County Counsel's Impartial Analysis of Measure N

The Schell Vista Fire Protection District ("District") has called a special election to ask voters to increase the District's appropriations (spending) limit for four years, the maximum period allowed by law. The proposed increase in the spending limit is necessary to allow use of all the proceeds of the Special Tax previously approved by District voters. If approved by a majority of those voting, Measure N would permit the District to maintain its current spending limitation for another four years.

In 2018, District voters approved a special tax ("Special Tax") to support obtaining, furnishing, operation, and maintaining ambulance and fire suppression equipment and apparatus, and for other necessary fire and life safety services and expenses within the District.

The California Constitution restricts governmental spending of tax proceeds, such as the District's Special Tax, by setting an annual spending limit. The Constitution authorizes voters to change this spending limit for a maximum period of four years at a time. When they approved the Special Tax in 2018, District voters also raised the District's spending limit for the maximum period (four years) allowed by the Constitution to allow the District to spend the tax money. The voters approved the continuation of the spending limit increase for additional four-year periods in 2022. The District Board of Directors has placed Measure A on the ballot to submit to the voters the question of whether the appropriations limit should continue for another four years.

If approved, this measure will continue the District's authority to spend the Special Tax through fiscal year 2029-30 and will allow the District to continue meeting its current operating costs, which are more than the limits otherwise allowed under the constitutional limit. If this measure fails, the District's current spending limits will be reduced, which will reduce the funds available to continue the District's current levels of service.

Measure N does not authorize the District to impose a new assessment or increase the property tax rate. The revenues appropriated pursuant to this increase may only be used for the purposes of obtaining, furnishing, operation, and maintaining ambulance and fire suppression equipment and apparatus, and for other necessary fire and life safety services and expenses of the District.

A "yes" vote on Measure N is a vote to continue the previously approved increase in the District's appropriations (spending) limit for an additional four years.

A "no" vote on Measure N is a vote against continuing the previously approved increase in the District's appropriations (spending) limit.

Argument in Favor of Measure N

Measure N is not a new tax. It simply allows your fire department to continue to use voter-approved funding for our community's fire and emergency services. To maintain the safety and financial stability of our Schell-Vista Fire Protection District, without raising taxes, vote Yes on Measure N.
