Measure O

Old Adobe Union School District

Measure Question

55% Needed to Pass

To improve the quality of education; repair/replace leaky roofs; make health, safety and security improvements; replace outdated HVAC systems; make accessibility (ADA) improvements, modernize classrooms, restrooms and school facilities, including multi-purpose rooms; shall Old Adobe Union School District's measure be adopted authorizing $48,000,000 of bonds at legal rates, generating on average $2,800,000 annually while bonds are outstanding at approximate rates of $25 per $100,000 assessed value, with annual audits, oversight, no money for salaries, all money staying local?

What Your Vote Means

YES	NO
A "yes" vote on Measure O will authorize the District to issue the bonds and levy taxes to pay for the indebtedness.	A "no" vote on Measure O will not authorize either the issuance of bonds or the associated levy of taxes.

Local Ballot Measure: O

County Counsel's Impartial Analysis of Measure O

California law permits school districts to issue bonds to pay for construction, repair, replacement, and acquisition of school facilities provided 55 percent of voters who vote on the measure approve the sale of the bonds. The Old Adobe Union School District Board of Education has placed on the ballot the question of whether to issue $48,000,000 in bonds for such purposes.

Money raised by bond sales may only be used for the purposes and projects stated in the Bond Project List set forth in Measure O, following this analysis. Proceeds could be used to modernize, renovate, expand, acquire, construct or reconstruct, rehabilitate, and/or replace school facilities, including furnishing and equipping educational and support facilities. The Bond Project List includes a complete list of projects and allowed expenditures. As required by law, Measure O prohibits using bond proceeds for teacher or administrator salaries or other operating expenses.

The Board of Education has certified that it evaluated safety, class size, and information technology needs in developing the Bond Project List. Inclusion of a project on the Bond Project List does not guarantee it will be funded or completed. The District may seek State funds to augment Bond proceeds to advance the Bond Project List. The Board of Education will establish the priority and order in which projects are undertaken.

If adopted, Measure O includes "Accountability Safeguards" that require the Board of Education to: annually conduct independent financial and performance audits; establish and appoint members to an Independent Citizens' Oversight Committee; apply bond proceeds only to specific purposes stated in Measure O, and maintain bond proceeds in a separate account in the County Treasury. Measure O further requires District Superintendent to provide an annual report to the Board on the status of projects undertaken and the amount of bond proceeds received and expended in each year.

If approved, Measure O authorizes Old Adobe Union School District to issue and sell general obligation bonds in series, at different times, as projects are undertaken. Bonds of any series must mature within the statutory maximum number of years from date of issue. The interest rate on the bonds will depend on the market rate at the time bonds are sold, but cannot exceed the maximum rate set by law. Bonds will be repaid from property taxes levied on real property within the District based on the value of land and improvements on each property. Those taxes would be in addition to current property taxes on real property within the District.

The amount of tax needed each year will depend upon the amount needed to repay outstanding principal and interest. The District's Tax Rate Statement, which follows this analysis, estimates the highest tax rate necessary to fund the bonds is $25 per $100,000 of assessed value. Those tax levies are projections, and could go up or down, depending on a number of factors including the timing and amount of bond sales, and changes in assessed property values in the District.

If all bonds are sold, the total debt service (including principal and interest) will be $97,000,000. The tax will raise approximately $2,800,000 annually.

A "yes" vote on Measure O will authorize the District to issue the bonds and levy taxes to pay for the indebtedness.

A "no" vote on Measure O will not authorize either the issuance of bonds or the associated levy of taxes.

Deputy County Counsel

Tax Rate Statement — Measure O

An election will be held in the Old Adobe Union School District (the "District") on November 3, 2026, to authorize the sale of up to $48,000,000 in general obligation bonds. The following information is submitted in compliance with Sections 9400-9404 of the Elections Code of the State of California. Such information is based upon the best estimates and projections presently available from official sources, upon experience within the District, and other demonstrable factors.

Based upon the foregoing and projections of the District's assessed valuation, the following information is provided:

1. The best estimate of the average annual tax rate that would be required to fund this bond issue over the entire duration of the bond debt service, based on estimated assessed valuations available at the time of filing of this statement, is $24.15 per $100,000 of assessed valuation. It is currently expected that the tax will be collected until fiscal year 2059-60.

2. The best estimate of the highest tax rate that would be required to fund this bond issue, based on estimated assessed valuations available at the time of filing this statement, is $25.00 per $100,000 of assessed valuation. This rate is projected to apply in fiscal years 2027-28 through 2055-56.

3. The best estimate of total debt service, including principal and interest, that would be required to be repaid if all the bonds are issued and sold will be approximately $97,000,000.

These estimates are based on projections derived from information obtained from official sources, and are based on the assessed value (not market value) of taxable property on the County's official tax rolls. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions. The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and durations and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary depending on the timing of bond sales, the par amount of bonds sold at each sale and actual increases in assessed valuations. The timing of the bond sales and the amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. Actual assessed valuations will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

Local Ballot Measure: O

Arguments and rebuttals are the opinions of the authors. They are printed exactly as submitted, including errors.

Argument in Favor of Measure O

Strong neighborhood schools are one of our community's most valuable assets and deserve to be a top priority. Good schools raise student achievement, support local property values, prepare young people for successful futures, and contribute to safer neighborhoods. Our teachers and staff do excellent work, yet many classrooms and facilities in the Old Adobe Union School District have aged beyond what today's students need to learn and thrive.

While the District has maintained its facilities responsibly, older classrooms and buildings need updating because many no longer meet modern educational and technology standards. Measure O would let the District upgrade local schools and strengthen the education students receive. Investing now lets us meet current safety, technology, and instructional standards while improving our community.

If approved by voters, Measure O will fund essential facility improvements at local elementary schools, including: Repairing and replacing leaky roofs, making health, safety and security improvements throughout the District, making accessibility (ADA) improvements, replacing outdated heating, ventilation and cooling systems to increase energy-efficiency, and modernizing outdated classrooms, restrooms, and school facilities, including multi-purpose rooms.

Old Adobe Union School District is proud to have award-winning schools. Measure O protects academic facilities so our excellent instruction and performance standards can be maintained.

Measure O is fiscally responsible and includes strong taxpayer protections. All funds stay local. The State Cannot take this funding away. Taxpayer protections are Required. No funds can be spent on administrators' salaries or pensions. Independent Citizens' Oversight and mandatory audits ensure funds are spent properly. For more information go to www.oldadobe.org.

Measure O repairs and modernizes outdated, inadequate classrooms, improves local students' education, and protects the character of our community. It is something we can all stand behind. Please join us and Vote Yes On Measure O!

Argument Against Measure O

No Argument Was Submitted Against Measure O

Full Text of Measure O

BOND AUTHORIZATION

By approval of this measure by at least 55% of the registered voters voting on the measure, the Old Adobe Union District (the "District") will be authorized to issue and sell bonds of up to $48,000,000 in aggregate principal amount, at interest rates not to exceed legal limits and to provide financing for the specific types of school facilities projects listed in the Bond Project List included below, subject to all the accountability requirements specified below.

ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Expenditures to address specific facilities needs of the District will be in compliance with the requirements of Article XIIIA, Section 1(b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following.)

Bonds authorized by this measure may be issued under the provisions of the California Education Code (starting at Section 15100), under the provisions of the California Government Code (starting at Section 53506), or under any other provision of law authorizing the issuance of general obligation bonds by school districts. The bonds may be issued in series by the District, from time to time, and each series of bonds shall mature within the legal limitations set forth in the applicable law under which the bonds are issued.

Evaluation of Needs. The Board of Education of the District (the "Board") has identified detailed facilities needs of the District, and has determined which projects to finance from a local bond. The Board hereby certifies that it has evaluated safety, class size reduction, enrollment growth, and information technology needs in developing the Bond Project List described below.

Independent Citizens' Oversight Committee. Following approval of this measure, the Board will establish an independent citizens' oversight committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the Board.

Performance Audits. The Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the school facilities projects listed below.

Financial Audits. The Board will conduct annual, independent financial audits of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed below.

Government Code Accountability Requirements. As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the Sonoma County Treasurer, as required by the Education Code, and (4) the Co-Superintendents of the District shall cause an annual report to be filed with the Board of the District not later than January 1 of each year, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this measure, as required by Sections 53410 and 53411 of the Government Code.

Bonding Capacity. Issuance of each series of bonds authorized by this measure is required to conform with all applicable legal requirements. This includes issuance within applicable bonding capacity limitations, which may include a waiver of bonding capacity granted by the State Board of Education, if sought and granted.

NO TEACHER OR ADMINISTRATOR SALARIES

Proceeds from the sale of bonds authorized by this measure shall be used only for the purposes specified in Article XIII A, Section 1(b)(3), specifically the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and the acquisition or lease of school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

STATE MATCHING FUNDS

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The District's proposal for the projects described below may assume the receipt of matching state funds, which, if available, could be subject to appropriation by the Legislature or approval of a statewide bond measure.

INFORMATION ABOUT ESTIMATES AND PROJECTIONS

Voters are informed that any estimates or projections in the bond measure or ballot materials, including relating to estimated tax rates, the duration of issued bonds and related tax levies and collections are provided as informational only. Such amounts are estimates and are not maximum amounts or limitations on the terms of the bonds, the tax rate or duration of the tax supporting repayment of issued bonds. Such estimates depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan, including but not limited to the amount of bonds issued and outstanding at any one time, the interest rates applicable to issued bonds, market conditions at the time of sale of the bonds, when bonds mature, timing of project needs and changes in assessed valuations in the District. As such, while such estimates and approximations are provided based on information currently available to the District and its current expectations, such estimates and approximations are not limitations and are not binding upon the District. In addition, the abbreviated and condensed statement of the bond measure presented to voters which is subject to a word count limitation imposed by State law does not limit the scope and complete meaning of the measure provided in this Full Text of Bond Measure and related ballot materials.

BOND PROJECT LIST

Scope of Projects. Bond proceeds will be expended on the modernization, renovation, expansion, acquisition, construction/reconstruction, rehabilitation, and/or replacement of school facilities of the District, including the furnishing and equipping of school facilities, at all existing sites of the District and all sites that may be acquired by the District in the future.

School Facility Project List. The items presented on the following list provide the types of school facilities projects authorized to be financed with voter-approved bond proceeds. Specific examples included on this list are not intended to limit the types of projects described and authorized by this measure. The following types of projects are authorized at all current and future District sites:

- Replace or repair leaky roofs
- Improve school safety, including sprinkler and fire suppression systems
- Improve student security, including fencing, barriers, doors and locks, and communication systems
- Improve classrooms and accessibility for students with disabilities
- Construct, reconstruct, renovate, modernize and equip classrooms and other school and District facilities, including multi-

Full Text of Measure O (Continued)

purpose rooms
- Upgrade infrastructure to ensure access to modern technology
- Update playgrounds and play fields for school and community use
- Repair or replace pipes, plumbing, sewer and gas lines, waterlines, storm drains and valves, heating, cooling, ventilation systems and electrical systems
- Upgrade outdated windows to increase energy efficiency
- Make safety improvements including to walkways, pick-up and drop-off areas to improve traffic flow and student safety

Incidental Expenses. Each of the bond projects described in this Bond Project List include the costs of furnishing and equipping such facilities, and all costs which are incidental but directly related to the types of projects described above. Examples of incidental costs include, but are not limited to: costs of design, engineering, architect and other professional services, facilities assessments, inspections, site preparation, utilities, landscaping, interior and exterior painting, bond project construction management, administration and other planning and permitting, legal, accounting and similar costs; independent annual financial and performance audits; a customary construction contingency; abatement, demolition and disposal of existing structures; the costs of interim housing and storage during construction including relocation and construction costs incurred relating to interim facilities; the preparation or restoration of construction, renovation or remodeling; rental or construction of storage facilities and other space on an interim basis for materials and other equipment and furnishings displaced during construction; costs of relocating facilities and equipment as needed in connection with the projects; the acquisition or improvement of interim classrooms and facilities for students, administrators, and school functions, including portable classrooms and other modular facilities; federal and state-mandated safety upgrades; addressing unforeseen conditions revealed by construction/modernization and other necessary improvements required to comply with existing building codes, including the Field Act; access requirements of the Americans with Disabilities Act; and costs of the election; bond issuance costs; and project administration during the duration of such projects, as permitted by law.

Furnishing and Equipping. Each project is assumed to include its share of furniture, fixtures, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction costs. In addition to the listed projects stated above, the list also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by construction projects. The upgrading of technology infrastructure includes, but is not limited to, computers, projectors, portable interface devices, servers, switches, routers, modules, sound projection systems, printers, digital white boards, document projectors, telephone system, call manager and network security/firewall, wireless technology systems and other miscellaneous equipment.

Alterations to Scope; Acquisition of Real Property. The scope and nature of any of the specific projects described above may be altered by the District as required by conditions that may arise during the course of design and construction. In the event that a modernization or renovation project is more economical for or otherwise determined by the Board to be in the best interests of the District to be undertaken as new construction, this bond measure authorizes said new construction including land acquisition, relocation and construction at a new or alternative site, and/or demolition and reconstruction and/or repurposing on the original site, including an expanded site, and all costs relating thereto. For any project involving rehabilitation or renovation of a building or the major portion of a building, the District shall be authorized to proceed with new construction instead, if the Board determines that replacement and new construction is more economically practical than rehabilitation and renovation, considering the building's age, condition, expected remaining life, and other relevant factors.

In addition, this measure authorizes the acquisition of real property, including necessary rights of ways or other real property interests required to expand District facilities, to provide access to school or other District facilities, or to provide additional school or related facilities.

Interim Financing Included; Joint Use Projects Authorized. Authorized projects include paying and/or prepaying interim or previously obtained financing for the types of projects included on the Bond Project List, such as bond anticipation notes, and includes prepayment of lease payments to acquire title to facilities and/or equipment previously financed. Projects may also be undertaken on a joint use basis with other public entities.

Bond Project List Not in Order of Priority; Board Determines Prioritization. Approval of this bond measure does not guarantee that the proposed projects will be funded beyond the local revenues generated by the measure. The District's capital needs currently exceed the amount of bonds the voters are being asked to authorize. The order in which particular projects are listed is not intended to suggest priority for funding or completion, and itemization of projects in the list above does not guarantee that all such projects will be undertaken. Project priorities will be determined by the Board. The ability of the District to undertake and complete the listed projects is subject to numerous variables including the adequacy and availability of sufficient funding sources. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.

Interpretation. The terms of this bond measure and the words used in the Bond Project List shall be interpreted broadly to effect the purpose of providing broad and clear authority for the officers and employees of the District to provide for the school facilities projects the District proposes to finance with the proceeds of the sale of bonds authorized by this proposition within the authority provided by law, including Article XIIIA, Section 1(b)(3) of the California Constitution, Education Code Section 15000 *et seq.* and the Strict Accountability in Local School Construction Bonds Act of 2000. Words used in the Bond Project List such as repair, improve, upgrade, expand, modernize, renovate, and reconfigure are used to describe school facilities projects in plain English but are not intended to expand the nature of such projects beyond what is authorized by law. As such, in accordance with legal requirements, the Bond Project List does not authorize, and shall not be interpreted to authorize, expending proceeds of the sale of bonds authorized by this proposition for current maintenance, operation or repairs.

Severability. The Board hereby declares, and the voters by approving this Bond Measure concur, that every section and part of this bond proposition has independent value, and the Board and the voters would have adopted each provision hereof regardless of every other provision hereof. Upon approval of this measure by the voters, should any part be found by a court of competent jurisdiction to be invalid for any reason, all remaining parts hereof shall remain in full force and effect to the fullest extent allowed by law, and to this end the provisions of this bond measure are severable.
