MEASURE D

SCHOOL BOND ELECTION – ROCKLIN UNIFIED SCHOOL DISTRICT

To upgrade, renovate, modernize and expand classrooms, schools, and career technical education buildings; repair/ replace leaky roofs and outdated heating/ cooling systems; and make safety/ security improvements with no projected tax rate increase, shall Rocklin Unified School District's measure authorizing $288,000,000 of bonds at legal rates be adopted, generating on average $15,800,000 annually while bonds are outstanding at approximate rates of $59 per $100,000 assessed value, with audits, citizens' oversight, no money for salaries and funds staying local?

BONDS YES ____ **BONDS NO ____**

COUNTY COUNSEL'S IMPARTIAL ANALYSIS OF MEASURE D

This measure would authorize the sale of general obligation bonds by the Rocklin Unified School District (the "District") in the aggregate principal amount of $288,000,000. Bond proceeds would be used to finance school facility projects within the District as described in the text of the measure. The project list includes potential for improvements at Rocklin, Victory, and Whitney high schools, Spring View and Granite Oaks middle schools, the Rocklin Alternative Education Center, and other school facilities. Principal and interest on the bonds would be paid from a tax placed on taxable property within the District. The District's estimate of the highest tax rate that would be required to fund this bond issuance is $60 per $100,000 of assessed valuation and is estimated to be collected until fiscal year 2062-2063.

A general obligation bond is a form of borrowing commonly used to fund school facilities. By law, local general obligation bonds financed through an increase in local property taxes can be used for renovating, reconstructing, and building new facilities and for acquiring certain new equipment. To authorize the bond issuance, state law requires the District to implement accountability measures, including:

- to use bond proceeds only for the school facilities projects described in the measure and not for teacher or administrator salaries or other operating expenses;
- to appoint an independent citizens' oversight committee in accordance with Education Code section 15278 to review expenditures of bond proceeds;
- to conduct annual independent financial and performance audits to ensure that the bond proceeds are expended only for the projects in the ballot measure; and
- to prepare annual reports regarding the expenditure of bond proceeds.

This measure was placed on the ballot by the governing board of the District through adoption of Resolution No. 25-26-43 on June 10, 2026. Approval by 55% of the voters voting on the measure is required for its adoption.

A "YES" vote on this Measure would authorize the Rocklin Unified School District to borrow money through the sale of bonds in an amount not exceeding $288,000,000, to be repaid from revenues generated by an annual tax levied on taxable property within the District.

A "NO" vote on this Measure is a vote against authorizing the District to issue the proposed general obligation bonds.

This analysis is submitted by the Office of the County Counsel of the County of Placer pursuant to the requirements of Section 9500 of the Elections Code of the State of California.

Clayton T. Cook, County Counsel

ARGUMENT IN FAVOR OF MEASURE D

Vote Yes on D to support quality education in Rocklin Unified School District **WITHOUT INCREASING EXISTING TAX RATES.**

Rocklin-Unified-School-District has been educating generations of Rocklin families for 160 years. Today, many schools are old. The District has exhausted its resources for major upgrades and renovations to our schools, leaving many classrooms and school facilities outdated and in need of improvements.

Without increasing existing tax rates, Measure D will upgrade and renovate schools in the District to better educate local children and provide a safe learning environment. Measure D will fund projects to support current and future education programs that ensure all students receive the college preparation and career training they need to compete for good-paying jobs.

Voting YES on D will also qualify our schools to **receive $82 million in state matching funds,** bringing taxpayer dollars back to Rocklin.

Vote Yes on D to:

- **Expand and modernize** career technical education (CTE) facilities to prepare students for future careers
- **Repair or replace** leaky roofs and deteriorating plumbing and sewer systems
- Make health, safety, and security **improvements** throughout Rocklin Unified School District classrooms and campuses
- **Replace** outdated heating and air-conditioning systems and inadequate electrical systems
- **Construct** new classrooms to replace outdated portable classrooms

Measure D has taxpayer safeguards:

- Will not increase existing tax rates
- Independent citizens' oversight and annual audits
- All funds stay local and must be spent on RUSD classrooms and school facilities
- Funds cannot be spent on teachers', staff or administrators' salaries, benefits or pensions

Good schools benefit us all. They improve property values, provide a better learning environment for students, increase safety, and educate tomorrow's community leaders and service providers.

Join parents, teachers, local elected officials, and leaders and vote YES on D to support outstanding education in Rocklin schools.

Signed,
Paul Ruhkala, 60-Year Rocklin Resident
Nicole Smith, Rocklin Unified Parent
Davis Stewart, Retired Rocklin Principal
Julie Hupp, President, Rocklin School Board
Scott Yuill, Former Rocklin Mayor

REBUTTAL TO THE ARGUMENT IN FAVOR OF MEASURE D

Measure D is not "free money," and voters deserve to understand what they are approving.

Proponents say Measure D will provide $288,000,000 in school improvements without increasing existing tax rates. What they don't emphasize is that Measure D would continue a property-tax obligation scheduled to expire in 2028. As assessed property values increase, the amount taxpayers pay also increases.

Proponents highlight $82,000,000 in potential State matching funds, if the State will provide $82,000,000 for eligible projects. Voters should ask: Why does RUSD need $288,000,000in bonds and where will the remaining $206,000,000 go?

The District states bond funds can not be used for teachers,staff or administrator salaries,benefits or pensions. However, that does not prevent the District from redirecting other unrestricted funds. If bond money pays for projects otherwise funded with existing revenues, those revenues could be redirected to other expenses as 6 assistant-superintendents.

Voters deserve a clear, project-by-project accounting of the $288,000,000, including State funds and existing funds currently budgeted for facilities.

Facilities maintenance and safety are important, but are projects such as $159,042.56 for seating at Rocklin High School are a higher priority than leaky roofs, outdated plumbing,wiring and other safety needs.

The citizens' oversight committee is advisory only, so who selects its members and who ultimately controls the expenditures?

VOTE NO ON MEASURE D until taxpayers receive a clear accounting of total costs,State matching funds, project expenditures, the impact on existing District finances and your increased property taxes.

Signed,
William J McEnroe

ARGUMENT AGAINST MEASURE D

Before voting on Measure D, voters should carefully consider all of the available information-not just the information provided in the campaign material.

According to the correspondence from the Placer County Auditor, “even though there is enough funds in reserves for the 2 existing bonds to pay them off, there may be factors that can affect whether a rate would be needed to be levied for either bonds 2027/2028 and there is no way to determine that at this stage.” Therefore, claims that taxpayers will not see increased tax rates deserve careful scrutiny.

The District states the proposed bond would begin at approximately the same tax rate as the 2002 bonds-about $60/$100,000 of assessed value. Under Prop 13, assessed property values normally increase yearly, meaning as the value goes up, so does the tax. The value of homes in 2002 were less expensive then.

District data shows enrollment has declined by 578 students over the past 5 years to 11,598, compared to a capacity of more than 13,400. Given this available capacity, voters should ask whether borrowing an additional $288,000,000 is necessary. The project list includes items that some taxpayers may consider low priorities, such as outdoor learning centers which the weather may only allow limited use and other campus enhancements.

This is not a vote against education or maintaining our schools. It is a question of whether this is the right bond, at the right time, and whether the District has demonstrated the need for additional long-term borrowing, given declining enrollment, available facilities capacity and uncertainty about future taxpayers costs.

Please vote NO on Measure D

Signed,
William J McEnroe

REBUTTAL TO THE ARGUMENT AGAINST MEASURE D

Quality schools are key to providing an excellent education, preserving property values, and maintaining our great community.

The argument against Measure D has some inaccuracies and misleading statements that merit your consideration.

Please consider the facts:

FACT: Rocklin voters approved three measures in the past 35 years to improve our schools. **Both the 1991 and 1998 measures are fully paid off, and the outstanding 2002 measure will be paid off in 2028**. The time has come, 24 years later, to invest again in our neighborhood schools.

FACT: Measure D makes financial sense. **Measure D will replace the expiring 2002 tax measure but with a lower tax rate.** Measure D’s tax rate will be lower and will not be levied until the last payment from 2002 has been made.

FACT: Enrollment has nothing to do with Measure D. Whether there are 25 students in a classroom or 22, if the roof leaks, it must be replaced. Whether there are 500 students at a school or 400, if the plumbing and sewer systems are old, they need renovation.

FACT: Measure D has strict accountability and taxpayer safeguards. Funds must be spent locally in Rocklin schools, and an independent citizens’ oversight committee of local residents must annually audit and review spending by law.

Measure D is a carefully considered measure that will upgrade safety, improve the quality of education for Rocklin students, and benefit our community all without increasing tax rates.

We can’t afford to wait.

Join us and Vote YES on Measure D!

Signed,
Julie Hupp, Rocklin School Board President
Gary Stevens, Rocklin Unified Audit Committee
Daniel Tanner, Springfield Resident
Christy Jewel, Community Leader & Rocklin Resident
Scott Collins, Principal, Whitney High School

FULL TEXT OF MEASURE D SUBMITTED BY ROCKLIN UNIFIED SCHOOL DISTRICT

KEY FINDINGS

Founded in 1866, Rocklin Unified School District ("District") has been educating generations of Rocklin families for 160 years. Today, the District serves almost 11,600 students in Transitional Kindergarten (TK)/Kindergarten through 12th grade at 17 schools, including alternative education programs. District teachers and staff provide the structure and support needed to ensure that every student receives a high-quality education. Strong schools that nurture successful students improve the quality of life in our community.

Most of our schools were built over 30 years ago, and two of our campuses are over 60 years old. While some modernization projects have been completed over the years, many classrooms and school facilities are outdated and need essential repairs and updates. These outdated classrooms and deteriorating facilities are more costly and less efficient to operate than school facilities that meet today's academic and safety standards, and provide proper access for students with disabilities. Basic repairs include repairing or replacing leaky roofs, deteriorating plumbing, and outdated and inefficient electrical, heating, and cooling systems, as set forth in the Bond Project List. Aging systems increase maintenance costs, reduce efficiency, and require harder-to-find replacement parts, which drive up operational expenses.

District classrooms, labs, and career technical education facilities require updates and improvements to better prepare students to compete for admission to top colleges and for in-demand careers in fields such as Computer Science, Graphic Design and Communication, Business and Finance, and Engineering Support Technology.

In its dedication to upholding the standard of excellence in neighborhood education, in 2024, the District developed a Facilities Master Plan, outlining the diverse needs of all school facilities, including TK-12 classroom structures, cutting-edge educational technology, and essential building systems. The facility repairs and improvements needed in District schools are far beyond the scope of the District's current maintenance budget. The District's Board believes this bond measure is needed to provide locally controlled funding to repair and improve local schools. Passage of this measure could also help the District qualify for approximately $82,000,000 of State matching funds that it would otherwise not be eligible to receive.

Levies for the repayment of bonds issued pursuant to this measure will not occur until general obligation bonds previously issued by the District have matured. As a result, this bond measure is not expected to increase current tax rates, as further described herein.

BOND AUTHORIZATION

By approval of this measure by at least 55% of the registered voters voting on the measure, the District will be authorized to issue and sell bonds of up to $288,000,000 in aggregate principal amount, at interest rates not to exceed legal limits and to provide financing for the specific types of school facilities projects listed in the Bond Project List included below, subject to all the accountability requirements specified below.

ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Expenditures to address specific facilities needs of the District will be in compliance with the requirements of Article XIIIA, Section 1 (b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following).

Bonds authorized by this measure may be issued under the provisions of the California Education Code (starting at Section 15100), under the provisions of the California Government Code (starting at Section 53506), or under any other provision of law authorizing the issuance of general obligation bonds by school districts. The bonds may be issued in series by the District, from time to time, and each series of bonds shall mature within the legal limitations set forth in the applicable law under which the bonds are issued.

Evaluation of Needs. The Board of Trustees of the District (the "Board") has identified detailed facilities needs of the District, and has determined which projects to finance from a local bond. The Board hereby certifies that it has evaluated safety, class size reduction, enrollment trends and information technology needs in developing the Bond Project List described below.

Independent Citizens' Oversight Committee. Following approval of this measure, the Board will establish an independent citizens' oversight committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the Board.

Performance Audits. The Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the school facilities projects listed below.

Financial Audits. The Board will conduct annual, independent financial audits of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed below.

Government Code Accountability Requirements. As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the Placer County Treasurer, as required by the Education Code, and (4) the Superintendent of the District shall cause an annual report to be filed with the Board of the District not later than January 1 of each year, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this measure, as required by Sections 53410 and 53411 of the Government Code.

Bonding Capacity. Issuance of each series of bonds authorized by this measure is required to conform with all applicable legal requirements. This includes issuance within applicable bonding capacity limitations, which may include a waiver of bonding capacity granted by the State Board of Trustees, if sought and granted.

NO TEACHER OR ADMINISTRATOR SALARIES

Proceeds from the sale of bonds authorized by this measure shall be used only for the purposes specified in Article XIII A, Section 1(b)(3), specifically the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and the acquisition or lease of school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

STATE MATCHING FUNDS

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The District's proposal for the projects described below may assume the receipt of matching state funds, which, if available, could be subject to appropriation by the Legislature or approval of a statewide bond measure.

INFORMATION ABOUT ESTIMATES AND PROJECTIONS

Voters are informed that any estimates or projections in the bond measure or ballot materials, including relating to estimated tax rates, the duration of issued bonds and related tax levies and collections are provided as informational only. Such amounts are estimates and are not maximum amounts or limitations on the terms of the bonds, the tax rate or duration of the tax supporting repayment of issued bonds. Such estimates depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan, including but not limited to the amount of bonds issued and outstanding at any one time, the interest rates applicable to issued bonds, market conditions at the time of sale of the bonds, when bonds mature, timing of project needs and changes in assessed valuations in the District. As such, while such estimates and approximations are provided based on information currently available to the District and its current expectations, such estimates and approximations are not limitations and are not binding upon the District.

The District has examined the debt service requirements on its outstanding bonds, the scheduled amortization of such bonds, and the current tax rate for said bonds. Due to the scheduled amortization of outstanding bonds, which will occur prior to the time that the first levy is expected to occur for bonds issued pursuant to this measure, the District covenants that the initial levy pursuant to this bond measure will not occur until the final levy for the bonds currently outstanding.

Notwithstanding this covenant, general obligation bonds authorized by this measure are secured by an *ad valorem* tax unlimited as to rate or amount, and although the expectation is that tax rates will not increase, voters are informed that this expectation does not result in a cap or limit on the tax levies required to amortize bonds authorized by this measure.

The abbreviated and condensed statement of the bond measure presented to voters which is subject to a word count limitation imposed by State law does not limit the scope and complete meaning of the measure provided in this Full Text of Bond Measure and related ballot materials.

BOND PROJECT LIST

Scope of Projects. Bond proceeds will be expended on the modernization, renovation, expansion, acquisition, construction/reconstruction, rehabilitation, and/or replacement of school facilities of the District, including the furnishing and equipping of school facilities, at all existing sites of the District, as set forth below, and all sites that may be acquired by the District in the future.

School Facility Project List. The items presented on the following list provide the types of school facilities projects authorized to be financed with voter-approved bond proceeds. Specific examples included on this list are not intended to limit the types of projects described and authorized by this measure or the sites at which bond proceeds may be spent. The names of current schools are provided for informational purposes only, and do not limit the expenditure of bond proceeds at other District sites or sites that may be acquired in the future.

High School and Middle School Projects

Rocklin High School	Victory High School
Rocklin Alternative Education Center	Whitney High School
Granite Oaks Middle School	Spring View Middle School

- Modernize, expand, and construct career technical education buildings to better prepare students for jobs after high school.
- Construct, renovate, modernize, and upgrade classrooms, labs, and other high school facilities
- Renovate and upgrade student support facilities, libraries, food service facilities, cafeterias, multi-purpose spaces, arts and other facilities
- Repair or replace leaky roofing
- Renovate/replace deteriorating plumbing systems, including drainage, leaky pipes and sewer systems
- Upgrade inadequate electrical systems
- Replace or repair heating, ventilation and air-conditioning systems
- Make security upgrades, including fire and life emergency systems, alarms, sprinkler systems, communication systems and other emergency improvements
- Make safety improvements including to walkways, pick-up and drop-off areas to improve traffic flow and student safety
- Improve student access to modern technology and expand technology Infrastructure
- Upgrade technology infrastructure to support modern teaching and learning
- Install and improve outdoor areas including hardscaping, landscaping, irrigation improvements, shade structures and seating
- Improve building exteriors, including doors, locking systems, windows and painting
- Make energy-efficiency upgrades
- Upgrade fields and athletic facilities, surfaces and structures for school and community use
- Construct new classrooms to replace outdated temporary portables
- Upgrade and modernize old restrooms
- Make health, safety and security improvements, including accessibility upgrades to comply with the Americans with Disabilities Act

Elementary School Projects

Antelope Creek Elementary School	Rocklin Elementary School
Breen Elementary School	Ruhkala Elementary School
Cobblestone Elementary School	Sierra Elementary School
Parker Whitney Elementary School	Sunset Ranch Elementary School
Quarry Trail Elementary School	Twin Oaks Elementary School
Rock Creek Elementary School	Valley View Elementary School

- Make security upgrades, including fire and life emergency systems, alarms, sprinkler systems, communication systems and other emergency improvements .
- Construct transitional kindergarten classrooms.
- Construct, renovate, update, modernize, and upgrade classrooms, restrooms, libraries, food service facilities, multi-purpose and student support spaces, and other elementary school facilities and equipment.
- Make health, safety and security improvements, including accessibility upgrades to comply with the Americans with Disabilities Act.
- Repair or replace leaky roofing.
- Renovate/replace deteriorating plumbing systems, including leaky pipes, drainage, and sewer systems.
- Replace heating, ventilation and air-conditioning systems.
- Upgrade inadequate electrical systems.
- Upgrade and modernize old restrooms.
- Improve and expand classroom technology infrastructure and modern teaching tools.
- Make energy-efficiency upgrades.
- Improve building exteriors, including doors, locking systems, windows and painting.
- Upgrade playgrounds, play structures, and playfields for school and community use.
- Install and improve outdoor areas including hardscaping, landscaping, irrigation improvements, shade structures and seating.
- Construct new classrooms to replace outdated temporary portables.

Incidental Expenses. Each of the bond projects described in this Bond Project List include the costs of furnishing and equipping such facilities, and all costs which are incidental but directly related to the types of projects described

above. Examples of incidental costs include, but are not limited to: costs of design, engineering, architect and other professional services, facilities assessments, inspections, site preparation, utilities, landscaping, interior and exterior painting, bond project construction management, administration and other planning and permitting, legal, accounting and similar costs; independent annual financial and performance audits; a customary construction contingency; abatement, demolition and disposal of existing structures; the costs of interim housing and storage during construction including relocation and construction costs incurred relating to interim facilities; the preparation or restoration of construction, renovation or remodeling; rental or construction of storage facilities and other space on an interim basis for materials and other equipment and furnishings displaced during construction; costs of relocating facilities and equipment as needed in connection with the projects; the acquisition or improvement of interim classrooms and facilities for students, administrators, and school functions, including portable classrooms and other modular facilities; federal and state-mandated safety upgrades; addressing unforeseen conditions revealed by construction/modernization and other necessary improvements required to comply with existing building codes, including the Field Act; access requirements of the Americans with Disabilities Act; and costs of the election; bond issuance costs; and project administration during the duration of such projects, as permitted by law.

Furnishing and Equipping. Each project is assumed to include its share of furniture, fixtures, equipment, architectural, engineering, and similar planning costs, program/project management, staff training expenses and a customary contingency for unforeseen design and construction costs. In addition to the listed projects stated above, the list also includes the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies (including environmental investigation, remediation and monitoring), design and construction documentation, and temporary housing of dislocated District activities caused by construction projects. The upgrading of technology infrastructure includes, but is not limited to, , portable interface devices, servers, switches, routers, modules, sound projection systems, digital white boards, telephone system, call manager and network security/firewall, wireless technology systems and other miscellaneous equipment.

Alterations to Scope; Acquisition of Real Property. The scope and nature of any of the specific projects described above may be altered by the District as required by conditions that may arise during the course of design and construction. In the event that a modernization or renovation project is more economical for or otherwise determined by the Board to be in the best interests of the District to be undertaken as new construction, this bond measure authorizes said new construction including land acquisition, relocation and construction at a new or alternative site, and/or demolition and reconstruction and/or repurposing on the original site, including an expanded site, and all costs relating thereto. For any project involving rehabilitation or renovation of a building or the major portion of a building, the District shall be authorized to proceed with new construction instead, if the Board determines that replacement and new construction is more economically practical than rehabilitation and renovation, considering the building's age, condition, expected remaining life, and other relevant factors.

In addition, this measure authorizes the acquisition of real property, including necessary rights of ways or other real property interests required to expand District facilities, to provide access to school or other District facilities, or to provide additional school or related facilities.

Interim Financing Included; Joint Use Projects Authorized. Authorized projects include paying and/or prepaying interim or previously obtained financing for the types of projects included on the Bond Project List, such as bond anticipation notes, and includes prepayment of lease payments to acquire title to facilities and/or equipment previously financed. Projects may also be undertaken on a joint use basis with other public entities.

Bond Project List Not in Order of Priority; Board Determines Prioritization. Approval of this bond measure does not guarantee that the proposed projects will be funded beyond the local revenues generated by the measure. The District's capital needs currently exceed the amount of bonds the voters are being asked to authorize. The order in which particular projects are listed is not intended to suggest priority for funding or completion, and itemization of projects in the list above does not guarantee that all such projects will be undertaken. Project priorities will be determined by the Board. The ability of the District to undertake and complete the listed projects is subject to numerous variables including the adequacy and availability of sufficient funding sources. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.

Interpretation. The terms of this bond measure and the words used in the Bond Project List shall be interpreted broadly to effect the purpose of providing broad and clear authority for the officers and employees of the District to provide for the school facilities projects the District proposes to finance with the proceeds of the sale of bonds authorized by this proposition within the authority provided by law, including Article XIIIA, Section 1(b)(3) of the California Constitution, Education Code Section 15000 *et seq.* and the Strict Accountability in Local School

Construction Bonds Act of 2000. Words used in the Bond Project List such as repair, improve, upgrade, expand, modernize, renovate, and reconfigure are used to describe school facilities projects in plain English but are not intended to expand the nature of such projects beyond what is authorized by law. As such, in accordance with legal requirements, the Bond Project List does not authorize, and shall not be interpreted to authorize, expending proceeds of the sale of bonds authorized by this proposition for current maintenance, operation or repairs.

Severability. The Board hereby declares, and the voters by approving this Bond Measure concur, that every section and part of this bond proposition has independent value, and the Board and the voters would have adopted each provision hereof regardless of every other provision hereof. Upon approval of this measure by the voters, should any part be found by a court of competent jurisdiction to be invalid for any reason, all remaining parts hereof shall remain in full force and effect to the fullest extent allowed by law, and to this end the provisions of this bond measure are severable.

TAX RATE STATEMENT PREPARED BY THE DISTRICT

An election will be held in the Rocklin Unified School District (the "District") on November 3, 2026, to authorize the sale of up to $288,000,000 in general obligation bonds. The following information is submitted in compliance with Sections 9400-9404 of the Elections Code of the State of California. Such information is based upon the best estimates and projections presently available from official sources, upon experience within the District, and other demonstrable factors.

Based upon the foregoing and projections of the District's assessed valuation, the following information is provided:

1. The best estimate of the average annual tax rate that would be required to fund this bond issue over the entire duration of the bond debt service, based on estimated assessed valuations available at the time of filing of this statement, is $58.55 per $100,000 of assessed valuation. It is currently expected that the tax will be collected until fiscal year 2062-63.

2. The best estimate of the highest tax rate that would be required to fund this bond issue, based on estimated assessed valuations available at the time of filing this statement, is $60 per $100,000 of assessed valuation. This rate is projected to apply beginning in fiscal year 2027-28

3. The best estimate of total debt service, including principal and interest, that would be required to be repaid if all the bonds are issued and sold will be approximately $657,200,000.

These estimates are based on projections derived from information obtained from official sources, and are based on the assessed value (not market value) of taxable property on the County's official tax rolls. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions. The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and durations and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary depending on the timing of bond sales, the par amount of bonds sold at each sale and actual increases in assessed valuations. The timing of the bond sales and the amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. Actual assessed valuations will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

/s/ Roger Stock
Superintendent
Rocklin Unified School District
