MEASURE P

EDUCATION PARCEL TAX MEASURE – TAHOE TRUCKEE UNIFIED SCHOOL DISTRICT

To protect quality education in local schools, continue supporting math, science, engineering, technology, arts, and skilled trades/job training programs preparing students for success in college/careers; attracting/retaining highly qualified teachers; and maintaining manageable class sizes, shall Tahoe Truckee Unified School District's measure be adopted, renewing the expiring $148 annual school parcel tax with a $40 increase, for nine years, with senior exemptions, annual inflation adjustments, independent oversight/ audits, and all funds (approximately $7,000,000 annually) benefiting local students?

YES ____ NO ____

COUNTY COUNSEL'S IMPARTIAL ANALYSIS OF MEASURE P

In November 2018, the voters of the Tahoe Truckee Unified School District ("District") approved Measure AA. Measure AA imposed a special tax in the amount of $148 on all parcels of real property within the District for a nine-year period. Measure AA will expire in July of 2028, and the District is proposing this measure in its place.

This measure would authorize the District to levy a special parcel tax of $188 on each taxable parcel within the District for a period of nine years, beginning July 1, 2027. Revenue from the tax can be used only for the purposes specified in the measure. Those purposes include funding academic programs; career technical education; classroom equipment and instructional supplies; technology equipment, services, and curriculum; physical education; visual and performing arts; library services; and student counseling, nursing, and social-emotional support services. The measure estimates that the tax would generate approximately $7 million annually, although actual revenues would vary based upon the number of taxable parcels and the annual inflation adjustment.

The measure requires that proceeds of the special tax be deposited into a separate account and used only for the purposes specified in the measure. The measure also requires preparation of an annual report accounting for the revenues collected and expenditures made from the special tax.

The measure also provides exemptions from the tax for qualifying property owners who are at least 65 years of age, persons receiving Supplemental Security Income due to disability, and qualifying recipients of Social Security Disability Insurance benefits meeting the income and residency requirements specified in the measure.

This measure was placed on the ballot by the governing board of the District through adoption of Resolution No. 33-2025-2026 on June 24, 2026. Approval by two-thirds of the voters voting on the measure is required for its adoption.

A "YES" vote on this Measure is a vote to authorize the special tax described in the measure.

A "NO" vote on this Measure is a vote against the proposed special tax. If the measure is not approved, Measure AA will continue to be collected according to its existing terms.

This analysis is submitted by the Office of the County Counsel of the County of Placer pursuant to the requirements of Section 9500 of the Elections Code of the State of California.

Clayton T. Cook, County Counsel

ARGUMENT IN FAVOR OF MEASURE P

Vote YES on P to protect quality education in Tahoe Truckee Schools by renewing expiring local school funding.

Thanks to great teachers, innovative academic programs, and strong support from the community, Tahoe Truckee Unified School District is recognized for success in preparing local students for college and good jobs.

Since 1989, TTUSD has relied upon local school parcel tax funding that represents over 6% of the school district budget. For over 45 years, this funding has supplemented unstable and inadequate funding from the State that only supports basic education. Unless renewed by voters, this funding will expire soon and over $5,000,000 will need to be cut, forcing teacher layoffs, academic program reductions, and increased class sizes.

Voting YES on P renews expiring school funding to continue:

- Supporting programs in science, technology, engineering and math
- Attracting and retaining highly qualified teachers
- Maintaining career training programs for in-demand fields like health sciences and skilled trades
- Maintaining manageable class sizes

Measure P also continues strict fiscal accountability, oversight, and transparency protections, including:

- All money raised would stay local and could not be taken by the county, state, or federal governments
- An independent oversight committee, annual audits, and public spending disclosure would continue to ensure funds are spent as promised
- All funds go straight to teaching and classroom instruction, and no funds can be used for administrator salaries
- Homeowners age 65 and older would continue to be eligible for an exemption and do not need to reapply

Even if you don’t have school-age children, supporting quality education in local schools is a wise investment. Good schools improve the quality of life in our community and protect the value of our homes.

Please join local parents, teachers, business leaders, and elected leaders in voting Yes on P for Tahoe Truckee schools!

Signed,
Dr. David Steakley, NTHS Science Teacher

NO REBUTTAL TO THE ARGUMENT IN FAVOR OF MEASURE P WAS SUBMITTED

ARGUMENT AGAINST MEASURE P

Tahoe Truckee families deserve excellent schools—and they deserve transparency, accountability, and responsible stewardship of taxpayer dollars.

Measure P is described as a renewal, but it also raises the existing parcel tax from $148 to $188 per parcel, authorizes automatic annual inflation increases, and extends the tax for another nine years.

The district's own documents acknowledge that the current Measure AA parcel tax remains in effect through the 2027–2028 fiscal year if Measure P is not approved. Voters should ask why they are being asked to approve a higher tax years before the current one expires.

Measure P is projected to generate approximately $7 million annually, yet the district states that failing to renew the tax would require "over $5 million" in budget reductions. Taxpayers deserve a detailed explanation of the difference and a clear, public spending plan before being asked to approve millions in additional revenue.

The measure permits spending across numerous broad categories, including academic programs, technology, equipment, counseling, libraries, arts, and other services, but it does not establish binding funding levels or measurable performance goals for any of them.

Everyone wants strong public schools. The question is whether this proposal provides sufficient specificity and accountability for a long-term tax commitment.

Before approving higher taxes with automatic increases, voters should insist on greater transparency, clearer priorities, and a proposal that more directly explains how every additional dollar will improve student outcomes.

The district has two more years before Measure AA sunsets – send this excessive tax increase that hits working class families the hardest back to the drawing board so that we can come up with a plan that works for everyone.

Vote NO on Measure P.

Mark Wright, Chairman, Placer County Republican Party
John "MAC" Young, Chairman, Nevada County Republican Party
Todd White, El Dorado County GOP
Herb W. Morgan, Candidate CA State Controller
Eric Eisenhammer, President, Gold Country Taxpayers Association

REBUTTAL TO THE ARGUMENT AGAINST MEASURE P

None of the Measure P opponents are residents, voters, or taxpayers in our school district. They don't understand the needs of our schools and our communities.

By contrast, Measure P is supported by trusted local educators, business, and community leaders.

Don't be misled and remember these facts:

40 current teaching positions in our schools depend on Measure P. Tahoe-Truckee schools have relied on locally controlled parcel tax funding for decades and this funding expires next school year. Without Measure P, teachers, academic programs, career training, and manageable class sizes will be cut.

Measure P renews current funding to protect quality education. The current parcel tax rate has not increased since 2018, while the cost of providing quality education has increased substantially. The current parcel tax provides over $5,000,000 annually. Measure P provides approximately $7,000,000 because it renews current funding and adjusts the rate by $40 (~$3 per month) to account for inflation.

Measure P continues exemptions for seniors. Under Measure P, seniors and low-income people with disabilities are eligible for an exemption so it's not a burden to those on fixed or limited incomes.

Measure P requires strict taxpayer protections:

- **Local control:** By law, every penny must be used in local schools and cannot be taken away
- **Classrooms, not administration:** All funds go straight to the classroom and cannot be used for administrator salaries
- **Accountability:** An independent oversight committee reviews all spending quarterly and annual audits/public disclosure ensure funds are spent properly

Join trusted local leaders and vote YES on P to protect Tahoe-Truckee schools.

Signed,
Amanda Helm, Member, TTUSD Oversight Committee
Edward Hilton, Tahoe City Pastor
Annie Stefani, Tahoe City Business Owner
John Neuberger, Principal, Truckee High School
Alejandro Brambila, Owner, Las Panchitas Restaurant

FULL TEXT OF MEASURE P SUBMITTED BY TAHOE TRUCKEE UNIFIED SCHOOL DISTRICT

TO PROVIDE EDUCATIONAL PROGRAMS AND SUPPORT SERVICES FOR STUDENTS WITHIN TAHOE TRUCKEE UNIFIED SCHOOL DISTRICT

Findings

Tahoe Truckee Unified School District (the "District") provides a high-quality education at 12 schools serving approximately 4,000 local students residing in portions of Nevada County, Placer County, and El Dorado County in the Truckee, North Lake Tahoe and West Shore areas.

District schools have earned prestigious honors including California Distinguished School recognition, reflecting the District's strong academics, innovative programs, and success preparing students for college, careers, and beyond.

Studies show that good local schools increase demand for homes and help protect local quality of life and protect property values.

Since 1989, the District has benefited from local school parcel tax funding approved by voters that represents over 5% of the school district budget.

Parcel tax funding supplements unstable and inadequate funding from the State of California (the "State") that only supports a basic education.

Locally controlled parcel tax funding allows the District to attract and retain qualified and experienced teachers, maintain manageable class sizes, and support quality academic and job training programs that prepare students for success in college and the workforce.

Unless renewed by voters, local parcel tax funding will expire soon and over $5 million will need to be cut from the budget, forcing teacher layoffs, cuts to academic programs, and increased class sizes.

To help prevent cuts to teaching and academic programs, the Board of Trustees (the "Board") believes that local parcel tax funding needs to be renewed at the current $148 annual parcel tax rate and increased by $40 to account for value lost to inflation since last renewed in 2018.

If approved, a local school funding renewal measure would continue this funding for 9 years and provide approximately $7 million annually in locally controlled school funding.

Funds from a local school funding renewal measure would continue to support programs in science, technology, engineering, and math; attract and retain highly qualified teachers; maintain career technical education and job training programs for in-demand fields like health sciences and skilled trades; and maintain manageable class sizes.

All money raised from a local school funding renewal measure must stay local and could not be taken by the state or federal governments.

An independent oversight committee, annual audits, and public spending disclosure would continue to ensure funds are spent as promised.

No funds from a local school funding renewal measure can be used for administrator salaries.

Homeowners age 65 and older would continue to be eligible for an exemption from the cost and do not need to reapply.

Low-income people with disabilities are also eligible for an exemption from the cost.

INTRODUCTION AND PURPOSE

To protect quality education in local schools, continue supporting math, science, engineering, technology, arts, and skilled trades, job training programs preparing students for success in college and careers; attracting and retaining highly qualified teachers; and maintaining manageable class sizes, the District proposes a measure be adopted, renewing the expiring $148 annual school parcel tax with a $40 increase, for nine years, with senior exemptions, annual inflation adjustments, independent oversight and audits, and all funds (approximately $7,000,000 annually) benefiting local students.

The proceeds of the parcel tax may be used for any of the following purposes:

Academic Programs

The continued enhancement of elementary, middle and high school academic programs, such as enrichment classes, college preparatory courses, science education, outdoor education, and academic electives, by providing qualified teachers and acquiring necessary instructional supplies and equipment.

Career Technical Education

The continued enhancement of high school career technical education curricula by updating equipment, developing new programs, and maintaining current programs and classes that address local vocational needs and prepare students for living wage careers.

Classroom Equipment and Supplies

The continued provision of instructional supplies, books, and equipment.

Technology Equipment and Curriculum

The continued support for computer and technology services, licenses, equipment purchases, staffing, maintenance, training, and curriculum development to

enhance the capacity of students to fully utilize technology in their educational and professional pursuits.

Physical Education

The continued support of elementary school physical education programs and the acquisition of necessary physical education equipment and supplies at all school sites.

Visual and Performing Arts

Support for the elementary, middle and high school visual and performing arts programs including music, drama, and art, with teachers, equipment, and supplies.

Libraries

The continued staffing of all comprehensive high schools with certificated librarians, support for library services at elementary and middle schools, and the continued acquisition of library books and equipment for all school sites.

Social Emotional Support, Counseling and Nursing Services

Support for character education, counseling and nursing services and curriculum that encourage student wellbeing and social/emotional development.

RATE AND PROCEDURE

Subject to two thirds approval of the voters, this local funding measure and its parcel tax (a "Qualified Special Tax" under Government Code section 50079) will become effective as of July 1, 2027. The tax will be levied at the current rate of $148 with an increase of $40, for a total of $188, per parcel of taxable real property per year for nine (9) years. The tax will be collected by the Nevada County Tax Collector, the Placer County Tax Collector, and the El Dorado County Tax Collector (the "Tax Collectors") at the same time as and along with, and will be subject to the same penalties as, general *ad valorem* taxes collected by said Tax Collectors. The tax and penalty will bear interest at the same rate as the rate for unpaid *ad valorem* property taxes until paid. Any tax levied will become a lien upon the properties against which taxes are assessed and collectible as herein provided.

To account for changes in the cost of delivering the classroom programs and student services supported by the qualified special tax, the tax rate shall be adjusted annually pursuant to this provision. Each year, beginning with the 2028-2029 tax year, the tax rate shall be adjusted to account for inflation by the average of the reported periodic annual percentage changes in the Consumer Price Index-All Urban Consumers, San Francisco-Oakland-Hayward area (Series CUURA422SA0) over the prior twelve months, as of April of each year, as published by the U.S. Bureau of Labor Statistics; provided, however that the annual adjustment in the tax shall not exceed 3% per year, but in no case be less than 0% per year. Any adjustment shall be rounded to the nearest dollar. In the event the Consumer Price Index-All Urban Consumers, San Francisco-Oakland-Hayward area (Series CUURA422SA0) is no longer published, the Board shall adopt a comparable index of general price levels as it shall determine.

With respect to all general property tax matters within its jurisdiction, the Nevada County Tax Assessor, Placer County Tax Assessor, and the El Dorado County Tax Assessor, or other appropriate County tax officials (the "Counties") will make all final determinations of tax exemption or relief for any reason, and that decision will be final and binding. With respect to matters specific to the levy of the Qualified Special Tax, including exemptions, the decisions of the District will be final and binding. The procedures described herein, and any additional procedures established by the Board of Trustees, will be the exclusive claims procedure for claimants seeking an exemption, refund, reduction, or re-computation of the special tax. Whether any particular claim is to be resolved by the District or by the Counties will be determined by the District, in coordination with the Counties as necessary.

The Board may adopt such additional or supplemental procedures as it deems necessary or convenient for the administration of the Qualified Special Tax.

A "Parcel of Taxable Real Property" is defined as any unit of real property within the District's boundaries that receives a separate tax bill for ad valorem property taxes from the County Tax Collector. All property that is otherwise exempt from or upon which no ad valorem property taxes are levied in any year will also be exempt from the special tax in such year.

This qualified special tax is estimated to raise $7 million in annual local funding for District schools. The amount of annual local funding raised by this qualified special tax will vary from year-to-year due to changes in the number of parcels subject to the levy and the cost of living increase.

If this Measure is approved by voters, the levy of the qualified special tax authorized by voters at the November 2018 election known as "Measure AA" shall end on the first day that the Qualified Special Tax authorized by this Measure is levied. If this Measure is not approved by voters, Measure AA will continue to be collected pursuant to its terms.

EXEMPTIONS

Upon application and pursuant to any procedures adopted by the District, an exemption from payment of the qualified special tax may be granted to a parcel owned by:

1) Persons who are aged sixty-five (65) years or older ("Senior Exemption").

2) Persons receiving Supplemental Security Income for a disability, regardless of age, and occupying said parcel as his or her primary residence ("SSI Exemption").

3) Persons receiving Social Security Disability Insurance benefits, regardless of age, whose yearly income does not exceed 250 percent of the 2012 federal poverty guidelines issued by the United States Department of Health and Human Services, and occupying said parcel as his or her primary residence ("SSDI Exemption").

Exemptions may be granted based on a one-time application and exemptions granted under prior qualified special taxes levied by the District will not require re-approval, subject to the District's right to verify a property owner's continuing qualification for exemption. The District will annually provide to the Tax Collectors or other appropriate County tax officials a list of parcels that the District has approved for exemption.

ACCOUNTABILITY AND COMPLIANCE MEASURES

In accordance with Government Code sections 50075.1 and 50075.3, the following accountability measures, among others, shall apply to the Qualified Special Tax levied in accordance with this Measure:

1) Proceeds of the Qualified Special Tax shall be deposited into a fund which shall be kept separate and apart from other funds in the District and shall be applied only as set forth in this Measure.

2) An annual report, including the revenues generated by the Qualified Special Tax and the expenditures of these monies and the status of any projects funded by these monies, shall be filed by the chief fiscal officer of the District with the Board no later than January 1 of the year following the fiscal year during which the monies were expended.

3) The Board shall provide for the creation of an independent oversight committee to oversee expenditure of the funds collected pursuant to the Measure to ensure that moneys raised under this Measure are spent only for the purposes described in this Measure. The Board shall provide for the composition, duties, and other necessary information regarding the committee's formation and operation. The Board shall have the option to extend any current oversight committee and its membership to serve as the oversight committee for this Measure.

PROTECTION OF FUNDING

Current law forbids any decrease in State or Federal funding to the District because of the District's adoption of a qualified special tax. However, if any such funds are reduced because of the adoption of this qualified special tax, then the amount of the qualified special tax will be reduced annually as necessary in order to restore such State or Federal funding.

APPROPRIATIONS LIMIT

Pursuant to California Constitution Article XIIIB and applicable laws, the appropriations limit for the District will be adjusted periodically by the aggregate sum collected by levy of this qualified special tax. This provision shall be deemed to be declaratory of existing procedures governing District expenditures.

SEVERABILITY

The Board hereby declares, and the voters by approving this measure concur, that every section, paragraph, sentence and clause of this measure has independent value, and the Board and the voters would have adopted each provision hereof regardless of every other provision hereof. Upon approval of this measure by the voters, should any part be found by a court of competent jurisdiction to be invalid for any reason, all remaining parts hereof shall remain in full force and effect to the fullest extent allowed by law.
