based on estimated assessed valuations available at the time of filing this statement, is $59.00 per $100,000 of assessed valuation. This rate is projected to apply beginning in fiscal year 2027-28.

3. The best estimate of total debt service, including principal and interest, that would be required to be repaid if all the bonds are issued and sold will be approximately $67,100,000.

These estimates are based on projections derived from information obtained from official sources, and are based on the assessed value (not market value) of taxable property on the County's official tax rolls. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions. The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and durations and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary depending on the timing of bond sales, the par amount of bonds sold at each sale and actual increases in assessed valuations. The timing of the bond sales and the amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. Actual assessed valuations will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

Superintendent
Live Oak Unified School District

IMPARTIAL ANALYSIS OF MEASURE "H"

This measure was placed on the ballot by the Board of Trustees (Board) of the Live Oak Unified School District (District). A "yes" vote is a vote to authorize bonds. A "no" vote is a vote against issuing the proposed bonds.

If affirmed by 55% of the electorate in the District, Measure H will authorize the issuance of new general obligation bonds in the maximum principal amount of $33.2 million ($33,200,000). Bond proceeds will be used to fund projects included on the Bond Project List as set forth in the measure. Bond proceeds will be expended on the modernization, renovation, expansion, acquisition, construction/reconstruction, rehabilitation, and/or replacement of school facilities of the District including the furnishing and equipping of school facilities, at all existing sites of the District and all sites that may be acquired by the District in the future.

Bond proceeds will be used for furniture, fixtures, equipment, architectural, engineering and similar planning costs, program/project management, staff training expenses and customary contingency for unforeseen design and construct costs. Bond proceeds will also be used for the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies, design and construction documentation and temporary housing of the dislocated District activities caused by construction projects.

The Board has certified that it has evaluated safety, class size reduction, enrollment growth, and information technology needs of the District in developing the Bond Project List.

Approval of the bond measure does not guarantee that any particular project will be funded beyond the local revenues generated by the bond measure. The District's proposal for the projects may assume the receipt of matching state funds, which could be subject to appropriation by the

Legislature or approval of a statewide bond measure. Bond proceeds may also be used for other incidental costs associated with the listed projects, including election and bond issuance costs.

The Board will conduct independent annual performance and financial audits and appoint an independent citizens' oversight committee to ensure bond proceeds are expended as promised and specified.

Measure H will not otherwise affect existing law. This analysis is submitted by the Sutter County Counsel as required under Elections Code section 9500.

DATE: July 15, 2026

WILLIAM J. VANASEK, SUTTER COUNTY COUNSEL

ARGUMENT IN FAVOR OF MEASURE H

Our schools are some of the most important assets in our community and should be one of our top priorities. High-quality schools improve student achievement, strengthen property values, prepare children for a productive future, and create greater neighborhood safety. Although our teachers and staff do a great job educating students, our elementary classrooms and school facilities in the Live Oak Unified School District are overcrowded and inadequate to provide students with the learning environments they need to succeed.

Although our schools have been well maintained over the years, overcrowded classrooms and sports facilities must be added and upgraded to meet the needs of our growing community. Student overcrowding continues to strain existing campuses, limiting instructional space and program opportunities. Measure H would allow the District to improve our local schools and the quality of education provided to our students. By investing in our schools, we can meet today's safety, technological, and educational standards and improve our community.

If passed, Measure H will provide funding to make critical facility improvements at Live Oak schools by:

- Constructing a new elementary school to reduce student overcrowding
- Constructing/upgrading/renovating Softball, Baseball, and Soccer fields for Live Oak High School student and community use

Measure H makes financial sense and protects taxpayers.

- By law, spending must be reviewed and annually audited by an independent citizens' oversight committee.
- All bond funds must be spent locally and **cannot be taken by the State.**
- Funds are required to be spent only on schools, not for administrator or teacher salaries.

Measure H builds new classrooms to address overcrowded classrooms, builds softball, baseball and soccer fields at the high school, improves the education of local students, and maintains the quality of our community. That's something we can all support. Please join us and **VOTE YES ON MEASURE H!**
