los Angeles and Terranea Resort Golf Course.

The Golf Tax is a relatively modest but stable General Fund revenue source. The FY 2026-27 Golf Tax revenue estimate is approximately $770,000 or 1.8% of the total General Fund revenues. Each additional one percentage point increase in the rate would generate approximately $80,000 in additional annual revenue, with a 2% annual escalation. Given the City's ongoing financial needs and that most of the impact of a rate increase would affect mostly non-residents, it was proposed to increase the rate by up to 5%. This increase was supported by 70% of respondents in the Community Needs Survey and would generate additional revenue that is locally controlled and dedicated to general City services for the Rancho Palos Verdes community.

Staff recommend that the City Council consider adopting two Resolutions (Attachments C-D) to place the Golf Tax Measure on the November 3, 2026 General Municipal Election Ballot for voter approval and to authorize the drafting of direct arguments, setting priorities for filing arguments, and directing the City Attorney to prepare an impartial analysis for this Measure.

CONCLUSION:

Staff recommend receiving and filing the results of the Community Needs Follow-Up Survey conducted in June 2026 and also considering the placement of two measures on the November 3, 2026 General Election ballot for voter consideration. The measures propose to increase the TOT rate by 3% and the Golf Tax rate by up to 5%. If approved by the voters, the proposed increases are projected to generate approximately $2.2 million annually in additional TOT revenue and approximately $400,000 annually in additional Golf Tax revenue. This revenue will be locally controlled and dedicated towards the priorities identified in the two surveys as well as other City services that directly benefit the Rancho Palos Verdes community.

ALTERNATIVES:

In addition to Staff's Recommendations, the following alternative actions are available for the City Council's consideration:

1) Do not receive and file the results of the Community Needs Follow-Up Survey and request additional information.
2) Only Receive and file the Community Needs Follow-up Survey.
3) Do not approve the placement of one or more measures on the November 3, 2026 General Election ballot for voter consideration.
4) Take other action as deemed appropriate.
