Bond Measure D

IMPARTIAL ANALYSIS BY COUNTY COUNSEL COLUMBIA ELEMENTARY SCHOOL DISTRICT BOND MEASURE D

This analysis of the general obligation bond measure for the Columbia Elementary School District ("District"), Measure D, is provided in accordance with Elections Code section 9500, et seq. The electors entitled to vote on the measure are those residing within the District's boundaries. Measure D does not propose to amend or add to existing law.

Section 1 of Article XIIIA and section 18 of Article XVI of the California Constitution and Education Code sections 15264, et seq. authorize a school district to adopt a proposal, subject to the approval of the District's voters, authorizing the issuance of general obligation bonds for specific school district purposes. The District has adopted such a proposal and is submitting it to the District electors for their consideration.

If fifty-five (55%) of the qualified electors voting on Measure D vote for approval, the District's Board of Trustees would be authorized to issue bonds in the principal amount not to exceed $11,500,000 and to levy ad valorem taxes on taxable property within the District to pay for the bonded indebtedness plus interest. The interest rate on the bonds would not exceed the statutory limit.

The projects to be financed by the bonds may include: (1) repairing, upgrading, renovating or replacing infrastructure, classrooms, equipment, and facilities as described in the full text of the measure (the "Full Text"); (2) upgrading heating, ventilation, and air conditioning systems; (3) renovating, modernizing, or replacing electrical, plumbing and sewer systems; (4) making technological, safety, and security improvements; (5) upgrading, repairing or expanding school site parking, roadways and other infrastructure; (6) improving accessibility, safety and security; and (7) other projects listed in the Full Text. The proceeds will not be used for any purpose not identified in the measure, including teacher or administrator salaries. The District's Board of Trustees shall establish a citizen's oversight committee to ensure that the proceeds of the bonds are spent only on the specific projects and the specific school sites identified in Measure D.

According to the tax rate statement submitted by Clay Ross, Superintendent of the Columbia Elementary School District, the best estimate of the average annual ad valorem tax which would be levied on taxable real property to repay the bonds over their tenn is $23 .49 per $100,000 assessed value. These calculations are estimates only and are not binding upon the District.
If Measure Dis not approved by 55% of the qualified electors voting on the measure, the District will not be authorized to issue bonds for the aforementioned purposes.

A "yes" vote is to authorize the issuance of the bonds.

A "no" vote is against authorizing the issuance of the bonds.
