SAN DIEGO COUNTY
MEASURE B

(This Measure will appear on the ballot in the following form.)

MEASURE B

MEASURE TO FUND SAN DIEGO COUNTY HEALTH & SAFETY SERVICES
To clean-up sewage pollution in Tijuana River Valley, improve wildfire prevention, emergency response, access to healthcare, food assistance, childhood development services, and authorized administrative expenses; shall the measure authorizing a half-cent sales tax raising an estimated $400,000,000 to $450,000,000 annually, requiring citizen oversight, public spending disclosure, and independent annual audits, and lasting until ended by voters, be adopted?

This measure requires Simple Majority (50%+1) of those voting on the measure.

COUNTY COUNSEL IMPARTIAL ANALYSIS

MEASURE TO FUND SAN DIEGO COUNTY HEALTH & SAFETY SERVICES

This measure was placed on the ballot by a petition signed by the requisite number of voters.

This measure, if approved by a majority vote of qualified electors, would impose a transaction and use tax of a half cent per dollar on the sale of all tangible personal property in the County of San Diego, in both incorporated and unincorporated areas. The tax would be administered similarly to collection of other state and local sales taxes.

The tax is subject to certain specified exemptions and exclusions that are generally consistent with state and locally imposed sales taxes. The sales tax would remain in effect until repealed by voters. It is estimated that the sales tax would generate approximately $400,000,000 to $450,000,000 per year.

This measure would establish a Protect San Diego County's Health and Safety Fund for revenues generated. Funds would only be used for specified purposes, including efforts to stop sewage pollution in the Tijuana River Valley, wildfire prevention and emergency response, access to healthcare, food assistance, and childhood development services, and authorized administrative expenses. The measure would allocate funding as follows:

- Stopping sewage pollution in the Tijuana River Valley: 22.5%
- Public safety services and wildfire prevention: 17.5%
- Healthcare, childcare, and nutrition services: 60%

The measure would establish a twelve-member oversight committee, which would audit how funds are spent to ensure compliance with the measure's requirements. The Board of Supervisors for the County of San Diego would appoint eleven of the twelve members of this committee, who would be required to have certain qualifications specified in the measure. The twelfth member of this committee would be the County of San Diego Auditor. The measure would also prohibit the use of funds for such things as elected official or County employee salaries, lobbyist contracts, or government office renovations. The measure would require public disclosure of all spending.

A YES vote would impose a half-cent sales tax for use to clean-up sewage pollution in the Tijuana River Valley, public safety, wildfire prevention, healthcare, childcare and nutrition services.

A NO vote would reject a half-cent sales tax for use to clean-up sewage pollution in the Tijuana River Valley, public safety, wildfire prevention, healthcare, childcare and nutrition services.

ARGUMENTS IN SUPPORT OF OR IN OPPOSITION TO THE PROPOSED LAWS ARE THE OPINIONS OF THE AUTHORS

ARGUMENT IN FAVOR OF MEASURE B

VOTE YES on B - Protect San Diego County's Health & Safety

San Diego County is facing serious threats and deep cuts to essential services we rely on to confront them – wildfires, crime, Tijuana River toxic sewage and Washington's severe healthcare cuts blowing a massive hole in the County's budget and pushing local hospitals and ERs to the brink.

Without Measure B, we'll see slower 911 response times, reduced hospital staffing, families without healthcare and potential layoffs of first responders. YES on B prevents these cuts and protects San Diego County's health and safety to safeguard our tax dollars from corrupt politicians in Washington and Sacramento.

YES ON B: PROTECT 911 RESPONSE. PREVENT WILDFIRES. 25% of all local 911 calls get put on hold – and cuts will make it worse. Measure B ensures we have paramedics and police responding fast. Measure B ensures we're prepared to fight wildfires with more brush clearing, wildland firefighters and helicopters.

YES ON B: STOP HEALTHCARE CUTS. With 170k local families and kids losing coverage and hospitals forced to lay off medical staff, Measure B stops the unthinkable. Measure B keeps doctors and nurses on the job, protects ERs and family clinics, and maintains Medi-Cal for seniors and children's care.

YES ON B: FIGHT THE TOXIC TJ SEWAGE. Measure B fights the worsening Tijuana River sewage crisis closing beaches, making kids sick and poisoning our air and water. Instead of cutting clean-water protections, Measure B upgrades water safety infrastructure and funds emergency health response for South County families.

YES ON B: HOLD POLITICIANS ACCOUNTABLE. Citizens wrote Measure B – not politicians. Measure B requires independent audits, public disclosure and citizen oversight to ensure funds are used as intended to protect residents' health and safety, and prevent waste and fraud by county officials.
