M	**Pleasant Ridge Union Elementary School District**

BALLOT QUESTION (55% Majority Needed to Pass)

To update local elementary and middle schools, replace leaky roofs and failing heating/ cooling systems, improve student and school safety, weatherproof schools to avoid mold and dry rot, and qualify for matching funds from the State, shall Pleasant Ridge Union Elementary School District's measure authorizing $19,800,000 in bonds, levying approximately $22.50 per $100,000 assessed value, generating on average $1,400,000, annually, while bonds are outstanding, with citizen oversight and audits, all funds staying local and none for administrator salaries, be adopted?

WHAT YOUR VOTE MEANS

YES	NO
A 'yes' vote is a vote in favor of authorizing the Pleasant Ridge Union Elementary School District to issue and sell up to $19,800,000 in general obligation bonds.	A 'no' vote is a vote against authorizing the Pleasant Ridge Union Elementary School District to issue and sell up to $19,800,000 in general obligation bonds.

IMPARTIAL ANALYSIS

Measure M

Measure M was placed on the ballot by the Board of Trustees of the Pleasant Ridge Union Elementary School District ("District"). This Measure, if approved by 55% of voters voting on the Measure, would authorize the District to issue and sell up to $19,800,000 in general obligation bonds. The sale of these bonds by the District will raise money for the District and represent a debt of the District. In exchange for the money received from the bondholders, the District will promise to repay the bondholders, including interest, by tax collections for the years the bonds remain outstanding. The primary purpose of the bonds is to finance the specific school facilities projects specified in the Measure (reproduced in the sample ballot pamphlet).

Bond proceeds may be used only for modernization, renovation, expansion, acquisition, construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities. The bond proceeds may only be used for the purposes listed in the Measure.

Approval of this Measure will authorize a levy on the assessed value of taxable property within the District in an amount necessary to pay the principal and interest on these bonds in each year they remain outstanding. The amount of increased taxes each year would depend upon the amount needed to pay the principal and interest on the bonds, the timing and the amount of bonds sold at each bond sale, and the assessed property valuations as determined annually by the County Assessor. The Tax Rate Statement for Measure M in this sample ballot pamphlet reflects the District's best estimates, based upon currently available data and projections, of the property tax rates required to service the bonds. Approval of the bond measure does not guarantee any particular project will be completed or funded beyond the local revenues generated by the Measure.

California Constitution Article XIIIA exempts from the 1% property tax rate limitation ad valorem taxes to pay the interest and redemption charges on any bonded indebtedness for school facilities, when approved by 55% of the voters, if: (a) the proceeds from the sale of the bonds are used only for the purposes specified; (b) the District, by evaluating safety, class size reduction, and information technology, has approved a list of specific projects to be funded; and (c) the District conducts an annual independent performance audit. The District has made the ballot Measure subject to these requirements.

If 55% of those voting on the Measure do not vote for approval, the Measure will fail and the District will not be authorized to issue the bonds.

A 'yes' vote is a vote in favor of authorizing the Pleasant Ridge Union Elementary School District to issue and sell up to $19,800,000 in general obligation bonds.

A 'no' vote is a vote against authorizing the Pleasant Ridge Union Elementary School District to issue and sell up to $19,800,000 in general obligation bonds.

The above statement is an impartial analysis of Measure M. If you desire a copy of the measure, please call the Nevada County Elections office at 530-265-1298 and a copy will be mailed at no cost to you.

Ballot Argument for Measure M

Vote YES on M to repair and upgrade aging elementary and middle schools in the Pleasant Ridge School District.

Our schools are over 50 years old and need basic repairs and modernization to meet safety and academic standards. Measure M will allow for essential repairs and updates to school roofs, windows, bathrooms, plumbing, and HVAC systems *before the repairs become more costly in the future.*

Measure M includes taxpayer safeguards, including an independent Citizens' Oversight Committee, a detailed project list of how Measure M funds will be used, and, by law, all funds from Measure M must be spent on local schools.

Voting Yes on M will give the Pleasant Ridge School District **access to State matching funds** that we would otherwise not qualify for, maximizing the impact of the community's investment in our schools.

Vote YES on M to:

- Repair or replace leaky roofs and failing HVAC systems
- Weather-proof schools to avoid mold and dry rot
- Upgrade old fire alarms and emergency communication systems
- Improve school and student safety and security with safer pickup and drop-off areas, modernized door locks, and security cameras

Mandatory Fiscal Accountability:

- Independent citizens' oversight and annual audits
- All funds stay local and must be spent on PRSD classrooms and school facilities
- Funds cannot be spent on administrators' salaries

There is nothing more important than protecting our children while they are at school. Measure M will improve student safety and school security by updating fencing to better control access to campuses, updating fire alarms and emergency communication systems, and reconfiguring student pick-up and drop-off zones to protect kids from traffic.

Great schools are part of what makes our area a great place to live. Supporting local schools is a wise investment in keeping our property values and community strong.

Vote YES on M to support local students and schools!

No Argument Against Measure M was submitted

FULL TEXT OF BOND MEASURE

KEY FINDINGS

The Pleasant Ridge Union Elementary School District (the "District") provides over 1,500 students with a high-quality education, preparing them for high school and beyond. Our success is rooted in our dedicated teachers, staff, and parents' commitment to developing well-rounded, lifelong learners. High-achieving schools that nurture successful students improve the quality of life in our community and protect the property value of our homes.

We're proud of the high-quality education in Pleasant Ridge, but many of our classrooms and other school facilities are over 60 years old and need repairs and upgrades to meet current academic and safety standards. While the maintenance staff does their best to keep classrooms and school facilities safe and clean, our schools were built to safety and educational standards from a different era. Basic repairs and upgrades are needed to keep the District's classrooms and facilities safe and functioning for our students.

In recent years, the District has updated its Facility Improvement Plan to determine priority repairs and improvements for our local schools. The plan meets the District's goals for providing our students with a safe and updated learning environment to help them be successful in their education journey.

The facility improvements needed in Pleasant Ridge are far beyond the scope of the District's current maintenance budget. The District is working to gain as much funding for facility upgrades from the State of California (the "State") as possible, but those funds typically take years to receive and require local matching funds that could be provided by a local bond measure. Additionally, locally controlled funding could provide the District access to State matching funds that it would otherwise not be eligible to receive, maximizing the impact of the community's investment in our schools.

BOND AUTHORIZATION

By approval of this measure by at least 55% of the registered voters voting on the measure, the District will be authorized to issue and sell bonds of up to $19,800,000 in aggregate principal amount, at interest rates not to exceed legal limits and to provide financing for the specific types of school facilities projects listed in the Bond Project List included below, subject to all the accountability requirements specified below.

ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Expenditures to address specific facilities needs of the District will be in compliance with the requirements of Article XIIIA, Section 1(b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following.)

Bonds authorized by this measure may be issued under the provisions of the California Education Code (starting at Section 15100), under the provisions of the California Government Code (starting at Section 53506), or under any other provision of law authorizing the issuance of general obligation bonds by school districts. The bonds may be issued in series by the District, from time to time, and each series of bonds shall mature within the legal limitations set forth in the applicable law under which the bonds are issued.

Evaluation of Needs. The Board of Trustees of the District (the "Board") has identified detailed facilities needs of the District, and has determined which projects to finance from a local bond. The Board hereby certifies that it has evaluated safety, class size reduction, enrollment growth, and information technology needs in developing the Bond Project List described below.

Independent Citizens' Oversight Committee. Following approval of this measure, the Board will establish an independent citizens' oversight committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the Board.

Performance Audits. The Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the school facilities projects listed below.

Financial Audits. The Board will conduct annual, independent financial audits of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed below.

Government Code Accountability Requirements. As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the Nevada County Treasurer, as required by the Education Code, and (4) the Superintendent of the District shall cause an annual report to be filed with the Board of the District not later than January 1 of each year, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this measure, as required by Sections 53410 and 53411 of the Government Code.

Bonding Capacity. Issuance of each series of bonds authorized by this measure is required to conform with all applicable legal requirements. This includes issuance within applicable bonding capacity limitations, which may include a waiver of bonding capacity granted by the State Board of Education, if sought and granted.

NO TEACHER OR ADMINISTRATOR SALARIES

Proceeds from the sale of bonds authorized by this measure shall be used only for the purposes specified in Article XIII A, Section 1(b)(3), specifically the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and the acquisition or lease of school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

STATE MATCHING FUNDS

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The District's proposal for the projects described below may assume the receipt of matching State funds, which, if available, could be subject to appropriation by the Legislature or approval of a Statewide bond measure.

INFORMATION ABOUT ESTIMATES AND PROJECTIONS

Voters are informed that any estimates or projections in the bond measure or ballot materials, including relating to estimated tax rates, the duration of issued bonds and related tax levies and collections are provided as informational only. Such amounts are estimates and are not maximum amounts or limitations on the terms of the bonds, the tax rate or duration of the tax supporting repayment of issued bonds. Such estimates depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan, including but not limited to the amount of bonds issued and outstanding at any one time, the interest rates applicable to issued bonds, market conditions at the time of sale of the bonds, when bonds mature, timing of project needs and changes in assessed valuations in the District. As such, while such estimates and approximations are provided based on information currently available to the District and its current expectations, such estimates and approximations are not limitations and are not binding upon the District. In addition, the abbreviated and condensed statement of the bond measure presented to voters which is subject to a word count limitation imposed by State law does not limit the scope and complete meaning of the measure provided in this Full Text of Bond Measure and related ballot materials.

BOND PROJECT LIST

Scope of Projects. Bond proceeds will be expended on the modernization, renovation, expansion, acquisition, construction/reconstruction, rehabilitation, and/or replacement of school facilities of the District, including the furnishing and equipping of school facilities.

School Facility Project List. The items presented on the following list provide the types of school facilities projects authorized to be financed with voter-approved bond proceeds. Specific examples included on this list are not intended to limit the types of projects described and authorized by this measure. The following types of projects are authorized at all existing sites and facilities of the District and all sites that may be acquired by the District in the future, including Alta Sierra Elementary School, Arete Charter Academy, Cottage Hill Elementary School and Magnolia Intermediate School:

- Repair or replace roofs, heating, ventilation and air-conditioning systems
- Construct, repair or replace plumbing, electrical, sewer, septic and water systems, including wells and storage tanks
- Make health, safety and security improvements, including fire alarms and emergency communication systems
- Weatherproof schools, classrooms and facilities to avoid mold and dry rot
- Update parking lots and drop off areas to improve campus traffic and student safety
- Construct, modernize, renovate, replace and/or expand classrooms, restrooms, multi-purpose rooms, and other school facilities, including providing updated furnishings and equipment
- Construct, repair, replace and/or upgrade paved surfaces, turf, fields, grounds and outdoor areas, including playgrounds, shade structures, lighting and landscaping improvements, including irrigation
- Upgrade school kitchens and food preparation facilities to meet higher nutritional standards
- Make accessibility upgrades
- Provide an emergency evacuation center for students and the community
- Abate and remove hazardous materials identified prior to or during construction
- Provide funds to qualify for State matching programs

Incidental Expenses. Each of the bond projects described in this Bond Project List include the costs of furnishing and equipping such facilities, and all costs which are incidental but directly related to the types of projects described above. Examples of incidental costs include, but are not limited to: costs of design, engineering, architect and other professional services, facilities assessments, inspections, site preparation, utilities, landscaping, interior and exterior painting, bond project construction management, administration and other planning and permitting, legal, accounting and similar costs; independent annual financial and performance audits; a customary construction contingency; abatement, demolition and disposal of existing structures; the costs of interim housing and storage during construction including relocation and construction costs incurred relating to interim facilities; the preparation or restoration of construction, renovation or remodeling; rental or construction of storage facilities and other space on an interim basis for materials and other equipment and furnishings displaced during construction; costs of relocating facilities and equipment as needed in connection with the projects; the acquisition or improvement of interim classrooms and facilities for students, administrators, and school functions, portable classrooms and other including modular facilities; federal and State-mandated safety upgrades; addressing unforeseen conditions revealed by construction/modernization and other necessary improvements required to comply with existing building codes, including the Field Act; access requirements of the Americans with Disabilities Act; and costs of the election; bond issuance costs; and project administration during the duration of such projects, as permitted by law.

Furnishing and Equipping. Each project is assumed to include its share of furniture, fixtures, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction costs. In addition to the listed projects stated above, the list also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by construction projects. The upgrading of technology infrastructure includes, but is not limited to, computers, projectors, portable interface devices, servers, switches, routers, modules, sound projection systems, printers, digital white boards, document projectors, telephone system, call manager and network security/firewall, wireless technology systems and other miscellaneous equipment.

Alterations to Scope; Acquisition of Real Property. The scope and nature of any of the specific projects described above may be altered by the District as required by conditions that may arise during the course of design and construction. In the event that a modernization or renovation project is more economical for or otherwise determined by the Board to be in the best interests of the District to be undertaken as new construction, this bond measure authorizes said new construction including land acquisition, relocation and construction at a new or alternative site, and/or demolition and reconstruction and/or repurposing on the original site, including an expanded site, and all costs relating thereto. For any project involving rehabilitation or renovation of a building or the major portion of a building,

the District shall be authorized to proceed with new construction instead, if the Board determines that replacement and new construction is more economically practical than rehabilitation and renovation, considering the building's age, condition, expected remaining life, and other relevant factors.

In addition, this measure authorizes the acquisition of real property, including necessary rights of ways or other real property interests required to expand District facilities, to provide access to school or other District facilities, or to provide additional school or related facilities.

Interim Financing Included; Joint Use Projects Authorized. Authorized projects include paying and/or prepaying interim or previously obtained financing for the types of projects included on the Bond Project List, such as bond anticipation notes, and includes prepayment of lease payments to acquire title to facilities and/or equipment previously financed. Projects may also be undertaken on a joint use basis with other public entities.

Bond Project List Not in Order of Priority; Board Determines Prioritization. Approval of this bond measure does not guarantee that the proposed projects will be funded beyond the local revenues generated by the measure. The District's capital needs currently exceed the amount of bonds the voters are being asked to authorize. The order in which particular projects are listed is not intended to suggest priority for funding or completion, and itemization of projects in the list above does not guarantee that all such projects will be undertaken. Project priorities will be determined by the Board. The ability of the District to undertake and complete the listed projects is subject to numerous variables including the adequacy and availability of sufficient funding sources. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.

Interpretation. The terms of this bond measure and the words used in the Bond Project List shall be interpreted broadly to effect the purpose of providing broad and clear authority for the officers and employees of the District to provide for the school facilities projects the District proposes to finance with the proceeds of the sale of bonds authorized by this proposition within the authority provided by law, including Article XIIIA, Section 1(b)(3) of the California Constitution, Education Code Section 15000 *et seq.* and the Strict Accountability in Local School Construction Bonds Act of 2000. Words used in the Bond Project List such as repair, improve, upgrade, expand, modernize, renovate, and reconfigure are used to describe school facilities projects in plain English but are not intended to expand the nature of such projects beyond what is authorized by law. As such, in accordance with legal requirements, the Bond Project List does not authorize, and shall not be interpreted to authorize, expending proceeds of the sale of bonds authorized by this proposition for current maintenance, operation or repairs.

Severability. The Board hereby declares, and the voters by approving this Bond Measure concur, that every section and part of this bond proposition has independent value, and the Board and the voters would have adopted each provision hereof regardless of every other provision hereof. Upon approval of this measure by the voters, should any part be found by a court of competent jurisdiction to be invalid for any reason, all remaining parts hereof shall remain in full force and effect to the fullest extent allowed by law, and to this end the provisions of this bond measure are severable.

TAX RATE STATEMENT

An election will be held in the Pleasant Ridge Union Elementary School District (the "District") on November 3, 2026, to authorize the sale of up to $19,800,000 in general obligation bonds. The following information is submitted in compliance with Sections 9400-9404 of the Elections Code of the State of California. Such information is based upon the best estimates and projections presently available from official sources, upon experience within the District, and other demonstrable factors.

Based upon the foregoing and projections of the District's assessed valuation, the following information is provided:

1. The best estimate of the average annual tax rate that would be required to fund this bond issue over the entire duration of the bond debt service, based on estimated assessed valuations available at the time of filing of this statement, is $22.50 per $100,000 of assessed valuation. It is currently expected that the tax will be collected until fiscal year 2052-53.

2. The best estimate of the highest tax rate that would be required to fund this bond issue, based on estimated assessed valuations available at the time of filing this statement, is $22.50 per $100,000 of assessed valuation. This rate is projected to apply during each fiscal year that bonds are outstanding.

3. The best estimate of total debt service, including principal and interest, that would be required to be repaid if all the bonds are issued and sold will be approximately $37,050,000.

These estimates are based on projections derived from information obtained from official sources, and are based on the assessed value (not market value) of taxable property on the County's official tax rolls. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions. The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and durations and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary depending on the timing of bond sales, the par amount of bonds sold at each sale and actual increases in assessed valuations. The timing of the bond sales and the amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. Actual assessed valuations will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

/s/ Gregg S. Motarjeme

Superintendent

Pleasant Ridge Union Elementary School District
