measure does not guarantee that the proposed projects will be funded beyond the local revenues generated by the measure. The District's capital needs currently exceed the amount of bonds the voters are being asked to authorize. The order in which particular projects are listed is not intended to suggest priority for funding or completion, and itemization of projects in the list above does not guarantee that all such projects will be undertaken. Project priorities will be determined by the Board. The ability of the District to undertake and complete the listed projects is subject to numerous variables including the adequacy and availability of sufficient funding sources. The District is unable to anticipate all unforeseen circumstances which may prevent some of the projects listed above from being undertaken or completed.

Interpretation. The terms of this bond measure and the words used in the Bond Project List shall be interpreted broadly to effect the purpose of providing broad and clear authority for the officers and employees of the District to provide for the school facilities projects the District proposes to finance with the proceeds of the sale of bonds authorized by this proposition within the authority provided by law, including Article XIIIA, Section 1(b)(3) of the California Constitution, Education Code Section 15000 et seq. and the Strict Accountability in Local School Construction Bonds Act of 2000. Words used in the Bond Project List such as repair, improve, upgrade, expand, modernize, renovate, and reconfigure are used to describe school facilities projects in plain English but are not intended to expand the nature of such projects beyond what is authorized by law. As such, in accordance with legal requirements, the Bond Project List does not authorize, and shall not be interpreted to authorize, expending proceeds of the sale of bonds authorized by this proposition for current maintenance, operation or repairs.

Severability. The Board hereby declares, and the voters by approving this Bond Measure concur, that every section and part of this bond proposition has independent value, and the Board and the voters would have adopted each provision hereof regardless of every other provision hereof. Upon approval of this measure by the voters, should any part be found by a court of competent jurisdiction to be invalid for any reason, all remaining parts hereof shall remain in full force and effect to the fullest extent allowed by law, and to this end the provisions of this bond measure are severable.

ABBREVIATED FORM OF BOND MEASURE

To improve the quality of education; construct a new elementary school to reduce student overcrowding; and upgrade athletic fields and facilities for school and community use; shall Live Oak Unified School District's measure be adopted authorizing $33.2 million of bonds at legal rates, generating approximately $1.97 million annually while bonds are outstanding at average rates of $56 per $100,000 assessed value, with annual audits, independent citizens' oversight, NO money for salaries and all money staying local?

TAX RATE STATEMENT

An election will be held in the Live Oak Unified School District (the "District") on November 3, 2026, to authorize the sale of up to $33,200,000 in general obligation bonds. The following information is submitted in compliance with Sections 9400-9404 of the Elections Code of the State of California. Such information is based upon the best estimates and projections presently available from official sources, upon experience within the District, and other demonstrable factors.

Based upon the foregoing and projections of the District's assessed valuation, the following information is provided:

1. The best estimate of the average annual tax rate that would be required to fund this bond issue over the entire duration of the bond debt service, based on estimated assessed valuations available at the time of filing of this statement, is $55.62 per $100,000 of assessed valuation. It is currently expected that the tax will be collected until fiscal year 2060-61.

2. The best estimate of the highest tax rate that would be required to fund this bond issue,

based on estimated assessed valuations available at the time of filing this statement, is $59.00 per $100,000 of assessed valuation. This rate is projected to apply beginning in fiscal year 2027-28.

3. The best estimate of total debt service, including principal and interest, that would be required to be repaid if all the bonds are issued and sold will be approximately $67,100,000.

These estimates are based on projections derived from information obtained from official sources, and are based on the assessed value (not market value) of taxable property on the County's official tax rolls. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions. The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and durations and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary depending on the timing of bond sales, the par amount of bonds sold at each sale and actual increases in assessed valuations. The timing of the bond sales and the amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. Actual assessed valuations will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

Superintendent
Live Oak Unified School District

IMPARTIAL ANALYSIS OF MEASURE "H"

This measure was placed on the ballot by the Board of Trustees (Board) of the Live Oak Unified School District (District). A "yes" vote is a vote to authorize bonds. A "no" vote is a vote against issuing the proposed bonds.

If affirmed by 55% of the electorate in the District, Measure H will authorize the issuance of new general obligation bonds in the maximum principal amount of $33.2 million ($33,200,000). Bond proceeds will be used to fund projects included on the Bond Project List as set forth in the measure. Bond proceeds will be expended on the modernization, renovation, expansion, acquisition, construction/reconstruction, rehabilitation, and/or replacement of school facilities of the District including the furnishing and equipping of school facilities, at all existing sites of the District and all sites that may be acquired by the District in the future.

Bond proceeds will be used for furniture, fixtures, equipment, architectural, engineering and similar planning costs, program/project management, staff training expenses and customary contingency for unforeseen design and construct costs. Bond proceeds will also be used for the acquisition of a variety of instructional, maintenance and operational equipment, including the reduction or retirement of outstanding lease obligations and interim funding incurred to advance fund projects from the list; installation of signage and fencing; payment of the costs of preparation of all facility planning, facility studies, assessment reviews, facility master plan preparation and updates, environmental studies, design and construction documentation and temporary housing of the dislocated District activities caused by construction projects.

The Board has certified that it has evaluated safety, class size reduction, enrollment growth, and information technology needs of the District in developing the Bond Project List.

Approval of the bond measure does not guarantee that any particular project will be funded beyond the local revenues generated by the bond measure. The District's proposal for the projects may assume the receipt of matching state funds, which could be subject to appropriation by the
